Lost Bearings In English Poetry:

Lost Bearings in English Poetry David Holbrook, 1977 **Powers of Being** Edwin Webb, 1995 To mark the seventieth birthday of one of Britain's most prolific writers teachers and academics from the United States Canada and the United Kingdom contributed a collection of specially written essays defining and appraising Holbrook's work in all its varieties The result is *Powers of Being* which addresses the issues proposed by Holbrook and celebrates a singular and distinguished literary achievement *Shamanic Elements in the Poetry of Ted Hughes* Ewa Panecka, 2018-04-18 This study on religious experience in modern poetry features innovatory and accessible close readings of some of the most beloved authors of English verse In today's seemingly secular age religion still remains a highly contested subject The selection of texts analysed here is representative of a wide spectrum of attitudes including a sharply critical refusal to acknowledge Christianity as the basis of civilization Some poets see national religion as a framework for cultural identity while others worship nature as the omnipotent Force of Life trying to create their own gods Rather than reducing poetry to a background for philosophical analysis or theological deliberation this book presents diverse modes of the poetic endeavor to capture and convey the divine The chapters provide a range of perspectives on individual experience rendered into poetry as a subtle relationship between faith perception and language The text will be of interest to anyone looking for new ways of reading poetry as a spiritual quest **American and British Poetry** Harriet Semmes Alexander, 1984 **Education, Nihilism, and Survival** David Holbrook, 2000-01-01 Under the influence of science modern civilization has adopted the view that only things that can be verified empirically or arrived at rationally are true Modern people tend to regard themselves as mechanisms without any subjective aspects to their nature In this insightful and passionately concerned book British educationist and man of letters David Holbrook retorts persuasively that this reductive view of human nature is profoundly false Man's inner subjective life is essential to his nature what happens to his consciousness is the most important thing in his life and his greatest need is to find meaning Holbrook also warns that reductionism has pernicious even lethal cultural social and political consequences The logical result is nihilism if human beings and existence are but physical mechanisms it necessarily follows that consciousness does not exist life is meaningless our concern with moral values is pointless and so are our lives and actions Life itself reduces to nothing but self indulgence and self assertion A culture informed by this perspective is necessarily full of expressions of hate and meaninglessness which coarsens and demoralizes the majority of the population and worsens the mental pathologies of unstable persons Egoistical nihilism becomes ever more widespread and a decent society becomes impossible Holbrook advances a keenly insightful and eloquent critique of the radical individualism of Max Stirner's famous tract *The Ego and His Own* Stirner's worldview he argues is grounded in psychopathology and takes the nihilist assumptions of modernity to their logical conclusion the unique one totally detached from society and reducing others to mere means to his ends fair game for exploitation unfettered by ethical considerations Ominously he notes the

Stirnerian attitude toward existence is becoming increasingly common Against the reductive perspective of positivism Holbrook argues that scientific investigations establish the reality of meaning and of values rooted in love He calls for a reaffirmation of both Originally published in 1977 *Education Nihilism and Survival* speaks prophetically and even more urgently to us today The worsening coarseness nihilism and brutality of our culture the partisan fanaticisms and widespread alienation and apathy of our politics and horrors such as school shootings reveal the consequences of radical individualism *Education Nihilism and Survival* will be of interest to well educated general readers concerned at the state of culture and society educators alarmed at harmful approaches in education and psychologists and philosophers concerned about existentialism Stirner's egoist philosophy and the need for meaningful philosophical anthropology David Holbrook is an emeritus fellow of Downing College and lecturer Among his books are *Sex and Dehumanization* and *Sylvia Plath Poetry and Existence* also available from Transaction

Englishness and National Culture Antony Easthope, 2004-01-14 In this highly engaging book Antony Easthope examines Englishness as a form and a series of shared discourses Discussing the subject of nation a growing area in literary and cultural studies Easthope offers polemical arguments written in a lively and accessible style *Englishness and National Culture* asserts a profound and unacknowledged continuity between the seventeenth century and today It argues that contemporary journalists historians novelists poets and comedians continue to speak through the voice of a long standing empiricist tradition

