VanFossen,Michael J. Berson,2008 In 1991 Lawrence Grossman wrote that a new political system is taking shape in the United States As we approach the twenty first century America is turning into an electronic republic a democratic system that is vastly increasing the people s day to day influence on decisions of state Grossman s forecast implied a sea change in the way citizens would interact with and participate in their representative government a revamping of the way Americans would do citizenship Harnessing the power of technology to

promote the ideal of democracy that first pulsed through our nation over 230 years ago may be a feasible achievement in a technocratic age but whether technology can help achieve a revolution as seismic as the political one that our founding fathers initiated may be a practical impossibility Fusing the power of technology and democratic ideals opens opportunities for greater access to information and offers a medium for people to be heard and express their voice with dissemination to the masses through digital tools such as blogs podcasts and wikis Indeed the emergence of the Internet as a nearly ubiquitous element of American society has brought about new opportunities to enhance citizen engagement in democratic politics and to increase the level of civic engagement among American citizens Despite such rhetoric however research has indicated that Grossman s electronic republic has for the most part failed to come to fruition

BUNDLE: Johnson, Making Connections in Elementary and Middle School Social Studies 2e + Melber, Integrating Language Arts and Social Studies Andrew P. Johnson, 2009-12-15 *Students With Interrupted Formal Education* Brenda Custodio, Judith B. O'Loughlin, 2017-02-23 New hope for our most vulnerable English learners. One of the guiding principles of effective English language teaching is for educators to know their students. And that in a nutshell captures the value of this book. The compassion that Custodio and O'Loughlin feel for our SIFE students, the commitment they have to educating them well, and the comprehension they have of the assets these learners bring to the classroom are evident in the writing tools and vignettes they share. Deborah J. Short: Under the best of circumstances the academic demands of today's classrooms can be daunting to our English learners. But for the tens of thousands of newly arrived students with interrupted formal education, even the social challenges can be outright overwhelming. Rely on this all in one guide from Brenda Custodio and Judith O'Loughlin for expert insight on how to build the skills these students need for success in school and beyond. Inside you'll find essential background on factors leading to interrupted education. Specific focus on refugee children and Latino immigrants. Guidance on building internal resilience for long-term social and emotional health. Recommendations for creating supportive environments at the classroom, school, and district level. About one thing Brenda and Judith are absolutely convinced: our SIFE students can learn and make progress, often at a remarkable speed. But it's up to us, their educators, to provide the time, attention, and a specific focus. Consider this book your first step forward.

Accelerating Learning for All Sunita Gandhi, 2024-02-24 Every parent wants the best education for their child. But is there more to education than rows of children listening to a teacher and copying into their notebooks? ALFA: Accelerating Learning for All breaks the shackles of the industrial education system, revolutionizing the school experience through peer learning and hands-on activities. The ALFA programme enables children and adults alike to learn foundational literacy and numeracy in months rather than years. Beyond reading, writing, and arithmetic, ALFA builds the crucial life skills of collaboration, creativity, citizenship, and character.

Resources in Education, 2001-04 Social Studies Review, 1992 **Flexible Work Organizations** Sushil, Julia Connell, John Burgess, 2016-06-18 This book focuses on the challenges of capacity building for flexible work organizations in Asia and demonstrates how business enterprises practice reactive flexible capacity in the form of adaptiveness and responsiveness to cope with changing and uncertain business environments. The book provides examples of how this can be achieved by means of various organizational change initiatives, leadership strategies, re-engineering, innovation in products and processes, the use of information and communication technology, reshaping learning orientations.

and more As these topics are supported by research and case studies situated in different sectors and countries across Asia the book will provide a useful resource for a broad readership including management students and researchers practicing business managers consultants and professional institutions
