Longman Handbook Of Twentieth Century Europe:

Longman Handbook of Twentieth Century Europe Chris Cook,J. Stevenson,2014-09-19 The twentieth century was one of constant upheaval across Europe The continent saw wars revolutions and the collapse of empires and a range of leading figures from Stolypin and Stalin to Chirac Schroder and Putin This book provides a detailed yet wide ranging guide to the turbulent events of twentieth century Europe Covering the whole period from Tsarist Russia and Imperial Germany to the Balkan Wars of the 1990 s and the final birth of the Euro in 2002 it provides a convenient user friendly compendium of key fact and figures for the whole of Europe from the Atlantic to the Urals **Europe 1783-1914** William Simpson,Martin Jones,2015-06-01 The third edition of Europe 1783 1914 provides a comprehensive overview of Europe from the outbreak of the French Revolution to the origins of the First World War William Simpson and Martin Jones combine accounts of the most important countries notably France Germany and Russia with the wider political economic social and cultural developments affecting Europe as a whole These include A survey of Europe c 1780 the social and economic background forms of government and the Enlightenment The impact of the French Revolution and Napoleon on Europe The spread of nationalism the 1848 Revolutions and the unification of Italy and Germany Changes in the world of ideas religious belief romanticism and cultural achievements in art literature and music The age of imperialism the expansion of Europe Marxism and left wing movements international relations 1870 1914 The reciprocal relationship between Europe and the United States Europe in 1914 shifts in the intellectual climate through the works of Darwin and Freud scientific discoveries and the impact of new technologies and changes in society and the position of women Each chapter features a list of key dates concise background information and suggestions for further reading as well as a concluding Topics for Debate section which contains relevant contemporary sources and outlines the contrasting views of recent historians on the key issues The suggestions for further reading have been updated in every chapter by the addition of relevant and significant new books published up to and including 2014 Extensively illustrated throughout with maps contemporary cartoons and portraits Europe 1783 1914 is a clear detailed and highly accessible analysis of this turbulent and formative period of European history *A Social History of Twentieth-Century Europe* Béla Tomka,2013-03-12 A Social History of Twentieth Century Europe offers a systematic overview on major aspects of social life including population family and households social inequalities and mobility the welfare state work consumption and leisure social cleavages in politics urbanization as well as education religion and culture It also addresses major debates and diverging interpretations of historical and social research regarding the history of European societies in the past one hundred years Organized in ten thematic chapters this book takes an interdisciplinary approach making use of the methods and results of not only history but also sociology demography economics and political science Béla Tomka presents both the diversity and the commonalities of European societies looking not just to Western European countries but Eastern Central and Southern European countries as well A perfect introduction for all students of

European history *The Oxford Handbook of European History, 1914-1945* Nicholas Doumanis, 2016-05-05 The period spanning the two World Wars was unquestionably the most catastrophic in Europe's history. Despite such undeniably progressive developments as the radical expansion of women's suffrage and rising health standards, the era was dominated by political violence and chronic instability. Its symbols were Verdun, Guernica, and Auschwitz. By the end of this dark period, tens of millions of Europeans had been killed and more still had been displaced and permanently traumatized. If the nineteenth century gave Europeans cause to regard the future with a sense of optimism, the early twentieth century had them anticipating the destruction of civilization. The fact that so many revolutions, regime changes, dictatorships, mass killings, and civil wars took place within such a compressed time frame suggests that Europe experienced a general crisis. The Oxford Handbook of European History, 1914-1945 reconsiders the most significant features of this calamitous age from a transnational perspective. It demonstrates the degree to which national experiences were intertwined with those of other nations and how each crisis was implicated in wider regional, continental, and global developments. Readers will find innovative and stimulating chapters on various political, social, and economic subjects by some of the leading scholars working on modern European history today.

