Making Of The Modern Greek Family:

The Making of the Modern Greek Family Paul Sant Cassia, Constantina Bada, 1992 This 1991 study deals with a specific set of institutions in nineteenth century Athens Relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in Athens in the nineteenth century These forms then became a feature of wider Greek society which continued into the twentieth century Greece was the first post colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city As Athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state Such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character This is a persuasive piece of detective work which has advanced our knowledge of modern Greece It is a model for scholarship on the development of family and other intimate ideologies where nation states encroach upon local consciousness

Reinventing Free Labor Gunther Peck, 2000-05-22 One of the most infamous villains in North America during the Progressive Era was the padrone a mafia like immigrant boss who allegedly enslaved his compatriots and kept them uncivilized unmanly and unfree In this history of the padrone first published in 2000 Gunther Peck analyzes the figure s deep cultural resonance by examining the lives of three padrones and the workers they imported to North America He argues that the padrones were not primitive men but rather thoroughly modern entrepreneurs who used corporations the labour contract and the right to quit to create far flung coercive networks Drawing on Greek Spanish and Italian language sources Peck analyzes how immigrant workers emancipated themselves using the tools of padrone
