Thomas, 2011-05-03 A novel explanation of how EU member states overcome their divergent preferences to reach agreement on common foreign policies with fourteen in depth case studies covering diplomatic and security issues enlargement trade development and environmental protection

The Making of EU Foreign Policy Karen E. Smith, 1998-11-11 This book argues that there has been a common European Union EU foreign policy towards six countries of Eastern Europe Bulgaria Czech Republic Hungary Poland Romania Slovakia and analyses why the EU has agreed to the policy The objective of the EU's policy is to support the transformation of Eastern Europe and thus ensure security and stability The most important instrument that the EU has used to reach this objective has been the prospect of enlargement

Theories of the Making of European Union Foreign Policy Jan-Henrik Petermann, 2011-11-21 Essay from the year 2005 in the subject Politics Topic European Union London School of Economics Department of International Relations language English abstract In spite of the growing empirical significance of the European Union EU as a soft power scholars of International Relations IR have found it difficult to identify a single theoretical framework to explain the making of European Foreign Policy EFP The reasons for this apparent failure of rigorous theory building may be twofold On the one hand there is still much debate about what the EU the ontological object of inquiry actually is On the other hand many authors have taken a self critical attitude towards their own discipline emphasising that there is still a multiplicity of convictions as to how we can best theorise EFP Though detailed analyses of the specific pattern of the EU's external relations have indeed been marginalised for a long time it seems plausible to trace this lack of theoretical coherence back to the nature of EFP itself It is often argued that the EU is a political system sui generis a complex structure that is neither a state nor a non state actor and neither a conventional international organization nor an international regime In a similar vein some observers assert that the EU might most suitably be characterised as a hybrid political sphere that does not easily lend itself to classical Foreign Policy Analysis FPA In fact the major IR perspectives on EU foreign policy making neorealist neoliberal and constructivist appear to be largely incompatible in this respect Within each framework certain claims are made which effectively rule out or downgrade the validity and reliability of key premises in rival approaches Therefore the central question posed in this essay is Which theory best explains the making of EU foreign policy And if there is no single theoretical paradigm might there be any potential for an analytical synthesis in order to understand the particular features of EFP more appropriately To answer these questions I will

first describe the main views on the development of EFP represented by the above mentioned approaches within the broader context of theorising European integration Secondly I will outline in how far the EU s peculiar nature as a system of multi level decision making can be regarded as a core empirical challenge to the concepts of conventional FPA I will conclude that different theoretical schemes ought to be applied to different issue areas of foreign policy making in a more selective manner if the complex processes of EFP are to be fully understood

The Formulation of EU Foreign Policy Nicola

Chelotti,2016-01-22 EU foreign and defence policy is largely formulated in the working parties and committees of the Council of the EU and the vast majority of decisions in this field are made by the national diplomats working in the around 35 groups of the CFSP CSDP Although the importance of these committees and their participants has been increasingly recognised we still know relatively little about them Using an original database of 138 questionnaires and 37 interviews this book addresses this lack of knowledge studying what these committees do and how they negotiate and resolve issues It explores three key areas the formulation of the national position the identity of CFSP CSDP policy makers negotiation practices and outputs In doing so it provides an innovative observation point from which EU foreign policy can be analysed This book will be of key interest to scholars and students of EU foreign and defence policy external relations of the EU European integration and politics diplomacy and more broadly international relations

Soetendorp,2014-06-11 Ben Soetendorp examines the extent to which individual member states each with their own history special interests and styles of foreign policy making still dominate the common foreign policy making process within the European Union The first part of the book reviews the diverse foreign policy patterns of the individual member states towards European integration describes the various styles of foreign policy and examines the institutional arrangements for joint foreign policy making created by the member states at EU level The second part looks more closely at the reality of foreign policy making in a number of case studies focusing on the diplomatic military and economic dimensions of European Union s foreign policy This structure and approach enable s the reader to understand the reality of European foreign policy making to comprehend the relationship between the foreign policies of the member states of the EU and the foreign policy of the EU as a whole and to make a judgement as to the likely scenarios for the future Foreign Policy in the European Union is an important and accessible addition to the textbook literature on European integration that will be essential reading for undergraduate and Masters level courses on European integration within politics international relations European Studies and history degrees

The Foreign Policy of the European Union Stephan Keukeleire,Tom Delreux,2022-02-10

