Lordship and Liberation in Palestine-Israel Muhanad

Ayyash, 2025-07-22 This interdisciplinary book provides a timely fresh perspective on Palestine Israel by rethinking the nature of settler colonial sovereignty and the relationship between land and people. Muhanad Ayyash argues that this relationship comes in two distinct forms: a settler colonial type practiced by the Israeli state that consists of lordship over land and people, and a decolonial type seen in Palestinian popular organizing that he calls land as life, a reciprocal bond. The former is characterized by private ownership, possession, and violent expulsion of others; the latter by communal ownership belonging to the land and opposition to the violence of expulsion. Ranging widely across theory and history, Ayyash contends that the opposition between these two types is at the core of the Palestinian Israeli struggle. The choice before us today, he concludes, is between the continuation of the Israeli settler colonial project in particular and the project of colonial modernity in general, or the commencement of a decolonial age in Palestine Israel and beyond. Offering both novel theorizations and politically engaged analysis, Lordship and Liberation in Palestine Israel illuminates how decolonial sovereignties represent an alternative to settler colonial violence.

Settler Sovereignty Lisa Ford, 2010 In a brilliant comparative study of law and imperialism, Lisa Ford argues that modern settler sovereignty emerged when settlers in North America and Australia defined indigenous theft and violence as crime. This occurred not at the moment of settlement or federation but in the second quarter of the nineteenth century when notions of statehood, sovereignty, empire, and civilization were in rapid global flux. Ford traces the emergence of modern settler sovereignty in everyday contests between settlers and indigenous people in early national Georgia and the colony of New South Wales. In both places before 1820, most settlers and indigenous people understood their conflicts as war resolved by disputes with diplomacy and relied on shared notions like reciprocity and retaliation to address frontier theft and violence. This legal pluralism, however, was under stress as new global statecraft linked sovereignty to the exercise of perfect territorial jurisdiction. In Georgia, New South Wales, and elsewhere, settler sovereignty emerged when, at the same time in history, settlers rejected legal pluralism and moved to control or remove indigenous peoples.

Neither Settler nor Native Mahmood Mamdani, 2020-11-30 Prospect Top 50 Thinker of 2021 British Academy Book Prize Finalist PROSE Award Finalist Provocative, elegantly written. Fara Dabhoiwala, New York Review of Books. Demonstrates how a broad rethinking of political issues becomes possible when Western ideals and practices are examined from the vantage point of Asia and Africa. Pankaj Mishra, New York Review of Books. In case after case around the globe, from Israel to Sudan, the colonial state and the nation state have been constructed through the politicization of a religious or ethnic majority at the expense of an equally manufactured minority. The model emerged in America where genocide and internment on reservations created a permanent native minority. In Europe, this template would be used both by the Nazis and the Allies. **Neither Settler nor Native** offers a vision for arresting this process. Mahmood Mamdani points to inherent limitations in the legal solution attempted at Nuremberg. Political violence demands political solutions, not criminal justice, but a rethinking of the political

community to include victims and perpetrators bystanders and beneficiaries Making the radical argument that the nation state was born of colonialism he calls on us to delink the nation from the state so as to ensure equal political rights for all who live within its boundaries A deeply learned account of the origins of our modern world Mamdani rejects the current focus on human rights as the means to bring justice to the victims of this colonial and postcolonial bloodshed Instead he calls for a new kind of political imagination Joining the ranks of Hannah Arendt s Imperialism Frantz Fanon s The Wretched of the Earth and Edward Said s Orientalism this book is destined to become a classic text of postcolonial studies and political theory Moustafa Bayoumi author of How Does It Feel to Be a Problem A masterwork of historical comparison and razor sharp political analysis with grave lessons about the pitfalls of forgetting moralizing or criminalizing this violence Mamdani also offers a hopeful rejoinder in a revived politics of decolonization Karuna Mantena Columbia University A powerfully original argument one that supplements political analysis with a map for our political future Faisal Devji University of Oxford

Law, Violence and Sovereignty Among West Bank Palestinians Tobias Kelly, 2006-12-14 As the Oslo Peace Process has given way to the violence of the second intifada this book explores the continuing legacy of Oslo in the everyday life of the Israeli Palestinian conflict Taking a perspective that sees the Israeli Palestinian conflict as a conflict over the distribution of legal rights it focuses on the daily concerns of West Bank Palestinians and explores the meanings limitations and potential of legal claims in the context of the region s structures of governance Kelly argues that fundamental contradictions in the process through which the West Bank has been ruled and misruled have resulted in an unstable mixture of legality fear and uncertainty Based on long term ethnographic fieldwork this book provides an insight into how the wider Middle East conflict manifests itself through the daily encounters of ordinary Israelis and Palestinians offering an evocative and theoretically informed account of the relationship between law peace building and violence
