The Long March 1934-35 Benjamin Lai, 2019-09-19 This study tells the epic story of how a routed group of Chinese Communists marched tens of thousands of miles with Mao on a journey that would lead to their eventual triumph and rule of the whole of China Every nation has its founding myth and for modern China it is the Long March In the autumn of 1934 the Chinese Nationalists under Chiang Kai shek routed the Chinese Communists and some 80 000 men women and children left their homes to walk with Mao Zedong into the unknown Mao's force had to endure starvation harsh climates and challenging terrain whilst under constant aerial bombardment and threatened by daily skirmishes The Long March survivors had to cross 24 rivers and 18 mountain ranges through freezing snow and disease ridden wilderness to reach their safe haven of Yan'an In military terms the Long March was the longest continuous march in the history of warfare and it came at a terrible cost after one year 6 000 miles and countless battles fewer than 4 000 of the original marchers were left Illustrated with stunning full colour artwork this enthralling book tells the full story this epic display of resilience and shows how from the desert plateau of Yan'an these survivors would grow the army that conquered China 14 years on changing history forever

The Minjian Avant-Garde Chang Tan, 2024-02-15 The Minjian Avant Garde studies how experimental artists in China mixed with brought changes to and let themselves be transformed by minjian the volatile and diverse public of the post Mao era Departing from the usual emphasis on art institutions global markets or artists communities Chang Tan proposes a new analytical framework in the theories of socially engaged art that stresses the critical agency of participants the affective functions of objects and the versatility of the artists in diverse sociopolitical spheres Drawing from hitherto untapped archival materials and interviews with the artists Tan challenges the views of Chinese artists as either dissidents or conformists to the regime and sees them as navigators and negotiators among diverse political discourses and interests She questions the fetishization of marginalized communities among practitioners of progressive art and politics arguing that the members of minjian are often more complex defiant and savvy than the elites would assume The

China and International Security Donovan C. Chau, Thomas M. Kane, 2014-04-17. The first work of its kind, this strategic assessment of China's national security reveals the nation's intentions, capabilities, and threats and their implications for the United States and the world. As China continues to develop the strategic means to advance its national interests in Asia and around the world, assessing its role in international security is the greatest strategic challenge now faced by the United States and its allies. *China and International Security* facilitates this critically important understanding by analyzing topics that range from strategic geography and orientation to gender ratios. Using detailed case studies and sharing expert insights, the work provides historical, internal, and contemporary analyses that reveal the nature and character of China's national security. This three-volume set is written for scholars, students, and policymakers. The volumes offer in-depth articles penned by intelligence professionals and journalists, as well as entries by scholars in fields as diverse as international politics, history, and strategic studies. While other works may attempt to predict the future of China's rise or the nature of China's future bilateral relationships, none so thoroughly examines the totality of China's domestic, regional, and international security and their implications.
