Making Of The Crofting Community:

The Making of the Crofting Community James Hunter, 2018-05-17 This book has been seminal in bringing to the fore the injustices that have been inflicted on the Highlands in the name of government and landlord injustices often lost in the name of dry statistics and academic balance Written by a man who has gone on to become both an award winning historian of the Highlands and a leading figure in the public life of the region The Making of the Crofting Community has attracted praise inspired debate and provoked outrage and controversy over the years This book remains necessary to challenge standard academic interpretations of the Highland past Having long been one of the classics of Birlinn's John Donald list this revised and updated new edition includes a substantial new preface and an extensive reworking of the existing text **The Making of the Crofting Community, 1746-1930** James R. Hunter, 1974 **The People of Glengarry** Marianne McLean, 1993 McLean works in the manuscript division of the National Archives of Canada and draws extensively on unpublished sources to present a new interpretation of Scottish migration to Canada Showing how the traditional clan society in western Inverness was disrupted by capitalism she documents the emigration of nine coherent groups and their attempts to recreate Highland culture in Glengarry County in Ontario Annotation copyrighted by Book News Inc Portland OR *The Making of the Crofting Community, 1746-1930* James R. Hunter, 1974 **Landscapes of Protest in the Scottish Highlands after 1914** Iain J.M. Robertson, 2016-04-15 In November 1918 the implementation of agrarian change in the Scottish Highlands threatened another wave of unemployment and eviction for the land working population which led to widespread and varied social protest Those who had been away on war service and their families faced returning to exactly the same social and economic conditions in the Scottish Highlands they had hoped they had left behind in the struggle to make a land fit for heroes Widespread and varied social protest rapidly followed It argues that previously there has been a failure to capture fully the geography chronology typology and rate of occurrence of these events The book not only offers new insights and a greater understanding of what was happening in the Highlands in this period but illustrates how a range of forms of protest were used which demand attention not least for the fact that these events unlike most of the earlier Land Wars period were successful There are functioning townships in the Highlands today that owe their existence to the land invasions of the 1920s The book innovatively concentrates on formulating explanation and interpretation from within and looks to the crofting landscape as base means and motive to disturbance and interpretation It proposes that protest is much more convincingly understood as an expression of environmental ethics from the bottom up coming increasingly into conflict with conservationist views expressed from the top down It focuses on individual case studies in order to engage more convincingly with an important evidential base that of popular memory of land disturbances and to adopt a frame and lens through which to explore the fluid and contingent nature of protest performances Based upon the belief that in the study of landscapes of social protest the old shibboleth of space as solely passive setting and symbolic register is no longer tenable is paid here to