Dissociation and Wholeness in Patrick White's Fiction Laurence Steven, 1989-08-23 Patrick White is a man divided one part of him strives for permanence surety the ideal while knowing the contingent temporal realm he inhabits must inevitably undermine such striving The desire and the knowledge of its futility leads him into a misanthropic devaluation of human creative possibility and complementarily into the arbitrary use of imposed symbolic resolutions directed to an elect who can see It has been this part of White largely that criticism has been industrious in explicating if not in quite the terms I have used above But there is another part of White which

Education, Nihilism, and Survival Ernest Krausz, 2017-09-29 Under the influence of science modern civilization has adopted the view that only things that can be verified empirically or arrived at rationally are true Modern people tend to regard themselves as mechanisms without any subjective aspects to their nature In this insightful and passionately concerned book British educationist and man of letters David Holbrook retorts persuasively that this reductive view of human nature is profoundly false Man's inner subjective life is essential to his nature what happens to his consciousness is the most important thing in his life and his greatest need is to find meaning Holbrook also warns that reductionism has pernicious even lethal cultural social and political consequences The logical result is nihilism if human beings and existence are but physical mechanisms it necessarily follows that consciousness does not exist life is meaningless our concern with moral values is pointless and so are our lives and actions Life itself reduces to nothing but self indulgence and self assertion A culture informed by this perspective is necessarily full of expressions of hate and meaninglessness which coarsens and demoralizes the majority of the

population and worsens the mental pathologies of unstable persons Egoistical nihilism becomes ever more widespread and a decent society becomes impossible Holbrook advances a keenly insightful and eloquent critique of the radical individualism of Max Stirner's famous tract *The Ego and His Own* Stirner's worldview he argues is grounded in psychopathology and takes the nihilist assumptions of modernity to their logical conclusion the unique one totally detached from society and reducing others to mere means to his ends fair game for exploitation unfettered by ethical considerations Ominously he notes the Stirnerean attitude toward existence is becoming increasingly common Against the reductive perspective of positivism Holbrook argues that scientific investigations establish the reality of meaning and of values rooted in love He calls for a reaffirmation of both Originally published in 1977 *Education Nihilism and Survival* speaks prophetically and even more urgently to us today The worsening coarseness nihilism and brutality of our culture the partisan fanaticisms and widespread alienation and apathy of our politics and horrors such as school shootings reveal the consequences of radical individualism *Education Nihilism and Survival* will be of interest to well educated general readers concerned at the state of culture and society educators alarmed at harmful approaches in education and psychologists and philosophers concerned about existentialism Stirner's egoist philosophy and the need for meaningful philosophical anthropology

Making God Ann Long, 2015-11-26 The great teachers of the Axial Age the Buddha Confucius Zoroaster the Hebrew prophets right down to Jesus began the making of the modern God They re made their inherited gods creating a personal God in their own image We may best celebrate them not by clinging to their creation but by emulating their work Developments in psychology mean that our view of persons is unlike theirs and therefore the God they made can no longer serve as ours We have to make our own So argues Ann Long in this fascinating exploration of personhood religion and moral value The revolutionary decentring of the earth in the universe Galileo was followed by the revolutionary decentring of the human in the biosphere Darwin Now we are living through the even more revolutionary decentring of the I in the world a movement from that which is normal having persons in society to that which is moral loving persons in community

The Gospel of Risk and Its Enemies M. H. Davis, 2010-03-01 Most current popular Christian theology books tend to focus on the defects of either fundamentalism or liberalism The authentic Good News gospel of Christ is currently sandwiched between these two main rival distortive and reductive interpretations Here M H Davis suggests that neither fundamentalism nor liberalism equate with the radically challenging and empowering gospel of risk As such he offers a fresh slant on the current debate as to the power and scope of post modern Christianity and considers how these western Christian extrapolations square or do not square with the radical risk taking nature of Christ's incarnate ministry The book's purpose is to act as a catalyst to provoke people into the realisation that Christianity does not have to be an either or choice between fundamentalism and liberalism
