Featuring a lineup of distinguished academics this collection remedies the absence of scholarly attention to French cinematic legend Isabelle Huppert This volume deconstructs Huppert s star persona and public profile through critical and theoretical analysis of her various screen roles from her very early appearances alongside Romy Schneider in *C sar et Rosalie* Sautet 1972 and G rard Depardieu in *Les Valseuses* 1974 to a number of celebrated collaborations with high profile European auteurs such as Catherine Breillat Claire Denis Jean Luc Godard Michael Haneke and Joseph Losey and with more popular auteurs such as Claude Chabrol and Fran ois Ozon Known for a cerebral internalization of characterization a technical mastery of extreme emotions and a singular brand of icy intellectualism Huppert s performances continue to impress stun and surprise audiences By focusing on several theoretical questions that relate to image identity sexuality and place this volume situates Huppert s star persona in the more practical creative contexts of performance authorship genre and collaboration This volume contrasts complementary critical accounts of her stardom by working across the different periods and territories of her career

productive literary relationship with his powerful predecessor To understand how Johnson creatively appropriates Milton's texts how he critically challenges yet also confirms Milton's status and how he constructs him as a biographical subject is to deepen the modern reader's understanding of both writers in the context of historical continuity and change Christine Rees's insightful study will be of interest not only to Milton and Johnson specialists but to all scholars of early modern literary history and biography
