Nancy J. Ondra

Making A White Garden:

The White Garden Stephanie Barron, 2009-09-29 In March 1941 Virginia Woolf filled her pockets with stones and drowned herself in England's River Ouse. Her body was found three weeks later. What seemed like a tragic ending at the time was in fact just the beginning of a mystery. Six decades after Virginia Woolf's death, landscape designer Jo Bellamy has come to Sissinghurst Castle for two reasons: to study the celebrated White Garden created by Woolf's lover Vita Sackville-West and to recover from the terrible wound of her grandfather's unexplained suicide. In the shadow of one of England's most famous castles, Jo makes a shocking find: Woolf's last diary, its first entry dated the day after she allegedly killed herself. If authenticated, Jo's discovery could shatter everything historians believe about Woolf's final hours. But when the Woolf diary is suddenly stolen, Jo's quest to uncover the truth will lead her on a perilous journey into the tumultuous inner life of a literary icon whose connection to the White Garden ultimately proved devastating. Rich with historical detail, *The White Garden* is an enthralling novel of literary suspense that explores the many ways the past haunts the present and the dark secrets that lurk beneath the surface of the most carefully tended garden. Ondra takes the stressful guesswork out of perennial garden planning by offering 52 vibrant designs, each made up of only five plants. Enjoy gardens full of sun-drenched blooming flowers and shade-loving greenery for years to come. **The Garden**, 1906 [The Artist's Garden](#) Jackie Bennett, 2019-10-29 *The Artist's Garden* will feature up to 20 gardens that have inspired and been home to some of the greatest painters of history. These gardens not only supplied the inspiration for creative works but also illuminate the professional motivation and private life of the artists themselves, from Cézanne's house in the south of France to Childe

Hassam at Celia Thaxter's garden off the coast of Maine. Flowers and gardens have often been the first choice for artists looking for a subject. A garden close to the artist's studio is not only convenient for daily material and ideas but also has the advantage of changing through the seasons and over time. Claude Monet's Giverny was the catalyst for hundreds of great paintings by Monet and other artists, each one different from the one before. Sometimes a whole village becomes the focus for a colony of artists as at Gerberoy in Picardy and Skagen on the northernmost tip of Denmark. This book is about the real homes and gardens that inspired these great artists, gardens that can still be visited today. The relationship between artist and garden is a complex one. A few artists, including Pierre Bonnard and his neighbour Monet, were keen gardeners as much in love with their plants as their work, while for others like Sorolla in Madrid, his courtyard home was both a sanctuary and a source of ideas.

We Made a Garden Margery Fish, 2024-06-06. An elegant new edition of a classic book from one of the twentieth century's greatest garden writers. This landmark work on creating a garden was first published in 1956 and has rarely been out of print since. *We Made a Garden* is the story of how Margery Fish, one of the leading British gardeners of the mid 20th century, and her husband Walter transformed an acre of wilderness into a stunning cottage garden still open to the public at East Lambrook Manor, Somerset, England. Quirky and readable, this book details her creation of a world-renowned cottage garden as well as her battles with Walter in the process, who preferred the standard suburban approach. In this beautiful and timeless work, she recounts the trials and tribulations, the successes and failures of her venture with ease and humour. Topics covered are colourful and diverse, ranging from the most suitable hyssop for the terraced garden through composting, hedges and making paths to the best time to lift and replant tulip bulbs. This book has been hailed as everything from a blueprint for the creation of a modern cottage garden to a feminist manifesto, and the author's practical knowledge, imaginative ideas and general good sense will encourage and inspire gardeners everywhere.

Gardening as a Sacred Art Jeremy Naydler,2021-04-28 This beautifully illustrated book presents a history of our relationship with nature beginning with the civilisations of ancient Egypt and Mesopotamia when gardens served as the dwelling place of the gods Tracing this history through subsequent epochs the author shows how human awareness of the divine presence in nature was gradually eclipsed As nature came to be viewed primarily as a physical resource to be controlled and exploited by us this was reflected in the ordered rational designs imposed on such gardens as Versailles More recently gardening has come to be seen less as an instrument of control than as an art in its own right enhancing nature s inherent beauty Jeremy Naydler suggests that the future of gardening lies not simply in its being regarded as an art but as a sacred art which once again honours and works with the spiritual dimension intrinsic to nature This thoughtful book challenges the gardener in us to work as an artist and experience the sacred presence around us by becoming creatively engaged with the hidden formative forces of Nature Network Review The main thrust of this profound and inspiring volume is to remind us that gardens are essentially sacred spaces in which we may work together with Nature in order that we may help her and ourselves in the process express more fully the divine presence hidden within the heart of her outward beauty Resurgence An exceptionally well referenced delightfully illustrated and informative work New View In his beautifully illustrated book Naydler re sounds the call of the garden as a necessary counterbalance and corrective It s a welcome message towards re sanctifying our world Nexus Magazine Gardeners will love this book Occasionally you look down the garden you have worked all day and you have that peace that sense of the numinous that cannot be understood except by somehow knowing that it is vital Our author has been so kind as to declare it for us gardening is a sacred art Derek Cunningham Self and Society
