Matthew L. Spitzer

Seven Dirty Words And Six Other Stories

J. Gregory Sidak

Seven Dirty Words And Six Other Stories:

Public Policy Toward Cable Television Thomas W. Hazlett, Matthew Laurence Spitzer, 1997 This book analyzes the effectiveness of the federal government's vacillating regulatory policy toward the cable television industry

Foreign Investment in American Telecommunications J. Gregory Sidak, 2008-04-15 Restrictions on foreign investment in U S telecommunications firms have harmed the interests of American consumers and investors argues J Gregory Sidak in this convincing study Sidak shows why these restrictions originally intended to protect America from the perils of wireless telegraphy by foreign agents should be repealed Basing his analysis on legislative history statutory and constitutional interpretation and finance and trade theory Sidak shows that these restrictions no longer serve their national security purpose if they ever did Instead they deny American consumers lower prices and more robust innovation hamper access of American investors to foreign telecommunications markets and unconstitutionally impinge on freedom of speech Sidak's study encompasses the Telecommunications Act of 1996 recent global mergers such as British Telecom MCI and the 1997 World Trade Organization agreement to liberalize trade in telecommunications services

Banned in the Media Herbert N. Foerstel, 1998-05-26 From colonial times to the present the media in America has been subject to censorship challenges and regulations This comprehensive reference guide to media censorship provides in depth coverage of each media format newspapers magazines motion pictures radio television and the Internet all of which have been and continue to be battlegrounds for First Amendment issues Each media format is examined in depth from its origins and history through its modern development and features discussion of landmark incidents and cases Foerstel author of Banned in the U S A the acclaimed reference guide to book censorship in schools and public libraries offers a brief history of media censorship examines in depth the drama of seven landmark incidents and includes 31 relevant court cases Complementing the volume are personal interviews with prominent victims of media censorship who give human voice to the struggle of the media to remain free and an examination of censorship of the student press Fascinating examples of media censorship abound from Peter Zenger's prerevolutionary trial for seditious libel to the modern tobacco industry's invocation of tortious interference to silence television news and the current rash of Internet censorship incidents Chapter 1 offers a brief history of censorship of each of the media types Chapter 2 features in-depth analysis of seven landmark media censorship incidents the trial of John Peter Zenger H L Mencken and the hatrack case John Henry Faulk and the radio blacklist Progressive magazine's exposé on the H bomb secret government labeling of three documentary films as political propaganda television's tobacco wars and Carnegie Mellon's attempt to censor students access to the Internet Chapter 3 examines 31 media censorship court cases from 1735 to 1997 Chapter 4 features exclusive interviews with media figures involved in censorship issues or cases Paul Jarrico Howard Morland Peter Sussman Daniel Schorr Walter Cronkite and Jerry Berman Appendix A takes a look at censorship and response regarding the student press during the 1990s after the landmark Hazelwood decision in 1988 and

important topic for students in every high school Appendix B contains a resource list of media advocacy and censorship organizations A selected bibliography of books and electronic resources completes the text This volume is of interest to high school and college students teachers librarians and scholars and all those who are affected by these crucial First Amendment issues

Regulating Audiovisual Services Thomas Gibbons, 2023-07-14 In recent years the changing nature of audiovisual services has had a significant impact on regulatory policy and practice The adoption of digital technology means that broadcasting cable satellite the Internet and mobile telephony are converging enabling each of them to deliver the same kinds of content and allowing users to exercise much greater choice over the kind of material that they receive and when they receive it The essays examine the implications for regulatory design asking whether there is still a role for traditional style state controls or whether other techniques such as competition in the market and self regulation are more appropriate They also explore how in the digital era structural issues of media ownership and control become problems of access and interconnection between services and how content regulation focuses more on problems raised by the interactions between providers and users the relationship between freedom of information and technologies to control it and the international reach of the new media

Broadcast Indecency Jeremy H. Lipschultz, 2023-12-22 Broadcast Indecency 1997 treats broadcast indecency as more than a simple regulatory problem in American law The author's approach cuts across legal social and economic concerns taking the view that media law and regulation cannot be seen within a vacuum that ignores cultural realities It treats broadcast as a phenomenon challenging the policy approach of government regulation and is an exploration of the political and social processes involved in the government control of mass media content

Regulating Broadcast Programming Thomas G. Krattenmaker, 1994 The authors argue that TV regulation should be based on the same principles used for print media for which control of editorial content lies in private hands rather than the government

The Idea of Ancient Literary Criticism Yun Lee Too, 1999-02-11 Yun Lee Too offers a sustained reading of the social function of the body of texts we identify as ancient literary criticism with major implications for how we understand this discourse and also modern criticism and literary theory The author argues that when Greek and Roman authors discuss what and how to read in works they are attempting to create and maintain the political community and its identity by regulating the languages available to it Literary criticism is a process of discrimination between competing discourses serving as a strategy by which certain forms of speech or writing may be pronounced legitimate at the expense of others The volume traces ancient criticism from its origins in archaic Greek poetry through to the early Christian era As well as reading the familiar texts of ancient criticism Plato's Republic Aristotle's Poetics Longinus On the Sublime amongst others it shows how ancient law history and rhetoric participate in the critical process

Encyclopedia of American Civil Liberties Paul Finkelman, 2021-02-25 Originally published in 2006 the Encyclopedia of American Civil Liberties is a comprehensive 3 volume set covering a broad range of topics in the subject of American Civil Liberties The book covers the topic from

numerous different areas including freedom of speech press religion assembly and petition The Encyclopedia also addresses areas such as the Constitution the Bill of Rights slavery censorship crime and war The book s multidisciplinary approach will make it an ideal library reference resource for lawyers scholars and students *Anti-Americanism* Thomas Perry Thornton,1988

Shattered Mirrors Monroe E. Price,1989 The AIDS epidemic has touched the lives of all Americans An entire generation has been forced to redefine the way it looks at intimacy Our very images of ourselves are being altered in the wake of this tragic illness Yet we are only now beginning to discover the true extent of the change AIDS has wrought on American society This massive challenge to public health is creating a fault line beneath our institutions threatening to undermine much that we have taken for granted about the pillars of our culture Looking out across the landscape of AIDS we sense a fundamental shift in the way we think about ourselves about others and about government Shattered Mirrors is a deeply moving meditation on the impact AIDS is having on American consciousness AIDS has become a moral lesson for our nation Monroe Price argues but not the narrow lesson about the dangers of deviancy that certain segments of society have professed The AIDS epidemic challenges some of our most cherished ideas about individual autonomy free expression fairness and confidence in the future As this book points out the ultimate legacy of the AIDS epidemic is far more than its terrible impact on the health of the citizenry As the disease grinds on several traditional barriers between church and state government and the media citizen and consumer have begun to erode while other barriers of class race and lifestyle are growing larger It is too early to say whether these and similar changes will be permanent but as long as there is uncertainty about how devastating AIDS will prove to be to our society we will continue to debate its meaning and how we should respond to the threat it poses to all of us In the long run Price maintains AIDS may force us to reexamine the role government should play in shaping our personal lives More than this it may well oblige us to redefine what we mean by identity and community in a democracy under siege
