Modern World Revision Philip Stanton, 2000 Intended as a resource providing coverage of the Modern World GCSE History syllabus for AQA NEB students this fourth pack concerns the USA 1919 1941 It comprises units of work overviews key issues analysis key issues question and answer model answers and an answer constructor *A History of the World from the 20th to the 21st Century* John Ashley Soames Grenville, 2005 Provides a comprehensive survey of the key events and personalities of this period **The City of London and Social Democracy** Aled Davies, 2017-06-15 The City of London and Social Democracy examines the relationship between the financial sector and the state in post war Britain The key argument made in Aled Davies's study is that changes to the financial sector during the 1960s and 1970s undermined the state's capacity to sustain and develop a modern industrial economy Social democratic economic strategy was constrained by the institutionalization of investment in pension and insurance funds the fragmentation of the nation's oligopolistic domestic banking system the emergence of an unregulated international capital market based in London and the breakdown of the Bretton Woods international monetary system Novel attempts to reconfigure social democratic economic strategy in response to these changes ultimately proved unsuccessful Meanwhile the assumption that national prosperity could only be achieved through industrial growth was challenged by a reconceptualization of Britain as a fundamentally financial and commercial nation an idea that was successfully promoted by the City itself These findings assert the need to place the Thatcher governments subsequent neoliberal economic revolution which saw the acceleration of deindustrialization and the triumph of the City of London as a pre eminent international financial centre within a broader material institutional and cultural context previously underappreciated by historians Themes in Modern European History since 1945 Rosemary Wakeman, 2003-06-26 Broad in geographical scope this collection explores the most important transformations and upheavals of post 1945 Europe in the light of recent scholarship A wide array of authors from the UK the USA and across Europe contribute twelve chapters consider key political cultural and economic changes of an era that needs reevaluation and

Stapleton,2013-10-21 A detailed and thorough chronological overview of the history of warfare and military structures in Africa covering ancient times to the present day *A Military History of Africa* achieves a daunting task it synthesizes decades of specialized academic research and literature including the most recent material to offer an accessible survey of Africa s military history from the earliest times to the present day The first volume examines the precolonial period beginning with warfare in ancient North Africa including ancient Egypt and Carthage and continues through the cavalry based Muslim empires of the trans Sahara trade and the wars of the slave trade in West and East Africa The second volume focuses on the wars of European colonial conquest and African resistance during the late 19th century African participation in both world wars and the early violent struggles for independence from the 1950s and early 1960s The third volume explores warfare in postcolonial Africa including coverage of the impact of the global Cold War conflicts in Southern Africa from the 1960s to 1980s the development of postcolonial African armed forces and civil wars sparked by the discovery of precious resources such as diamonds in Sierra Leone Readers of this three volume work will understand how warfare and military structures have been consistently central to the development of African societies *Modern British History* Jeremy Black,2000-05-23 Jeremy

Battalion of the 15 International Brigades asking Who were these volunteers Where did they come from Why did they go to Spain How much did they actually help the Spanish Republic In contrast to recent revisionist interpretations this work stresses the crucial importance of the war experience itself rather than political ideology in the understanding of the volunteers role and experiences within the Spanish war This book will be of essential interest to historians and those interested in the Spanish Civil War *War and Progress* Peter Dewey, 2014-09-11 This is an account of how the daily lives of ordinary peoples were changed profoundly and permanently by these three momentous decades 1914 1945 Often depicted in negative terms Peter Dewey finds a much more positive pattern in the wealth of evidence he lays before us His is a story of economic achievement and the emergence of a new sense of social community in the nation rather than a saga of disenchantment and decline *Britain 1905-1951* Philip Stanton, 2000 Pupils will benefit from active revision and reinforcement of acquired skills and knowledge rather than the traditional crammer style of revision resources which simply offer re reading of material Teachers can be assured that the material covered is directly relevant for their topics as the revision units are closely based on key issues as outlined in the syllabus Teachers can use the resource by either copying for each pupil or by selecting and adapting material into their own revision plans Less able pupils will benefit from the provision of part completed answers model answers and help in developing History skills Written by experienced teachers who can communicate important issues within each topic effectively [The Korean War](#) Bruce Cumings, 2011-07-12 A BRACING ACCOUNT OF A WAR THAT IS EITHER MISUNDERSTOOD FORGOTTEN OR WILLFULLY IGNORED For Americans it was a discrete conflict lasting from 1950 to 1953 But for the Asian world the Korean War was a generations long struggle that still haunts contemporary events With access to new evidence and secret materials from both here and abroad including an archive of captured North Korean documents Bruce Cumings reveals the war as it was actually fought He describes its origin as a civil war preordained long before the first shots were fired in June 1950 by lingering fury over Japan s occupation of Korea from 1910 to 1945 Cumings then shares the neglected history of America s post World War II occupation of Korea reveals untold stories of bloody insurgencies and rebellions and tells of the United States officially entering the action on the side of the South exposing as never before the appalling massacres and atrocities committed on all sides Elegantly written and blisteringly honest The Korean War is like the war it illuminates brief devastating and essential
