Setting The Mould The United States And Britain 1945 1950:

Setting the Mould Robin Edmonds,1986 **Acheson and Empire** John T. McNay,2001 Acheson and Empire offers a compelling reassessment of Dean Acheson s policies toward the former colonial world during his period as secretary of state from 1949 to 1953 John T McNay argues that Acheson inherited through his own personal history a way of understanding the world that encouraged imperial style international relationships This worldview represented a well developed belief system rooted in his Ulster Protestant heritage that remained consistent throughout his life **Harold Wilson and European**

Integration Oliver J. Daddow,2016-01-20 Harold Wilson s direction of the second British application to join the EEC us ripe for reinterpretation With new and exciting material now available in the Public Record Office and abroad this is an extremely propitious moment to reconsider Wilson s motivations and to contextualise them in light of evidence on foreign policy making contained in the official record **American Studies** Jack Salzman,1990-05-25 This volume supplements the acclaimed

three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology

The US, the UN and the Korean War Robert Barnes,2014-02-28 Military social and economic historians have long appreciated the significance of the conflict in Korea in shaping the post war world The policy of containment was formed China was established as an important military power and the US increased its military expenditure fourfold as a result of a conflict which killed over 33 000 Americans What has been less appreciated is the role played by the United Nations and the British Commonwealth in influencing US strategy at this time of crisis the Truman administration invested time and effort into gaining UN approval for the conflict in Korea and the course of the war was adapted to keep UN allies often holding crucial strategic positions in other Cold War theatres in tow Robert Barnes develops a fresh perspective on these fluctuating relationships the tensions between Washington and its British Commonwealth allies and their impact on the direction of the conflict in order to challenge the common view that the United States was able to use its dominant position within the UN to pursue its Cold War ambitions with impunity This important new interpretation is supported by evidence from a wealth of sources from official government records to private papers and memoirs written by the most important American and Commonwealth personalities directly involved in shaping the UN s response to the conflict This study presents a thorough deconstruction of the decision making process behind US handling of the Korean War from the outbreak of conflict in 1950 to the Geneva Conference of 1954 This will be essential reading for students of International Relations Cold War Studies and modern History **Assuming the Burden** Mark Atwood Lawrence,2007-04-24 That decision he argues marked America s first definitive step toward embroilment in Indochina the start of a long series of moves that would lead the Johnson administration to commit U S combat forces a decade and a half later Jacket **The Juggler** Warren F. Kimball,1994-08-28

Here Warren Kimball explores Roosevelt's vision of the postwar world by laying out the nature and development of FDR's war aims his long range political goals As the face of eastern Europe and the world changes before our eyes Roosevelt's goals dismissed during the Cold War as impractical seem less unrealistic today Rebuilding Europe David W.

Ellwood,2014-02-04 With the end of the Cold War and the prospect of a federal Europe ever closer this book is a timely reassessment of the processes by which western Europe was reborn out of the devastation and despair of 1945 Concentrating on the first postwar decade and making rich use of the latest research findings David Ellwood gives a detailed account of the practicalities of reconstruction how it was done what it cost who paid for it and what those involved hoped for expected and actually received **The Labour Party, Nationalism and Internationalism, 1939-1951** R. M.

Douglas,2004-03-01 The Second World War was a watershed moment in foreign policy for the Labour Party in Britain This book traces how the British democratic left set about the task of defining the principles of a radically new international system for the post war world The author shows how the experience of total war fundamentally reshaped the left's attitudes toward national identity and international policy Breaking with the traditional accounts that place Cold War tensions at the centre of the Attlee government's activities in the immediate postwar years R M Douglas's book provides an entirely new framework for reassessing British foreign policy and left wing concepts of national identity during the most turbulent mement of Britain's modern history **Making British Defence Policy** Robert Self,2022-06-16 This book explores the process by which defence policy is made in contemporary Britain and the institutions actors and conflicting interests which interact in its inception and continuous reformulation Rather than dealing with the substance of defence policy this study focuses upon the institutional actors involved in this process This is a subject which has commanded far more interest from public Parliament government and the armed forces since the protracted bloody and ultimately unsuccessful British military involvement in Iraq and Afghanistan The work begins with a discussion of two contextual factors shaping policy The first relates to the impact of Britain's special relationship with the United States over defence and intelligence matters while the second considers the impact of Britain's relatively disappointing economic performance upon the funding of British defence since 1945 It then goes on to explore the role and impact of all the key policy actors from the Prime Minister Cabinet and core executive to the Ministry of Defence and its relations with the broader Whitehall village and the Foreign Office and Treasury in particular The work concludes by examining the increasing influence of external policy actors and forces such as Parliament the courts political parties pressure groups and public opinion This book will be of much interest to students of British defence policy security studies and contemporary military history
