Commodifying Communism David L.

Wank,1999 *Commodifying Communism* is an ethnographically grounded account of the institutional organization and political consequences of China s historically unprecedented market growth Drawing upon almost two years of ethnographic fieldwork this book challenges conventional views of post communist emerging markets being tied to the retreat of the state David Wank shows how entrepreneurs running private trading companies in Xiamen City Fujian Province one of China s five special economic zones maximize profit and security through patron client networks with local state agents The book examines how processes of opportunity exchange expectations and advantage are constrained by both statist and popular institutions in market clientelism It also considers the implications of market clientelism for the dynamism of China s emerging market economy relative to Eastern European post communist economies and its political consequences for state society and center local relations

Capitalism without Democracy Kellee S. Tsai,2011-06-15

Over the past three decades China has undergone a historic transformation Once illegal its private business sector now comprises 30 million businesses employing more than 200 million people and accounting for half of China s Gross Domestic Product Yet despite the optimistic predictions of political observers and global business leaders the triumph of capitalism has not led to substantial democratic reforms In *Capitalism without Democracy* Kellee S Tsai focuses on the activities and aspirations of the private entrepreneurs who are driving China s economic growth The famous images from 1989 of China s new capitalists supporting the students in Tiananmen Square are Tsai finds outdated and misleading Chinese entrepreneurs are not agitating for democracy Most are working eighteen hour days to stay in business while others are saving for their one child s education or planning to leave the country Many are Communist Party members Remarkably Tsai writes most entrepreneurs feel that the system generally works for them She regards the quotidian activities of Chinese entrepreneurs as subtler and possibly more effective than voting lobbying and protesting in the streets Indeed major reforms in China s formal institutions have enhanced the private sector s legitimacy and security in the absence of mobilization by business owners In discreet

collaboration with local officials entrepreneurs have created a range of adaptive informal institutions which in turn have fundamentally altered China's political and regulatory landscape Based on years of research hundreds of field interviews and a sweeping nationwide survey of private entrepreneurs funded by the National Science Foundation Capitalism without Democracy explodes the conventional wisdom about the relationship between economic liberalism and political freedom

Faith, Finance, and Economy Tanweer Akram, Salim Rashid, 2020-03-10 This open access book seeks to foster a multidisciplinary understanding of the ties between faith financial intermediation and economic progress by drawing on research across economics finance history philosophy ethics theology public policy law and other disciplines Chapters in this edited volume examine themes as consequential as economic opportunities real world outcomes and faith values and consumerism faith financial intermediation and economic development in Western and Islamic societies and the impact of faith issues on US workers on the workplace and religion and on the characteristics of good wealth Though engaging with difficult questions this book is written in an accessible style to be enjoyed by laypeople and scholars alike **Unofficial**

The Cambridge History of Communism: Volume 3, Endgames? Late Communism in Global Perspective, 1968 to the Present Juliane Fürst, Silvio Pons, Mark Selden, 2017-09-21 The third volume of The Cambridge History of Communism spans the period from the 1960s to the present documenting the last two decades of the global Cold War and the collapse of Soviet socialism An international team of scholars analyze the rise of China as a global power continuing to proclaim its Maoist allegiance and the transformation of the geopolitics and political economy of Cold War conflict in an era of increasing economic interpenetration Beneath the surface profound political social economic and cultural changes were occurring in the socialist and former socialist countries resulting in the collapse and transformations of the existing socialist order and the changing parameters of world Marxism This volume draws on innovative research to bring together history from above and

below including social cultural gender and transnational history to transcend the old separation between Communist studies and the broader field of contemporary history **Private Enterprises in Rural China** Ole Odgaard, 1992 Analyzes how private enterprises have gradually gained momentum and are now a cornerstone in China's rural transformation The text also presents field study results on how these household based enterprises affect local community development
