Making and Repairing Wooden Clock Cases V. J. Taylor, H. A. Babb, 1994 Re create traditional wooden clock cases with authentic constructional plans

Maintaining Longcase Clocks Nigel Barnes, Austin Jordan, 2013-08-31 Longcase clocks were individually hand made during the golden age of change that took place between the late seventeenth and mid nineteenth centuries Longcase clocks with their seventeenth century clock making technology were innovative and incorporated an accurate pendulum clock within an attractive piece of domestic furnishing This invaluable book is essential reading for all those who own and collect longcase clocks as well as clock repairers horologists and conservationists The authors provide detailed information about how longcase clocks work and how they are made They also cover the theory and the best practice practical steps that are required in longcase clock maintenance restoration and conservation The book outlines the history and horological development of longcase clocks describes how longcase clocks can be dated considers materials tools and equipment examines the movement and the associated simple and more difficult workshop procedures covers maintenance and effective repairs explains the more difficult woodwork procedures Superbly illustrated with 300 colour photographs Nigel Barnes and Austin Jordan provide advice and guidance in the field of antique horology and regularly run weekend courses

Restoring Grandfather Clocks Eric Smith, Brian Smith, 1995-03-01 The grandfather clock an entirely new kind of furniture first appeared in the late seventeenth century From then on with its long case to protect pendulum and weights its rugged movement and large clear indication of time it has been a success story right up to the present day Virtually none of these clocks is beyond repair and often the work required is within the scope of inexperienced owners This is the first full length book to cover repair and restoration of these attractive and often valuable antiques including their casework The first part outlines how to clean and service the clock works and also how to refurbish the dial while in the second part restoration or casework both structural repairs and finishing is considered The illustrations are of two actual clocks one eight day and one thirty hour and work proceeding on them The last part of the book sketches common variations from these particular examples Armed with this book and appropriate tools for work on both movement and case the owner of a dilapidated grandfather clock will be encouraged and given the know how to restore it to life as a useful and attractive clock and a prized possession
