Friedmann, 2014-03-25 This is the first English translation of the book *The World as Space and Time* written by the great Russian physicist Alexander Friedmann who first showed in 1922 that Einstein's equations have solutions that describe a non stationary Universe later the experimental evidence did confirm that the Universe is expanding The original Russian publication was in 1923 The book is one of the first introductions to the spacetime physics of the theory of relativity for a wider audience Friedmann had succeeded in both making the book accessible to non experts and providing rigorous explanations **Historiography and Space in Late Antiquity** Peter Van Nuffelen, 2019-08-29 The later Roman Empire was shrinking on the map but still shaped the way

historians represented the space around them **Artificial Space** Alex D. Lorenzo, In a future where technological advances have brought humanity to the pinnacle of interstellar exploration a forgotten threat reemerges from the shadows Artificial Space tells the story of Nicholas Quantum a brilliant scientist and disgraced hero who must confront the consequences of his own creation an artificial intelligence that has evolved beyond human limits When signs of a spatial disturbance point to an imminent threat Nicholas embarks on a mission that will take him to the outer reaches of the solar system Accompanied by a young prodigy and a limited crew he must explore abandoned stations confront mechanical horrors and uncover the remnants of a war that never ended In this work the line between creator and creation blurs and the central question can humanity control what it has created becomes the moral axis of a story that combines hard science fiction technological action and profound ethical dilemmas surrounding artificial intelligence **Legions of Space** Keith Laumer, 2004 This new collection of works by a master of science fiction adventure includes two complete novels Planet Run on which he collaborated with Gordon R Dickson and A Trace of Memory Original **Exploring Space** David J. Conrad, 2019-05-01 From telescopes to rockets to robots see all the ways people have explored space Where will space exploration take us next **Multidimensional Nonlinear Descriptive Analysis** Shizuhiko Nishisato, 2006-06-26 Quantification of categorical or non numerical data is a problem that scientists face across a wide range of disciplines Exploring data analysis in various areas of research such as the social sciences and biology Multidimensional Nonlinear Descriptive Analysis presents methods for analyzing categorical data that are not necessarily sampled randomly from a normal population and often involve nonlinear relations This reference not only provides an overview of multidimensional nonlinear descriptive analysis MUNDA of discrete data it also offers new results in a variety of fields The first part of the book covers conceptual and technical preliminaries needed to understand the data analysis in subsequent chapters The next two parts contain applications of MUNDA to diverse data types with each chapter devoted to one type of categorical data a brief historical comment and basic skills peculiar to the data types The final part examines several problems and then concludes with suggestions for future progress Covering both the early and later years of MUNDA research in the social sciences psychology ecology biology and statistics this book provides a framework for potential developments in even more areas of study The Crossroads of Space and Time Charles, Irene Nickerson, 2015-02-13 Captain Bancroft couldn't believe this resort The beaches were pristine The rooms were comfortable Everything was so relaxing The only area off limits was the northern beaches and an area they called the trench He asked a Mr Jones why Mr Jones told him that since he was head of security He would take him out to the cliffs and show him the reason While out there they saw a large sea bird flying over the water That was when a large shark leaped from the water and snatched it from the air Mr Jones pointed out that is why the northern beaches and the trench were off limits Bancroft decided that was a good reason The rest of the crew was just having a good time Mrs Svedberg ran the resort like a general The service staff seemed happy despite the fact that she

seemed demanding to work for He also was confused by the large canus that seemed to have free run of the island Till he was told they were part of the security detail Yet he liked what he saw These Maxumus were good at what they did Bancroft decided he was a lucky bear At the very least his life would probably never be boring He was going to be right [The Space Odysseys of Arthur C. Clarke](#) George Edgar Slusser,1977-01-01 A comprehensive survey of Clarke s science fiction **The Poetics of Stage Space** Bruce A. Bergner,2013-05-11 This book analyzes theatre scene design through the powers and characteristics of physical space Physical space is central to creative composition in the theatre but the author extends the reach of the book to individuals concerned with spatial design architects interior designers industrial designers artists and other performers A theory is presented on how design and its creative process echo the process of human awareness and action The book covers an array of considerations for the theatre designer the observable features of given physical spaces their layout detailing and atmosphere and presents these features from the points of view of various disciplines There are chapters on the physics of space the geography of space and the music of space The author also speaks to the less tangible qualities sensed more personally such as the spirituality or the psyche of space A discussion of the collaborative process of creating space is included Instructors considering this book for use in a course may request an examination copy here
