Severn Somme And Wars Embers:

Severn & Somme Ivor Gurney, 1917 *Severn & Somme ; And, War's Embers* Ivor Gurney, 1987 This is a pre 1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts, the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

War's Embers, and Other Verses Ivor Gurney, 2021-11-05 In *War's Embers and Other Verses* Ivor Gurney captures the profound and unsettling realities of warfare through a deeply personal lens. His poetry intricately weaves together vivid imagery and haunting reflections transcending mere documentation of the First World War to explore themes of loss, dislocation, and the bittersweet remnants of human existence. Gurney's style is marked by an emotive lyricism characterized by a blend of classical influences and modernist sensibilities where the raw emotions of conflict are juxtaposed with the beauty of nature and memory. The verses resonate with an intimacy that underscores both the horror and the fleeting beauty found amidst the wartime landscape. Ivor Gurney, a soldier himself, draws upon his own harrowing experiences in the war which profoundly shaped his worldview and artistic vision. Born in 1890, he was a member of the Gloucestershire Regiment and a contemporary of other war poets like Wilfred Owen and Siegfried Sassoon. Gurney's unique combination of musicality and melancholy reveals the impact of his background in music and literature, channeling his trauma into poignant expressions of the human condition. *War's Embers and Other Verses* is not just a collection of poems; it is a testament to the resilience of the human spirit in the face of adversity. This work is highly recommended for readers seeking to grasp the psychological and emotional complexities of war, as well as those interested in the evolution of modern poetry. Gurney's voice resonates through time, offering insights that remain disturbingly relevant today.

War's Embers Ivor Gurney, 1919

Collected Critical Writings Geoffrey Hill, 2009 The *Collected Critical Writings* gathers more than forty years of Hill's published criticism in a revised final form and also adds much new work. It will serve as the canonical volume of criticism by Hill, the pre-eminent poet-critic whom A. N. Wilson has called probably the best writer alive in verse or in prose. In his criticism Hill ranges widely, investigating both poets including Jonson, Dryden, Hopkins, Whitman, Eliot, and Yeats, and prose writers such as Tyndale, Clarendon, Hobbes, Burton, Emerson, and F. H. Bradley. He is also steeped in the historical context, political, poetic, and religious, of the writers he studies. Most importantly, he brings texts and contexts into new and telling relations, neither reducing texts to the circumstances of their utterance nor imagining that they can float free of them. A number of the essays have already established themselves as essential reading on particular subjects, such as his analysis of Vaughan's *The Night*, his discussion of Gurney's poetry, and his critical account of *The Oxford English Dictionary*. Others confront the problems of language and the nature of value directly, as in *Our Word is Our Bond*, *Language Suffering and Value*, and *Poetry and Value*. In

all his criticism Hill reveals literature to be an essential arena of civic intelligence *Handbook of British Literature and Culture of the First World War* Ralf Schneider, Jane Potter, 2021-09-20 The First World War has given rise to a multifaceted cultural production like no other historical event This handbook surveys British literature and film about the war from 1914 until today The continuing interest in World War I highlights the interdependence of war experience the imaginative re-creation of that experience in writing and individual as well as collective memory In the first part of the handbook the major genres of war writing and film are addressed including of course poetry and the novel but also the short story furthermore it is shown how our conception of the Great War is broadened when looked at from the perspective of gender studies and post colonial criticism The chapters in the second part present close readings of important contributions to the literary and filmic representation of World War I in Great Britain All in all the contributions demonstrate how the opposing forces of focusing and canon formation on the one hand and broadening and revision of the canon on the other have characterised British literature and culture of the First World War **Modern English War Poetry** Tim Kendall, 2006-07-20 Tim Kendall's study offers the fullest account to date of a tradition of modern English war poetry Stretching from the Boer War to the present day it focuses on many of the twentieth century's finest poets combatants and non combatants alike and considers how they address the ethical challenges of making art out of violence Poetry we are often told makes nothing happen But war makes poetry happen the war poet cannot regret and must exalt at even the most appalling experiences Modern English War Poetry not only assesses the problematic relationship between war and its poets it also encourages an urgent reconsideration of the modern poetry canon and the too often marginalised position of war poetry within it The aesthetic and ethical values on which canonical judgements have been based are carefully scrutinized via a detailed analysis of individual poets The poets discussed include Thomas Hardy Rudyard Kipling Wilfred Owen Charlotte Mew Edward Thomas Ivor Gurney W H Auden Keith Douglas Ted Hughes and Geoffrey Hill The Monthly Chapbook ,1920 **The Chapbook** ,1920 The Chapbook Harold Monroe, 1919 Nos 6 and 18 consist of songs with piano accompaniment
