Making Of A Government Political Leaders In Modern Mexico

Aaron W. Navarro

Making Of A Government Political Leaders In Modern Mexico:

The Making of a Government Roderic A. Camp, 1984 **The Metamorphosis of Leadership in a Democratic Mexico** Roderic Ai Camp, 2010-11-11 The Metamorphosis of Leadership in a Democratic Mexico is a broad analysis of Mexico's changing leadership over the past eight decades stretching from its pre democratic era 1935 1988 to its democratic transition 1988 2000 to its democratic period 2000 the present In it Roderic Camp one of the most distinguished scholars of Mexican politics seeks to answer two questions 1 how has Mexican political leadership evolved since the 1930s and in what ways beyond ideology has the shift from a semi authoritarian one party system to a democratic electoral system altered the country's leadership and 2 which aspects of Mexican leadership have been most affected by this shift in political models and when and why did the changes in leadership occur Rather than viewing Mexico's current government as a true democracy Camp sees it as undergoing a process of consolidation under which the competitive electoral process has resulted in a system of governing institutions supported by the majority of citizens and significant strides toward plurality Accordingly he looks at the relationship between the decentralization of political power and the changing characteristics experiences and paths to power of national leaders The book which represents four decades of Camp's work is based upon a detailed study of 3000 politicians from the 1930s through the present incorporating regional media accounts and Camp's own interviews with Mexican presidents cabinet members assistant secretaries senators governors and party presidents *Political Intelligence and the Creation of Modern Mexico, 1938-1954* Aaron W. Navarro, 2010 Analyzes the impact of the opposition candidacies in the Mexican presidential elections of 1940 1946 and 1952 on the internal discipline and electoral dominance of the ruling Partido de la Revoluci on Mexicana PRM and its successor the Partido Revolucionario Institucional PRI Provided by publisher

A Companion to Mexican History and Culture William H. Beezley, 2011-03-16 A Companion to Mexican History and Culture features 40 essays contributed by international scholars that incorporate ethnic gender environmental and cultural studies to reveal a richer portrait of the Mexican experience from the earliest peoples to the present Features the latest scholarship on Mexican history and culture by an array of international scholars Essays are separated into sections on the four major chronological eras Discusses recent historical interpretations with critical historiographical sources and is enriched by cultural analysis ethnic and gender studies and visual evidence The first volume to incorporate a discussion of popular music in political analysis This book is the recipient of the 2013 Michael C Meyer Special Recognition Award from the Rocky Mountain Conference on Latin American Studies **Mexico's Political Stability** Roderic Ai Camp, 2019-08-28 Mexico is undergoing its worst economic crisis since the world depression of the 1930s In this volume contributors analyze significant patterns that might affect political stability and legitimacy economic viability and social change over the next several years often reaching controversial conclusions They argue for example that the military is not likely to change its present civil military role that political opposition rather than political violence or pressure from foreign governments will

have the most profound influence on the changing pattern of political legitimacy and system stability and that decision making in the private sector may have the greatest potential to resolve or exacerbate the current crisis Finally they suggest that because economic conditions have been altered so dramatically in the recent period Mexican policymakers will need to develop a new range of political alternatives to stabilize the economy and redirect the country's future

Corruption & Politics in Contemporary Mexico Stephen D. Morris, 1991 This book addresses the causes effects and dynamics of political corruption in Mexico Systematic analysis of corruption is critical to a better understanding of the politics of Mexico and despite the many conceptual and methodological obstacles the importance of the subject matter demands treatment Morris's work should therefore be seen not as definitive but as an initial step in understanding a central dimension of Mexican politics Corruption as a topic of research invites certain misunderstandings as it is a broad concept conveying a variety of moral connotations This inquiry into political corruption is not intended to depict the Mexican people or society as any less or more moral than others The study draws on extensive content analysis of news reports from the Mexican press a public opinion poll conducted in 1986 and personal interviews The objective is not to expose scandals and wrongdoing by Mexican officials name names or point fingers it is an academic endeavor The author discusses scandals and gives examples of corruption for illustrative purposes but his analysis is more theoretical than anecdotal He questions whether in fact corruption has enhanced or diminished the stability of the Mexican government and examines the reasons for the failure of many anti corruption efforts