Keukeleire and Delreux demonstrate the scope and diversity of the European Union s foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade development environment and energy are inextricable elements of it This book offers a comprehensive and critical account of the EU s key foreign relations with its neighbourhood with the US China and Russia and with emerged powers and

argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order the conflict in Ukraine the migration and refugee crisis Brexit and Covid 19 The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice The third edition includes new sections and boxes on strategic autonomy European arms exports the EU's external representation the Brussels Effect and decentring and gender approaches to EU foreign policy Up to date jargon free and supported by its own website eufp.eu this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners

dissertation analyzes the influence of interest groups as well as the decision making procedures on the national and the European level on EU trade and security policy As the emerging power of the 21st century China challenges the Europeans economically politically and ideologically in their very identity How does the European Union react to this challenge Who decides what kind of policy the EU will adopt towards China Which roles do business interests the media or the US play Based on rational choice and a multi level approach this process analysis focuses on decisions made during the 2003 2005 arms embargo debate and the textile dispute regarding decisions as building blocks for policy The analysis concludes with concrete policy recommendations for a successful and farsighted EU policy towards the People's Republic of China The book provides an insight for academics as well as for decision makers from business and politics on how decisions in European

Dissertation *The New Member States and the European Union* Michael Baun, Dan Marek, 2013-03-05 This book examines the impact of EU membership on the foreign policies of the 12 new member states that joined the EU in 2004 and 2007 Among scholars of European politics there is a general consensus that membership in the European Union changes the countries that join Yet considerable debate remains over what exactly changes to what extent how or why these changes happen and why some countries policies and institutions change more than others Expert contributors examine the impact of EU integration and membership with chapters on the 12 new EU entrants since 2004 Poland Czech Republic Hungary Slovakia Slovenia Estonia Latvia Lithuania Cyprus Malta Bulgaria and Romania Utilizing a common analytical framework each of the country case studies examines the impact of EU membership on the foreign policies of the new member states in three key areas foreign policy making institutions and procedures interests and preferences and strategies and actions *The New Member States and the European Union* will be of interest to students and scholars of European Studies and European Union Politics

EU Foreign Policy and Hamas Adeeb Ziadeh, 2017-10-20 Shortly after the overwhelming victory of Hamas in the 2006 parliamentary and municipal elections civil war broke out in the Gaza Strip between members of the two factions Hamas and Fatah The EU along with the US UN and Russia not only gave its support to Fatah against Hamas but also imposed a tough siege on the Hamas government in an attempt to force it to accept the Quartet's political conditions described by Hamas leaders as unfair and impossible Many observers are convinced that the EU's behaviour in this matter has been unreasonable and has conflicted with the EU's own democratic beliefs and values This book sheds light on the EU's policies in Palestine mainly from 2003 2013 and provides a thorough examination of the inconsistencies and paradoxes in the EU discourse towards Hamas and the determinants underlying such contradictions It explores the reasons behind the EU labelling the Hamas a terrorist organization and discusses why the EU has boycotted its democratically elected body since 2006 Significantly the book looks at whether the EU jeopardized its reputation and contravened its core normative values and objectives democracy promotion human rights the rule of law and fundamental freedoms by such a categorisation of Hamas Exploring the EU's policy towards Hamas is vital for understanding how the relationship between the EU and the rest of the Islamists in the Middle East is perceived as it enables both sides to have a cognitive basis upon which to construct better relations This book based upon a vast spread of primary EU documents and interviews will therefore be a valuable resource for those studying the Arab Israeli conflict Political Islamic movements the Middle East Peace Process and anyone with an interest in European Union Foreign Policy

The SAGE Handbook of European Foreign Policy Knud Erik Jorgensen, Aasne Kalland Aarstad, Edith Drieskens, Katie Laatikainen, Ben Tonra, 2015-04-30 During the last two decades the study of European foreign policy has experienced remarkable growth presumably reflecting a more significant international role of the European Union The Union has significantly expanded its policy portfolio and though empty symbolic politics still exists the

Union's international relations have become more substantial and its foreign policy more focused. European foreign policy has become a dynamic policy area being adapted to changing challenges and environments such as the Arab Spring, new emerging economies, powers, the crisis of multilateralism and much more. The SAGE Handbook of European Foreign Policy Two Volume set is a major reference work for Foreign Policy Programmes around the world. The Handbook is designed to be accessible to graduate and postgraduate students in a wide variety of disciplines across the humanities and social sciences. Foreign Policy Under Austerity Spyridon N. Litsas, Aristotle Tziampiris, 2016-11-09. This book examines the continuities and substantial transformations in Greek foreign policy before the beginning and during the unfolding of the economic crisis. Although up until now significant attention has been cast on the rise of the neo-Nazi movement, the abuses and dysfunctions of the Greek economy and the immense social ramifications of unemployment, less is understood about the impact on Greek diplomacy and foreign policy. This collective work not only attempts to delineate future trends in Greek foreign policy but also seeks to explore the current events that resemble more a Greek tragedy than the systemic challenges that every nation has to face. This edited volume, quite original in its field of analysis, will be of interest to International Relations academics, foreign policy professionals, Politics and Economic students and the general public who follow developments pertaining to Greece and the European Union as well as theoretical debates surrounding International Relations.

