Sesame Street Revisited:

"Sesame Street" revisited ,1975 Sesame Street Revisited Thomas D. Cook,1975-09-26 In the course of its television lifetime Sesame Street has taught alphabet related skills to hundreds of thousands of preschool children But the program may have attracted more of its regular viewers from relatively affluent homes in which the parents were better educated Analyzing and reevaluating data drawn from several sources principally the Educational Testing Service s evaluations of Sesame Street the authors of this book open fresh lines of inquiry into how much economically disadvantaged children learned from viewing the series for six months and into whether the program is widening the gap that separates the academic achievement of disadvantaged preschoolers from that of their more affluent counterparts The authors define as acute dilemma currently facing educational policymakers what positive results are achieved when a large number of children learn some skills at a younger age if this absolute increase in knowledge is associated with an increase in the difference between social groups

The Promise of Preschool Elizabeth Rose,2010-03-17 The past 45 years have seen the emergence of education for young children as a national issue spurred by the initiation of the Head Start program in the 1960s efforts to create a child care system in the 1970s and the campaign to reform K 12 schooling in the 1980s Today the push to make preschool the beginning of public education for all children has gained support in many parts of the country and promises to put early education policy on the national agenda Yet questions still remain about the best ways to shape policy that will fulfill the promise of preschool In *The Promise of Preschool* Elizabeth Rose traces the history of decisions on early education made by presidents from Lyndon Johnson to George W Bush by other lawmakers and by experts advocates activists and others Using this historical context as a lens the book shows how the past shapes today s preschool debate and provides meaningful perspective on the policy questions that need to be addressed as we move forward Should we provide preschool to all children or just to the neediest Should it be run by public schools or incorporate private child care providers How do we most effectively ensure educational quality and success *The Promise of Preschool* is a balanced in depth investigation into these and other important questions and demonstrates how an understanding of the past can stimulate valuable debate about the care and education of young children today

The Plug-In Drug Marie Winn,2002-03-26 How does the passive act of watching television and other electronic media regardless of their content affect a developing child s relationship to the real world Focusing on this crucial question Marie Winn takes a compelling look at television s impact on children and the family Winn s classic study has been extensively updated to address the new media landscape including new sections on computers video games the VCR the V Chip and other control devices TV programming for babies television and physical health and gaining control of your TV

Viewers Like You Laurie Oullette,2012-07-24 How public is public television if only a small percentage of the American people tune in on a regular basis When public television addresses viewers like you just who are you Despite the current of frustration with commercial television that runs through American

life most TV viewers bypass the redemptive oasis of the wasteland represented by PBS and turn to the sitcoms soap operas music videos game shows weekly dramas and popular news programs produced by the culture industries Viewers Like You traces the history of public broadcasting in the United States questions its priorities and argues that public TV's tendency to reject popular culture has undermined its capacity to serve the people it claims to represent Drawing from archival research and cultural theory the book shows that public television's perception of what the public needs is constrained by unquestioned cultural assumptions rooted in the politics of class gender and race
