Sex And Heaven Catholics In Bed And At Prayer

Edward L. Rubin

Sex And Heaven Catholics In Bed And At Prayer:

Sex and Heaven John Portmann, 2003-03-05 And so the way we worship apparently matters less to God than the way we make love The diagnosis may not be limited to Roman Catholicism for today Jewish Protestant and Muslim communities also struggle to decide what the next world holds for their sexual dissidents Curiously debates over where gay people belong now feed into debates over how much equality women deserve in the West's three major faith traditions **BOOK JACKET** **Bad for Us** John Portmann, 2004 Why do people do things that are blatantly bad for them Think of the falls from grace of Richard Nixon Gary Hart Rob Lowe Martha Stewart and Kobe Bryant Portmann argues that we are often our own worst enemies and that the hardest kind of suffering to bear is what we inflict upon ourselves This groundbreaking book is a wide ranging exploration of self destructive behavior and self injury It helps us better understand how and why we engineer our own downfalls and why dizzying reversals of fortune often leave a trail that leads back to people who should have known better like Jayson Blair and his blatant plagiarism or Bill Clinton and his affair with Monica Lewinsky After developing an exciting philosophical category raving in which we take leave of our senses and refuse to act according to societal mores Portmann observes that we all occasionally crave the forbidden or the dangerous While raving takes varied forms from streaking nude across a college campus to indulging in unsafe sex it is best described as a temporary vacation from the self Cautioning that our very happiness is at stake Portmann exhorts us to choose wisely This rare book is the North Star for cautious rebels **Bad for Us** is an engaging book that explores a social and moral paradox Drawing from thinkers ranging from Immanuel Kant to Thomas Sowell to Madonna John Portmann deeply explores a topic all but taboo among modern writers the dual need each of us feels to develop and maintain a sense of self control and to lose it from time to time William N Eskridge Jr author of *Gaylaw Challenging the Apartheid of the Closet* and John A Garver Professor of Jurisprudence at Yale Law School

Pentecostalism and Cultism in South Africa Mookgo Solomon Kgatle, 2021-02-28 Pentecostalism is a growing movement in world Christianity However the growth of Pentecostalism in South Africa has faced some challenges including the abuse of religion by some prophets This book first names these prophets and the churches they lead in South Africa and then makes use of literary and media analysis to analyse the religious practices by the prophets in relation to cultism Additionally the book analyses the celebrity cult and how it helps promote the prophets in South Africa The purpose of this book is threefold First to draw parallels between the abuse of religion and cultism Second to illustrate that it is cultic tendencies including the celebrity cult that has given rise to many prophets in South Africa Last to showcase that the challenge for many of these prophets is that the Pentecostal tradition is actually anti cultism and thus there is a need for them to rethink their cultic tendencies in order for them to be truly relevant in a South African context **Catholic Culture in the USA** John Portmann, 2010-02-10 This study of Catholicism articulates how theological teachings trickle down from the Vatican and influence decisions about food marriage sex community celebrations and medical care **Soul, Self, and**

Society Edward L. Rubin, 2015-02-17 Political and social commentators regularly bemoan the decline of morality in the modern world. They claim that the norms and values that held society together in the past are rapidly eroding to be replaced by permissiveness and empty hedonism. But as Edward Rubin demonstrates in this powerful account of moral transformations, these prophets of doom are missing the point. Morality is not diminishing; instead, a new morality centered on an ethos of human self-fulfillment is arising to replace the old one. As Rubin explains, changes in morality have gone hand in hand with changes in the prevailing mode of governance throughout the course of Western history. During the Early Middle Ages, a moral system based on honor gradually developed. In a dangerous world where state power was declining, people relied on bonds of personal loyalty that were secured by generosity to their followers and violence against their enemies. That moral order exemplified in the early feudal system and in sagas like *The Song of Roland*, *The Song of the Cid*, and the Arthurian legends has faded, but its remnants exist today in criminal organizations like the Mafia and in the rap music of the urban ghettos. When state power began to revive in the High Middle Ages through the efforts of the European monarchies and Christianity became more institutionally effective and more spiritually intense, a new morality emerged. Described by Rubin as the morality of higher purposes, it demanded that people devote their personal efforts to achieving salvation and their social efforts to serving the emerging nation-states. It insisted on social hierarchy, confined women to subordinate roles, restricted sex to procreation, centered child rearing on moral inculcation, and countenanced slavery and the marriage of pre-teenage girls to older men. Our modern era, which began in the late 18th century, has seen the gradual erosion of this morality of higher purposes and the rise of a new morality of self-fulfillment, one that encourages individuals to pursue the most meaningful and rewarding life path. Far from being permissive or a moral abdication, it demands that people respect each other's choices, that sex be mutually enjoyable, that public positions be allocated according to merit, and that society provide all its members with their minimum needs so that they have the opportunity to fulfill themselves. Where people once served the state, the state now functions to serve the people. The clash between this ascending morality and the declining morality of higher purposes is the primary driver of contemporary political and cultural conflict. A sweeping big idea book in the vein of Francis Fukuyama's *The End of History*, Charles Taylor's *The Secular Age*, and Richard Sennett's *The Fall of Public Man*, Edward Rubin's new volume promises to reshape our understanding of morality, its relationship to government, and its role in shaping the emerging world of High Modernity.
