Make-Believe Family Elizabeth Duke,2011-07-15 Their engagement was just a game It was also a game of high stakes If Sarah didn't pose as Kane Brody's intended bride he risked losing his daughter forever and Sarah couldn't bear to see little Bambi hurt However there was an even bigger problem Kane was a most desirable pretend fiancé and it was all Sarah could do to remember that her perfect new family wasn't for keeps and her fairy tale engagement was in fact only make believe

Andrew T. Scull,2014-11-20 Decarceration is a word which has not yet entered the dictionary But it is increasingly being used to designate a process with momentous implications for all of us It is shorthand for a state sponsored policy of closing down asylums prisons and reformatories Mad people criminals and delinquents are being discharged or refused admission to the dumps in which they have been traditionally housed Instead they are to be left at large to be coped with in the community We are told by those who run programs of this sort that keeping the criminal and the mentally disturbed in our midst is humane We are informed that it is a more effective means of curing or rehabilitating such people And miracle of miracles we learn that this approach is also cheaper With an alternative which embraces such an array of virtues who can be surprised to learn that mental hospitals are emptying faster and faster and that with each passing day the convicted felon's chances of going to prison grow more remote On closer examination it turns out that this whole enterprise is built on a foundation of

sand The claim that leaving deviants at large cures or rehabilitates them is just that a claim Little or no solid evidence can be offered in its support Instead it rests uneasily on a cloud of rhetoric and wishful thinking Most people s conception of the humane does not embrace placing senile men and women in the hands of rapacious nursing home operators or turning loose the perpetrators of violent crimes under conditions which guarantee that they will receive little or no supervision Yet as decarceration has been implemented this is what has been happening Much of the time it appears as if the policy makers simply do not know what will happen when their schemes are put into effect Nor do they seem very concerned to find out Often they do not even know where those they have dumped back on the rest of us are to be found **Sticking Together**

Jaclyn S. Gerstein,2013-08-21 First published in 2000 Experiential family counseling is an action oriented approach to family therapy Through the use of structured games and physical and intellectual challenges many clinicians find that they are able to gain insight into the behaviors and responses that perpetuate a family s problems While traditional treatment methods often become bogged down in verbal sparring or blame placing between family members experiential counseling calls for families to work together to succeed in overcoming obstacles that are set before them And because many experiential activities can be designed as metaphors for a family s individual problems counselors using this treatment method are given an excellent opportunity to help families practice actual solutions that can be used in their daily interactions and experiences In Sticking Together Jackie Gerstein has given therapists and family counselors a wonderful tool for introducing experiential counseling into their own practices In addition to a thoughtful overview of the general uses and benefits of this unique technique she also provides practical guidelines for developing experiential family counseling sessions Key features include A core section of experiential activities games and exercises for family therapy Cautions that should be observed when using these activities with certain populations Detailed processing questions with each exercise that can help families to interpret the results of experiential activities Suggestions to encourage family goal setting A discussion on the need for ongoing assessment during the course of experiential therapy Samples of important documents necessary in experiential therapy programs including performance agreements and informed consent forms With an easy to use format Sticking Together offers readers an extensive selection of family building initiatives that promise to introduce fun into the vocabulary of family therapy From Ritual to Repertoire

Arnold Miller,Eileen Eller-Miller,1989-08-22 Using a systems approach firmly grounded in cognitive development theory and findings this book offers a new well researched method for intervening with severely disturbed children autistic brain damaged retarded emotionally deprived and developmentally delayed This approach emphasizes building on the strengths of each child s coping mechanisms rather than on conventional behavior modification techniques which the authors see as raising serious ethical questions Their approach has been tried and tested in clinical practice and has demonstrated its efficacy The book examines the formation of systems in normal and abnormal development and discusses specifics of assessment and intervention with disordered children **The family library of**
