James W. Foster,2010-01-07 As you begin to explore this book please keep in mind that it has been written by a professional
massage therapist who has specialized in caregiving for over twenty years During the course of all those years I have learned
what usually makes people ill and what it takes to get them to allow themselves to become well Some of the concepts may
seem a little strange or maybe a little too simple for someone who is really ill but I have drawn upon my years of experience
to show the reader that because life isn t simple wellness isn t simple either I have pointed out that you are what you think
you are and the implications of that thought can be staggering in its complexity As you read and try to understand the
concepts contained in this book that may seem foreign to you remember that many of the things contained herein are twenty
years of learning by a skeptic I didn t accept some of the concepts easily I proved them through experience and you can too I
have compiled all the knowledge I have obtained over the years into this exclusive book and all you need with this knowledge
is hope and faith and through that miracles can and will happen *Sacred Vibrations* Jeralyn Glass,2024-07-23 Fascinating