Tunisia's International Relations since the 'Arab Spring' Tasnim Abderrahim, Laura-Theresa Krüger, Salma Besbes, Katharina McLarren, 2017-09-22. When popular protests started in Tunisia in late 2010, few anticipated the implications these events would have for the entire Arab region. In the following years, this region witnessed deep changes, increased divisions and even failing states. Meanwhile, Tunisia managed to assert itself as a new democracy. How did this small country manage its democratic transition within such a short period? And what implications has this had for its foreign policy and its role in international politics? This book assesses Tunisia's transition inside and out from four angles: Tunisian polity and politics, which provide the framework for its foreign policy since the Arab Spring; bilateral relations before and after the Arab Spring; Tunisia's activism in international organisations as well as their presence in Tunisia; and transnational issues in Tunisia. Drawing on a broad range of primary sources, including authors' own interview material conducted with politicians and representatives of civil society and international NGOs involved in the transition process, the book shows that since 2011, Tunisia has not only developed fundamentally at the domestic level but also at the level of external relations. New and old alliances, a broadening of relations and new activism of civil society and of

Tunisia in international organisations certify that Tunisia has the potential to play an increasingly important role regionally as well as internationally Providing an encompassing picture of Tunisia s changed role and successful transition from an autocracy to a democracy the book allows students and scholars in the field to understand the last country standing better a country that both the scientific community and the political scene should not underestimate for the promises it holds The EU's Foreign Policy Mario Telò, Frederik Ponjaert, 2016-03-03 A very timely and topical volume concerned with the impact of the Lisbon Treaty on the European Union s EU capacity to further develop a distinctive foreign policy in accordance with the various policy instruments necessary to fulfil its role as a global actor This edited volume brings together a host of scholars in the fields of European Studies and International Relations whose contributions offer both innovative theoretical perspectives and new empirical insights Overall the book emphasizes the question of the EU s evolving legitimacy and efficiency as a foreign policy and diplomatic actor on the regional and global stage This shared concern is clearly reflected in the book s three pronged structure Part 1 the EU a controversial global political actor in an emergent multipolar world with contributions from A Gamble M Tel and J Howorth Part 2 After the Lisbon Treaty the Common Foreign and Security Policy and the European External Action Service includes chapters from C Lequesne C Carta and H Mayer Part 3 R Gillespie F Ponjaert G Grevi Z Chen H Nakamura and U Salma Bava assess the CFSP and the EU s external relations in action Foreword by S E M P Vimont As a result the book is a useful and relevant contribution to European Union studies and International Relations research and teaching It offers any interested party informed and comprehensive insights into EU foreign policy at a time when it seeks to undertake an increased role in World affairs and this despite economic crisis **European Union Foreign Policy** Hazel Smith, 2002-03-20 Arguing that the European Union is a foreign policy actor albeit a peculiar one Smith international relations U of Warwick UK explores the foreign policy capabilities and priorities of the EU Not limiting herself to the Common Foreign and Security Policy of the EU Smith considers foreign policy of the EU to be the compilation of all of its activities abroad and suggests that it has a comprehensive extensive and sometimes remarkably effective foreign policy The book is distributed by Stylus Annotation copyrighted by Book News Inc Portland OR *The Maritime Turn in EU Foreign and Security Policies* Marianne Riddervold, 2018-01-18 This book provides the first substantial treatment of the maritime foreign and security policies of the European Union Its findings add to the literature by a comparative theoretically informed analysis of EU maritime foreign and security policies across five cases the EU s Maritime Security Strategy and action plan the EU s two naval missions Atalanta and Sophia EU Arctic policies and EU policies towards the Maritime Labour Convention Focusing on the aims actors and mechanisms of integration in these cases the book speaks to the three main debates in the literature on EU foreign policy including whether it has a particular normative dimension that makes it different from foreign policy as it is conventionally understood the extent to which policy making in the domain has developed beyond intergovernmental cooperation and interlinked how EU foreign and security policy integration and its

characteristics can be explained In doing this the book also addresses a fourth contemporary scholarly debate linked to if and how the EU is affected by crisis By focusing on maritime security policies the book also adds to the international relations literature more broadly This book is an invaluable resource for scholars students and practitioners interested in EU foreign and security policy European and global maritime security issues EU integration EU crisis and international relations
