Settlements Of Hope An Account Of Tibetan Refugees In Nepal:

Settlements of Hope Ann Armbrecht,1989 **The Agendas of Tibetan Refugees** Thomas Kauffmann,2015-09-01

Since the arrival of the first Tibetans in exile in 1959 a vast and continuous wave of international especially Western support has permitted these refugees to survive and even to flourish in their temporary places of residence Today these Tibetan refugees continue to attract assistance from Western governments organizations and individuals while other refugee populations are largely forgotten in the international agenda This book shows and discusses how Tibetan refugees continue to attract resources due notably to the dissemination of their political and religious agendas as well as how a movement of Western supporters born in very different conditions guaranteed a unique relationship with these refugees **The Tibetan**

Government-in-Exile Stephanie Römer,2008-05-15 This book provides a detailed account of the structure and political strategies of the Tibetan government in exile the Central Tibetan Administration CTA in northern India Since its founding in 1959 it has been led by the 14th Dalai Lama who struggles to regain the Tibetan homeland Based on a theoretical approach on exile organizations and extensive empirical studies in Asia this book discusses CTA s political strategies to gain national loyalty and international support in order to secure its own organizational survival and the ultimate goal the return to Tibet The book is organized around the two fundamental questions firstly how the CTA fosters its claims to be the sole representative of all Tibetans over the last decades in exile and secondly which policies have been carried out in order to regain the homeland The book is divided into four substantial chapters the historical background providing a review of pre 1959 political Tibet a theoretical section which covers the critical position of exile organizations an examination of the exile Tibetan community and government from the early years an analysis of crucial CTA policies Innovative and unique this book combines a political science approach with Tibetan studies to analyse exile Tibetan politics in particular and exile governments in general **Tibetan Diary** Geoff Childs,2004-09-27 In this rich and deeply personal account of life in the

highlands of Nepal Geoff Childs chronicles the daily existence of a range of people from venerated lamas to humble householders Offering insights into the complex dynamics of the ethnically Tibetan enclave of Nubri Childs provides a vivid and compelling portrait of the ebb and flow of life and death of communal harmony and discord and of personal conflicts and social resolutions Part ethnography part travelogue and part biography Tibetan Diary is a one of a kind book that conveys the tangled intricacies of a Tibetan society Childs s immensely readable and informative narrative incorporates contemporary observations as well as vignettes culled from first person testaments including oral histories and autobiographies Examining the tensions between cultural ideals and individual aspirations he explores certain junctures in the course of life how the desire to attain religious knowledge or to secure a caretaker in old age contrasts with social expectations and familial obligation for example The result is a vivid and unparalleled view of the quest for both spiritual meaning and mundane survival that typifies life in an unpredictable Himalayan environment **Buddha's Warriors** Mikel Dunham,2005 The

Hathaway,2023-07-24 Violence and other human rights abuses continue to force desperate people to migrate in search of protection Yet because the political and economic reasons that induced an historical openness to the arrival of refugees have largely withered away there is no longer a guarantee that any state will be prepared to receive these involuntary migrants Governments of both North and South are withdrawing from the international legal duty to provide potentially indefinite protection to any and all refugees who arrive at their borders The challenge is to reconceive refugee protection in a way that is reconcilable with the legitimate concerns of modern states yet which does not sacrifice the critical right of at risk people to seek asylum The essays in *Reconceiving International Refugee Law* offer a response to the concerns of many states that refugee protection has become no more than a back door route to permanent immigration and that its costs are not fairly apportioned among states Drawing on the research of leading migration scholars from around the world and vetted through dialogue with senior officials and non governmental experts this volume explores the potential for a shift to a robust and empowering system of temporary asylum supported by a pragmatic system of guarantees to share both the costs and human responsibilities of refugee protection The Oxford Handbook of Contemporary Buddhism Michael K. Jerryson,2017 The

Oxford Handbook of Contemporary Buddhism offers a comprehensive collection of work by leading scholars in the field. They examine the historical development of Buddhist traditions throughout the world from traditional settings like India, Japan, and Tibet to the less well-known regions of Latin America, Africa, and Oceania.

Geopolitical Exotica Dibyesh Anand, 2008-07-25. *Geopolitical Exotica* examines exoticized Western representations of Tibet and Tibetans and the debate over that land's status with regard to China. Concentrating on specific cultural images of the twentieth century promulgated by novels, popular films, travelogues, and memoirs, Dibyesh Anand lays bare the strategies by which Exotica Tibet and Tibetanness have been constructed and he investigates the impact these constructions have had on those who are being represented. Although images of Tibet have excited the popular imagination in the West for many years, *Geopolitical Exotica* is the first book to explore representational practices within the study of international relations. Anand challenges the parochial practices of current mainstream international relations theory and practice, claiming that the discipline remains mostly Western in its orientation. His analysis of Tibet's status with regard to China scrutinizes the vocabulary afforded by conventional international relations theory and considers issues that until now have been undertheorized in relation to Tibet, including imperialism, history, diaspora, representation, and identity. In this masterfully synthetic work, Anand establishes that postcoloniality provides new insights into themes of representation and identity and demonstrates how IR as a discipline can meaningfully expand its focus beyond the West. Dibyesh Anand is a reader in international relations at the University of Westminster, London.

Tibetan Transitions Geoff Childs, 2008-07-25. *Tibetan Transitions* uses the dual lenses of anthropology and demography to analyze population regulating mechanisms in traditional Tibetan societies and to link recent fertility transitions with family systems, economic strategies, gender equity, and family planning ideologies.

Arrested Histories Carole McGranahan, 2010-10-01. Argues that some histories, including Tibetans' armed resistance against the Chinese, are arrested, deliberately left untold until some future moment when changed circumstances favor their telling.
