Make No Promises:

In His Name E. Christopher Reyes,2010-05 Many devout Christians will not like this book as I have discovered that they are neither interested nor concerned with anything which challenges their long taught beliefs I did not make history but merely write on its historical significance in the events of mankind For those truth seekers who are interested in the Why regarding religious beliefs this book offers a genesis of Christian beliefs Religion is a multi million dollar a year business and world wide that figure runs into the billions Is the true nature of faith focused on mankind or merely a financial endeavor Extraordinary care has been taken to present the good and the bad as well as the ugly side of religion

this idea Singer focuses on the ways in which property law reflects and shapes social relationships He contends that property is a matter not of right but of entitlement and entitlement in Singer s work is a complex accommodation of mutual claims Property requires regulation property is a system and not just an individual entitlement and the system must support a form of social life that spreads wealth promotes liberty avoids undue concentration of power and furthers justice The author argues that owners have not only rights but obligations as well to other owners to nonowners and to the community as a whole Those obligations ensure that property rights function to shape social relationships in ways that are both just and defensible