Bureaucracy and Politics in Mexico Eduardo Torres Espinosa, 2019-01-15 First published in 1999 the main theme of this book is the relationship between bureaucracy and politics in Mexico This examined though a study of the Secretariat of Programming and Budget which came into existence in 1976 and was abolished in 1992 The book charts the rise and fall of the Secretariat over three presidential terms and gives an explanation of the chain of events that led to its disappearance In doing so it underlines the significant impact that institutional and bureaucratic factors have on group politics in contemporary Mexico

Entrepreneurs and Politics in Twentieth-Century Mexico Roderic Ai Camp, 1989-06-01 Based on six years of research including interviews with leading Mexican entrepreneurial and political leaders and the assessment of hitherto unavailable materials this work focuses on the complex political relationship between the Mexican state and leading businessmen from the 1920s to the present Analyzing nearly 3000 biographies to compare Mexico's two leading competitors for political power the author uses a humanistic approach to test a number of assumptions about the relationship between the business community and the state and provides new insights into the existence of a power elite the exchange between economic and political leaders the self image of Mexican entrepreneurs the position of family controlled firms and the influence of capitalists on the decision making process Camp also provides detailed information on the ownership of Mexico's top 200 firms including names of stockholders board members and managers

Building the Fourth Estate Chappell Lawson, 2002-08-05 Building the Fourth Estate reveals the crucial part played by the Mexican media

in the country's remarkable recent political transformation. Based on an in-depth examination of Mexico's print and broadcast media over the last twenty-five years, Chappell Lawson traces the role of the media in that country's move toward democracy, demonstrating the reciprocal relationship between changes in the press and changes in the political system. In addition to illuminating the nature of political change in Mexico, Lawson's findings have broad implications for understanding the role of the mass media in democratization around the world. From back cover: Routledge Library Editions: Education Mini-Set G Higher & Adult Education 11 vol set Various, 2021-07-14. Mini set G Higher and Adult Education re issues 11 volumes originally published between 1974 and 1992. They discuss and analyze adult education from both theoretical and practical standpoints and look at the challenges facing adult education during the 1970s and 80s as well as examining the history of higher adult education in the UK. The mini set includes one volume which although previously available with another publisher and out of print for some years is now available for the first time from Routledge. *Women in Contemporary Mexican Politics* Victoria E. Rodríguez, 2010-01-01. Since the mid 1980s a dramatic opening in Mexico's political and electoral processes combined with the growth of a new civic culture has created unprecedented opportunities for women and other previously repressed or ignored groups to participate in the political life of the nation. In this book Victoria Rodríguez offers the first comprehensive analysis of how Mexican women have taken advantage of new opportunities to participate in the political process through elected and appointed office, nongovernmental organizations and grassroots activism. Drawing on scores of interviews with politically active women conducted since 1994, Rodríguez looks at Mexican women's political participation from a variety of angles. She analyzes the factors that have increased women's political activity from the women's movement to the economic crises of the 1980s and 1990s to increasing democratization to the victory of Vicente Fox in the 2000 presidential election. She maps out the pathways that women have used to gain access to public life and also the roadblocks that continue to limit women's participation in politics, especially at higher levels of government. And she offers hopeful yet realistic predictions for women's future participation in the political life of Mexico. **Political Recruitment across Two Centuries** Roderic Ai Camp, 2013-12-06. During more than twenty years of field research, Roderic Ai Camp built a monumental database of biographical information on more than 3,000 leading national figures in Mexico. In this major contribution to Mexican political history, he draws on that database to present a definitive account of the paths to power Mexican political leaders pursued during the period 1884 to 1992. Camp's research clarifies the patterns of political recruitment in Mexico, showing the consequences of choosing one group over another. It calls into question numerous traditional assumptions, including that upward political mobility was a cause of the Mexican Revolution of 1910. Comparing Mexican practices with those in several East Asian countries also allows Camp to question many of the tenets of political recruitment theory. His book will be of interest to students not only of Mexican politics but also of history, comparative politics, political leadership, and Third World development. **Leaders, Leadership, And U.S. Policy In Latin America** Michael J.