Transcultural History Madeleine Herren, Martin Rüesch, Christiane Sibille, 2012-06-19 For the 21st century, the often-quoted citation 'past is prologue' reads the other way around. The global present lacks a historical narrative for the global past. Focussing on a transcultural history, this book questions the territoriality of historical concepts and offers a narrative which aims to overcome cultural essentialism by focussing on crossing borders of all kinds. Transcultural History reflects critically on the way history is constructed, asking who formed history in the past and who succeeded in shaping what we call the master narrative. Although trained European historians, the authors aim to present a useful approach to global history, showing first of all how a Eurocentric but universal historiography removed or essentialised certain topics in Asian history. As an empirical discipline, history is based on source material analysed according to rules resulting from a strong methodological background. This book accesses the global past after World War I, looking at the well-known stage of the Paris Peace Conference, observing the multiplication of new borders and the variety of transgressing institutions, concepts, actors, men, and women inventing themselves as global subjects but sharing a bitter experience with almost all local societies at this time, namely the awareness of having relatives buried in far distant places due to globalised wars.

Europe 1715-1919 Shirley Elson Roessler, Reny Miklos, 2003-12-09 Europe 1715-1919 explores the tumultuous period in European History between the Age of Enlightenment and World War I. By integrating political, social, economic, and cultural history, the authors provide an entertaining and comprehensive account of the emergence of modern Europe. Eminently readable, Europe 1715-1919 will appeal to students, scholars, and all interested in the history of modern Europe.

The Last Peasant War Jakub S. Beneš, 2025-01-28 A history of the largely forgotten peasant revolution that swept central and eastern Europe after World War I and how it changed the course of interwar politics and World War II. As the First World

War ended villages across central and eastern Europe rose in revolt Led in many places by a shadowy movement of army deserters peasants attacked those whom they blamed for wartime abuses and long years of exploitation large estate owners officials and merchants who were often Jewish At the same time peasants tried to realize their rural visions of a reborn society establishing local self government or attempting to influence the new states that were being built atop the wreckage of the Austro Hungarian and Russian Empires In The Last Peasant War Jakub Bene presents the first comprehensive history of this dramatic and largely forgotten revolution and traces its impact on interwar politics and the course of the Second World War Sweeping large portions of the countryside between the Alps and the Urals from 1917 to 1921 this peasant revolution had momentous aftereffects especially among Slavic peoples in the former lands of the Austro Hungarian Empire It enabled an unprecedented expansion of agrarian politics in the interwar period and provided a script for rural resistance that was later revived to resist Nazi occupation and to challenge Communist rule in east central Europe By shifting historical focus from well studied cities to the often neglected countryside The Last Peasant War reveals how the movements and ambitions of peasant villagers profoundly shaped Europe s most calamitous decades

Ancient Art and its Commerce in Early Twentieth-Century Europe Guido Petruccioli,2022-12-29 John Marshall 1862 1928 was an antiquities expert hired by the Metropolitan Museum of New York An attentive observer of the antiquities trade Marshall s archive photographs and annotations on more than 1000 objects shines light on the secretive world of art dealing and how objects arrived at the largest museums of Europe and North America

Communism and its Collapse Stephen White,2002-01-04 Ranging from the Russian revolution of 1917 to the collapse of Eastern Europe in the 1980s this study examines Communist rule By focusing primarily on the USSR and Eastern Europe Stephen White covers the major topics and issues affecting these countries including communism as a doctrine the evolution of Communist rule the challenges to Soviet authority in Hungary and Yugoslavia the emerging economic fragility of the 1960s the complex process of collapse in the 1980s Any student or scholar of European history will find this an essential addition to their reading list

Forthcoming Books Rose Army,2003

Great Britain Richard S. Thompson,2014-05-14 An A Z reference guide to significant people ideas places and events in British history

The Great Restoration: Post-Communist Transformations from the Viewpoint of Comparative Historical Sociology of Restorations Zenonas Norkus,2023-09-20 The revolutions of 1989 remains the standard term used to describe the onset of post communist transformations more than thirty years ago Zenonas Norkus proposes a completely new perspective theorising them as the next wave of modern social restorations starting with the post Napoleonic restorations in 1815 A comparison of the 1789 French and 1917 Russian revolutions was seminal for the rise of comparative historical and sociological research on modern revolutions The book extends and supplements the sociology of modern revolutions by the first systematic outline of the sociology of modern social restorations grounded in a comparison of post Napoleonic and post communist restorations

