Looking At Photographs A Guide To Technical Terms:

Looking at Photographs Gordon Baldwin, 1991 Explains and illustrates photographic terms The book sets out and defines the vocabulary of photography from its earliest processes through to the age of the analogue camera Looking at Photographs Gordon Baldwin, Martin C. Jürgens, 2009 From its origins at the end of the 1830s photography has evolved both aesthetically and technologically This guide explains the technical terms used in photography and offers an account of the dramatic rise of digital photography It is suitable for those wishing to increase their understanding and enjoyment of the art of photography **Basic Critical Theory for Photographers** Ashley la Grange, 2013-08-06 Basic Critical Theory for Photographers generates discussion thought and practical assignments around key debates in photography Ashley la Grange avoids the trap of an elitist and purely academic approach to critical theory taking a dual theoretical and practical approach when considering the issues Key critical theory texts such as Sontag's *On Photography* and Barthes *Camera Lucida* are clarified and shortened La Grange avoids editorilising letting the arguments develop as the writers had intended it is the assignments which call into question each writer's approach and promote debate This is the ideal book if you want to understand key debates in photography and have a ready made structure within which to discuss and explore these fascinating issues It is accessible to students from high school to university level but will also be of interest to the general reader and to those photographers whose training and work is concerned with the practical aspects of photography Also includes invaluable glossary of terms and a substantial index that incorporates the classic texts helping you to navigate your way through these unindexed works The book also contains useful information on photo mechanical processes explaining how a photograph can appear very differently and as a result be interpreted in a range of ways in a variety of books

art art history history and cultural heritage *Re:view* ,1994 **"Visions of the Industrial Age, 1830?914 "** Amy Woodson-Boulton,2017-07-05 Providing a comprehensive interdisciplinary assessment and with a particular focus on expressions of tension and anxiety about modernity this collection examines visual culture in nineteenth century Europe as it attempted to redefine itself in the face of social change and new technologies Contributing scholars from the fields of history art literature and the history of science investigate the role of visual representation and the dominance of the image by looking at changing ideas expressed in representations of science technology politics and culture in advertising art periodicals and novels They investigate how during the period new emphasis was placed on the visual with emerging forms of mass communication photography lithography newspapers advertising and cinema while older forms as varied as poetry the novel painting interior decoration and architecture became transformed The volume includes investigations into new innovations and scientific development such as the steam engine transportation and engineering the microscope spirit photography and the orrery as well as how this new technology is reproduced in illustrated periodicals The essays also look at more traditional forms of creative expression to show that the same concerns and anxieties about science technology and the changing perceptions of the natural world can be seen in the art of Armand Guillaumin Auguste Rodin Gustave Caillebotte and Camille Pissarro in colonial nineteenth century novels in design manuals in museums and in the decorations of domestic interior spaces **Visions of the Industrial Age 1830 1914** offers a thorough exploration of both the nature of modernity and the nature of the visual **Exploring the Archive** Manuela Fischer,Michael Kraus,2015-07-15 The Ethnologisches Museum in Berlin holds more than 6 500 historical black and white photographs from Latin America These images were produced between 1868 and 1936 and mainly depict ethnological and archaeological motifs although some portray views of urban or natural landscapes The contributions to this volume focus on particular series from this extensive archive In doing so they illustrate the enormous potential for research inherent within such repositories of memory represent a diverse set of approaches and provide varied interpretations of historical photographs The contributions focus on the contexts in which these images were produced and provide interpretations of the intentions behind some of the photographs Moreover they analyse the acquisition of these photographs and the manner in which they have been preserved and disseminated Additionally the contributions highlight the manners in which the images have been used and the impact of some of the formats in which the photographs were published This richly illustrated volume is complemented by the digital reproductions available online at <http://www.smb.digital.de> **Antiques** ,2002-09 Looters, Photographers, and Thieves Pasquale Verdicchio,2011-04-01 Working toward an analysis of the influence of photography on the construction of an Italian type to serve the mandates of the new nation in the 1860s this book engages the work of writers and photographers who have addressed or participated in this venture From Giovanni Verga and Italo Calvino s writings to the conceptual visual philosophy of Tommaso Campanella and Luigi Ghirri s photography From the Arcadic gaze of Baron von Gloeden to Tina

Modotti's revolutionary vision the works analyzed in this book have all contributed in shaping our contemporary visual vocabulary And while Italy is at the center of my considerations the ideas that populate this work are in many ways globally applicable and relevant Looters Photographers and Thieves seeks to contribute to the fascinating discourse on the photographic image and its specific uses in the representation of racial ethnic and gender difference and suggest how the isolation of images according to the dictates of power relations might influence and condition ways of seeing Finally this book is meant as a locus where the images produced in the shaping of notions of citizenship and cultural relevance in nineteenth and twentieth century Italy might reveal the processes of the imaginary As such the arguments and images in each chapter thread through each other to propose ways by which to approach disparate subjects and forms in order to envision photographers themselves as seers rather than gazers