Kryzanek,2019-04-05 This book focuses on the future of Latin American leaders and the relationship of these leaders to the United States It examines the ways in which the critical interaction between individual leaders and the U S policy community affects the substance and direction of hemispheric relations The International Politics of Latin America Peter Calvert,1994 **Government and Private Sector in Contemporary Mexico** Sylvia Maxfield,Ricardo Anzaldúa Montoya,1987 *Oral History in Latin America* David Carey Jr,2017-03-27 This field guide to oral history in Latin America addresses methodological ethical and interpretive issues arising from the region s unique milieu With careful consideration of the challenges of working in Latin America including those of language culture performance translation and political instability David Carey Jr provides guidance for those conducting oral history research in the postcolonial world In regions such as Latin America where nations that have been subjected to violent colonial and neocolonial forces continue to strive for just and peaceful societies decolonizing research and analysis is imperative Carey deploys case studies and examples in ways that will resonate with anyone who is interested in oral history **Palace Politics** Jonathan Schlefer,2009-09-15 Bringing rare interviews and meticulous research to the cloaked world of Mexican politics in the mid twentieth century Palace Politics provides a captivating look at the authoritarian Mexican state one of the longest lived regimes of its kind in recent history as well as the origins of political instability itself with revelations that can be applied to a variety of contemporary political situations around the globe Culling a trove of remarkable firsthand accounts from former Mexican presidents finance ministers interior ministers and other high officials from the 1950s through the 1980s Jonathan Schlefer describes a world in which elite politics planted the seeds of a mammoth socioeconomic crisis Palace Politics outlines the process by which political infighting among small rival factions of high officials drove Mexico to precarious situations at all levels of government Schlefer also demonstrates how earlier on elite cooperation among these factions had helped sustain one of the most stable growth economies in Latin America until all or nothing struggles began to tear the Mexican ruling party apart in the 1970s A vivid seamlessly narrated history Palace Politics is essential reading for anyone seeking to better understand not only the nation next door but also the workings of elite politics in general *Mexico's Pivotal Democratic Election* Jorge I. Domínguez,Chappell H. Lawson,2004 The 2000 Mexican presidential race culminated in the election of opposition candidate Vicente Fox and the end of seven decades of one party rule This book which traces changes in public opinion and voter preferences over the course of the race represents the most comprehensive treatment of campaigning and voting behavior in an emerging democracy It challenges the modest effects paradigm of national election campaigns that has dominated scholarly research in the field Chapters cover authoritarian mobilization of voters turnout patterns electoral cleavages party strategies television news coverage candidate debates negative campaigning strategic voting issue based voting and the role of the 2000 election in Mexico s political transition Theoretically oriented introductory and concluding chapters situate Mexico s 2000 election in the larger context of Mexican politics and of cross national research on campaigns Collectively

these contributions provide crucial insights into Mexico's new politics with important implications for elections in other countries Managing Mexico Sarah Babb, 2004-02-15 Just one generation ago lawyers dominated Mexico's political elite and Mexican economists were a relatively powerless group of mostly leftist nationalists Today in contrast the country is famous or perhaps infamous for being run by American trained neoclassical economists In 1993 the Economist suggested that Mexico had the most economically literate government in the world a trend that has continued since Mexico's transition to multi party democracy To the accompanying fanfare of U S politicians and foreign investors these technocrats embarked on the ambitious program of privatization deregulation budget cutting and opening to free trade all in keeping with the prescriptions of mainstream American economics This book chronicles the evolution of economic expertise in Mexico over the course of the twentieth century showing how internationally credentialed experts came to set the agenda for the Mexican economics profession and to dominate Mexican economic policymaking It also reveals how the familiar language of Mexico's new experts overlays a professional structure that is still alien to most American economists Sarah Babb mines diverse sources including Mexican undergraduate theses historical documents and personal interviews to address issues relevant not only to Latin American studies but also to the sociology of professions political sociology economic sociology and neoinstitutionalist sociology She demonstrates with skill how peculiarly national circumstances shape what economic experts think and do At the same time Babb shows how globalization can erode national systems of economic expertise in developing countries creating a new class of global experts *Executive Leadership and Legislative Assemblies* Nicholas D. J. Baldwin, 2014-01-02 The relationship between a head of government head of the executive branch and a nation's parliament or legislative assembly the legislative branch has long been the focus for comment and analysis for example has the prime minister in the United Kingdom come to a position of dominance at the expense of the power of parliament Does the American president stand head and shoulders above Congress Is a French president master of the system Need the Russian president pay attention to the Duma What of the position in other parliamentary and presidential systems In this book Baldwin seeks to provide answers and does so by drawing upon the knowledge and expertise of an international group of scholars whose essays advance our knowledge of the subject This book was previously published as a special issue of the Journal of Legislative Studies

This is likewise one of the factors by obtaining the soft documents of this **Making Of A Government Political Leaders In Modern Mexico** by online. You might not require more period to spend to go to the ebook foundation as competently as search for them.
