Learn, and Lead in Higher Education Mona J.E. Danner, J. Worth Pickering, Tisha M. Paredes, 2023-07-03 Using Focus Groups
 to Listen Learn and Lead in Higher Education presents an easy to use 6 step guide to help leaders in higher education listen
 to and learn from their stakeholders in order to enhance decision making The big questions facing institutions today
 especially those surrounding access affordability and accountability require more than dashboards Metrics and quantitative
 data alone do not offer lasting solutions and improvements Using qualitative methods to listen to the voices of those involved
 especially students and staff is critical Focus groups constitute the most appropriate rigorous and relevant qualitative
 research tool for this purpose and one that is cost effective and builds community when conducted using the ODU Method
 described in this book Using Focus Groups is a single comprehensive and practical resource that describes why when and
 how to use focus groups The authors provide detailed guidance for using focus groups from developing the research
 questions with stakeholders through training and recruiting moderators and identifying and recruiting participants to the
 logistics of conducting focus groups and ultimately analyzing data and developing final reports Conversational vignettes
 illustrate the discussions that regularly occur in each step and help the reader better understand the process Fifteen
 appendices provide templates and examples of every part of the process Written particularly for institutional research and
 assessment staff and upper level administrators this book will also appeal to deans department and program chairs and
 directors faculty leaders and administrative unit directors including those in auxiliary and student services alumni
 associations and university foundations It also serves as an excellent resource for higher education research methods courses
 The authors are uniquely positioned to guide readers in this process The team developed and refined this technique over two
 decades at Old Dominion University They have conducted over 100 focus groups with campus nonprofit local and
 international community organizations to assist them in assessing student learning transition and preparedness for the
 workforce as well as evaluating organizations work and planning future projects *Focus On: 100 Most Popular American*
