Losing the Moon Patti Callahan Henry, 2020-05-26 In this vibrant debut novel from New York Times bestselling author Patti Callahan Henry a happy wife and mother's life is upended by the return of her first love Like most mothers Amy Reynolds has anticipated the moment when her son brings home his first serious girlfriend But she's shocked to meet the girl's father Nick Lowry was the college boyfriend who captivated her heart and soul and then without a word of explanation or warning disappeared She still wonders what took him away from her Amy's marriage is satisfying her teenage children thriving She loves her beautifully restored home and her work teaching at the local college She has long since buried her memories of Nick But now that he is back in her life she can't help recalling the beach where they pledged their destinies together twenty years ago She can't help missing the young woman she was then full of passion and promise And she can't help being tempted by the life she might have lived might still live even though making that choice would betray all she holds dear

Airy, 1848 The Splitting of the Moon A.N.F. Simoes, 2024-11-22 The Splitting of the Moon explores the hypothetical scenario of a large meteor impacting the Moon and its profound consequences for Earth and human civilization This work of speculative non fiction blends scientific rigor with philosophical reflection examining the astronomical environmental social and cultural ramifications of a world suddenly deprived of its celestial companion The narrative begins by tracing humanity's historical fascination with the cosmos exploring the myths legends and religious beliefs that have shaped our understanding of the Moon and its place in the universe It then delves into the scientific realities of a lunar impact analyzing the potential geological atmospheric and tidal effects of such a cataclysmic event The hypothetical impact serves as a catalyst for exploring the challenges and opportunities facing a world grappling with a fundamentally altered celestial landscape The book examines the potential for technological innovation international cooperation and cultural adaptation as humanity confronts the loss of its familiar lunar companion The narrative also delves into the psychological and philosophical implications of a Moonless world exploring the potential for a shift in human consciousness a renewed appreciation for the fragility of our planet and a deeper understanding of our place in the cosmos The Splitting of the Moon is a work of both warning and hope It serves as a reminder of the dynamic nature of our cosmic environment and the potential for catastrophic events beyond our control But it also highlights the resilience and adaptability of human civilization our capacity to confront the unknown and our enduring quest for knowledge and meaning in a universe full of wonder and uncertainty The Splitting of the Moon is a thought provoking exploration of a hypothetical scenario that challenges our assumptions about the stability of our cosmic environment and invites us to contemplate the future of humanity in a universe full of wonder and uncertainty
