Anthony R. DiMaggio,2017-02-21 Examines how the US media covers high profile public policy issues in the context of competing claims about media bias Tracking the effects of media content on the public is a difficult endeavor and media effects vary on a subject to subject basis To address this challenge The Politics of Persuasion employs a multifaceted mixed method approach to studying mass media and public attitudes Anthony R DiMaggio analyzes more than a dozen case studies covering US domestic economic policy and examines a wide range of theories of how bias operates in mass media with regard to coverage of these issues While some research claims that journalists are overly negative and biased against government officials some reveals that journalists favor citizens groups Still other studies contend there is a liberal bias in the media a progovernment bias or a bias in favor of advertisers and business interests Through his analysis DiMaggio is the first to systematically examine all of these competing interpretations He concludes that reporters tailor stories to corporate and government interests but argues that the ability to manufacture consent from the public in favor of these elite views is far from guaranteed According to DiMaggio citizens often make use of their own personal experiences and prior attitudes to challenge official narratives **Electronic Media Criticism** Peter B. Organizing the Curriculum , 2019-02-11

Contemporary American youth live in a culture that ignores or denigrates labor unions Mainstream media cover labor issues only sparingly and unions no longer play much of a role in popular culture texts films or images In our schools labor has been limited to a footnote in textbooks instead of being treated seriously as the most effective force for championing the rights of working people the vast majority of the citizenry Teachers have been convinced that to bring up class or to teach about the labor movement may be construed as taking sides while the all pervasive presence of corporate America in our schools is rarely questioned So for all the talk of schools preparing young people for the work world we are failing to teach them even the basics of how that world is structured or how they can be empowered through collective action

Organizing the Curriculum Perspectives on Teaching the US Labor Movement is the first book length treatment of this blind spot in contemporary curriculum and pedagogy Contributors to this collection unionists activists teachers teacher educators and academics interrogate the ways in which knowledge is constructed in school discourses conceptualize pedagogical strategies and curricula that open discussions around class analysis and political economy via studies of the labor movement and put

forward an activist vision of education that truly engages young people beyond the classroom walls **Politics of Fear**
Manuel G. Gonzales, Richard Delgado, 2015-12-03 Lucidly written widely informed and uncompromisingly honest a valuable
expose Michael Parenti Documents the stunning success of a network of wealthy donors and corporations in creating and
sustaining a set of think tanks legal action groups and media strategies Gary Orfield Harvard University What explains the
electoral success of Republicans particularly of the ascendant neoconservatives who now dominate the Party Based on a
thorough and up to date examination of the New Right over twenty five years The Politics of Fear proposes some provocative
answers including globalization new technologies and a far reaching network of right wing think tanks and foundations As
the authors show all have opened the doors to a new politics of fear successfully waged by the neoconservatives By
manipulating insecurity the New Right has created an extraordinarily successful populist conservative movement Utilizing
extensive documentation the authors argue convincingly that the fear of immigrants and racial minorities has served as the
most effective tactic in the GOP arsenal while their approach also implicates gays feminists and terrorists The book explains
why Americans have willingly supported a party that promises them security just as it delivers greater economic and political
insecurity The authors argue that despite their striking political successes neoconservatives have delivered to voters a set of
policies harmful to working Americans in the way of regressive tax measures military exploits tort reform deregulation and
environmental destruction
