[Nordic-Chinese Intersections within Education](#) Haiqin Liu, Fred Dervin, Xiangyun Du, 2019-11-12 This book examines how the two educational systems of China and the Nordic countries intersect Over the past decade there has been increased growth and interaction between China and the Nordic countries due to both government encouragement and academic curiosity This book rejects a simplistic approach that presents both spaces as culturally uniform confronting East and West entities and suggests a comparative and contrastive approach that is critical and reflexive in both theory and methodology This does not solely concentrate on difference but emphasises similarities including studies on philosophical conceptual and methodological issues This nuanced edited collection will appeal to students and scholars of Nordic and Chinese education as well as globalisation and interculturality

No Shortcuts Max Smeets, 2022-06-02 Over the past decade numerous states have declared cyberspace as a new domain of warfare sought to develop a military cyber strategy and establish a cyber command These developments have led to much policy talk and concern about the future of warfare as well as the digital vulnerability of society No Shortcuts provides a level headed view of where we are in the militarization of cyberspace In this book Max Smeets bridges the divide between technology and policy to assess the necessary building blocks for states to develop a military cyber capacity Smeets argues that for many states the barriers to entry into conflict in cyberspace are currently too high Accompanied by a wide range of empirical examples Smeets shows why governments abilities to develop military cyber capabilities might change over time and explains the limits of capability transfer by states and private actors

No Shortcuts to the Top Ed Viesturs, David Roberts, 2007-11-27 NATIONAL BESTSELLER This gripping and triumphant memoir from the author of *The Mountain* follows a living legend of extreme mountaineering as he makes his assault on history one 8 000 meter summit at a time From the drama of the peaks to the struggle of making a living as a professional climber to the basic how tos of life at 26 000 feet *No Shortcuts to the Top* is fascinating reading Aron Ralston author of

Between a Rock and a Hard Place and subject of the film 127 Hours For eighteen years Ed Viesturs pursued climbing s holy grail to stand atop the world s fourteen 8 000 meter peaks without the aid of bottled oxygen But No Shortcuts to the Top is as much about the man who would become the first American to achieve that goal as it is about his stunning quest As Viesturs recounts the stories of his most harrowing climbs he reveals a man torn between the flat safe world he and his loved ones share and the majestic and deadly places where only he can go A preternaturally cautious climber who once turned back 300 feet from the top of Everest but who would not shrink from a peak Annapurna known to claim the life of one climber for every two who reached its summit Viesturs lives by an unyielding motto Reaching the summit is optional Getting down is mandatory It is with this philosophy that he vividly describes fatal errors in judgment made by his fellow climbers as well as a few of his own close calls and gallant rescues And for the first time he details his own pivotal and heroic role in the 1996 Everest disaster made famous in Jon Krakauer s Into Thin Air In addition to the raw excitement of Viesturs s odyssey No Shortcuts to the Top is leavened with many funny moments revealing the camaraderie between climbers It is more than the first full account of one of the staggering accomplishments of our time it is a portrait of a brave and devoted family man and his beliefs that shaped this most perilous and magnificent pursuit *Chinese Recorder and Missionary Journal* ,1904

The Chinese Recorder and Missionary Journal ,1896 **Pirates and Publishers** Fei-Hsien Wang,2022-06-07 A detailed historical look at how copyright was negotiated and protected by authors publishers and the state in late imperial and modern China In *Pirates and Publishers* Fei Hsien Wang reveals the unknown social and cultural history of copyright in China from the 1890s through the 1950s a time of profound sociopolitical changes Wang draws on a vast range of previously underutilized archival sources to show how copyright was received appropriated and practiced in China within and beyond the legal institutions of the state Contrary to common belief copyright was not a problematic doctrine simply imposed on China by foreign powers with little regard for Chinese cultural and social traditions Shifting the focus from the state legislation of copyright to the daily on the ground negotiations among Chinese authors publishers and state agents Wang presents a more dynamic nuanced picture of the encounter between Chinese and foreign ideas and customs Developing multiple ways for articulating their understanding of copyright Chinese authors booksellers and publishers played a crucial role in its growth and eventual institutionalization in China These individuals enforced what they viewed as copyright to justify their profit protect their books and crack down on piracy in a changing knowledge economy As China transitioned from a late imperial system to a modern state booksellers and publishers created and maintained their own economic rules and regulations when faced with the absence of an effective legal framework Exploring how copyright was transplanted adopted and practiced *Pirates and Publishers* demonstrates the pivotal roles of those who produce and circulate knowledge