The British Study of Politics in the Twentieth Century Jack Hayward, Brian Barry, Archie Brown, 2003-05 A collection of articles about British studies relating to various political issues including totalitarianism individualism pluralism political parties elections political institutions public administration nationalism authoritarianism and international relations

A Companion to Global Gender History Teresa A. Meade, Merry E. Wiesner-Hanks, 2020-11-19 Provides a completely updated survey of the major issues in gender history from geographical chronological and topical perspectives This new edition examines the history of women over thousands of years studies their interaction with men in a gendered world and looks at the role of gender in shaping human behavior It includes thematic essays that offer a broad foundation for key issues such as family labor sexuality race and material culture followed by chronological and regional essays stretching from the earliest human societies to the contemporary period The book offers readers a diverse selection of viewpoints from an authoritative team of international authors and reflects questions that have been explored in different cultural and historiographic traditions Filled with contributions from both scholars and teachers A Companion to Global Gender History Second Edition makes difficult concepts understandable to all levels of students It presents evidence for complex assertions regarding gender identity and grapples with evolving notions of gender construction In addition each chapter includes suggestions for further reading in order to provide readers with the necessary tools to explore the topic further Features newly updated and brand new chapters filled with both thematic and chronological geographic essays Discusses recent trends in gender history including material culture sexuality transnational developments science and intersectionality Presents a diversity of viewpoints with chapters by scholars from across the world A Companion to Global Gender History is an excellent book for upper level undergraduate and graduate students involved in gender studies and history programs It will also appeal to more advanced scholars seeking an introduction to the field

Central and South-Eastern Europe 2003 Europa Publications, 2002 An in depth survey of the region presenting the latest economic and political developments It includes expert comment on issues of regional importance up to date statistics a directory of institutes and companies and

political profiles **Educational Rankings Annual 2005** Gale Group,2004-09 This up to date resource presents more than 4 000 national regional local and international lists and rankings compiled from hundreds of respected sources Entries typically include a description of the ranking background information on criteria for establishing the hierarchy additional remarks about the ranking the complete or partial if extensive ranking and a complete source citation for locating additional information if necessary **Race to the Front** Kevin D. Stubbs,2002-09-30 When war broke out in Europe in 1914 nearly every combatant foresaw a short decisive conflict Experience would soon prove however that this belief was sorely misplaced Eventually excessive economic dislocations would topple every authoritarian regime Only the intervention of the United States would save the British and the French from collapse This book traces the trilateral struggle between the Entente the Central Powers and the United States to determine the outcome of the war Stubbs focuses on a few essential factors vital to understanding this three way race the acquisition of war materiel food human resources and the movement of each In an analysis of coalition strategies it is not enough to study the memoirs and memoranda of General Staffs or political figures engaged in war One must also examine the roles played by each population their industries economy means of transportation and the financial decisions that make such strategies possible In short the material foundations of war set the boundaries within which strategic maneuvers occur Ultimately the United States determined the outcome of the First World War not simply because it provided the last untapped reservoir of manpower but due to its overall economic contributions to the allied effort *The politics today companion to West European Politics* Geoffrey Roberts,Patricia Hogwood,2018-07-30 There is an urgent need for a book of this nature which provides students with all the essential information required and a full definition of terms A perfect companion to European politics today written by the same authors this book presents past events prominent personalities important dates organisations and electoral information in an accessible easy to read format The book is split into five sections for ease of use a dictionary of significant political events a chronology of major events in Europe since 1945 a biographical dictionary a dictionary of political organisations and electoral data In addition to being a comprehensive reference tool this book is intended to provide a sound historical background to the development of Western European politics An electronic edition of this book is freely available under a Creative Commons CC BY NC ND licence
