Mexican Workers And The American Dreams Immigration Repatriation And California Farm Labor 1900 1939:

Mexican Workers and American Dreams Camille Guerin-Gonzales, 1994 Earlier in this century over one million Mexican immigrants moved to the United States attracted by the prospect of work in California's fields The Mexican farmworkers were tolerated by Americans as long as there was enough work to go around During the Great Depression though white Americans demanded that Mexican workers and their families return to Mexico In the 1930s the federal government and county relief agencies forced the repatriation of half a million Mexicans and some Mexican Americans as well Camille Guerin Gonzales tells the story of their migration their years here and of the repatriation program one of the largest mass removal operations ever sanctioned by the U S government She exposes the powers arrayed against Mexicans as well as the patterns of Mexican resistance and she maps out constructions of national and ethnic identity across the contested terrain of the American Dream

A Century of Chicano History Raul E. Fernandez, Gilbert G. Gonzalez, 2012-11-12 This study argues for a radically new interpretation of the origins and evolution of the ethnic Mexican community across the US This book offers a definitive account of the interdependent histories of the US and Mexico as well as the making of the Chicano population in America The authors link history to contemporary issues emphasizing the overlooked significance of late 19th and 20th century US economic expansionism to Europe in the formation of the Mexican community

A Cultural History of Work in the Modern Age Daniel J. Walkowitz, 2020-09-17 Winner of the 2020 PROSE Award for Multivolume Reference Humanities Changes in production and consumption fundamentally transformed the culture of work in the industrial world during the century after World War I In the aftermath of the war the drive to create new markets and rationalize work management engaged new strategies of advertising and scientific management deploying new workforces increasingly tied to consumption rather than production These changes affected both the culture of the workplace and the home as the gendered family economy of the modern worker struggled with the vagaries of a changing gendered labour market and the inequalities that accompanied them This volume draws on illustrative cases to highlight the uneven development of the modern culture of work over the course of the long 20th century A Cultural History of Work in the Modern Age presents an overview of the period with essays on economies representations of work workplaces work cultures technology mobility society politics and leisure

Racial Transformations Nicholas De Genova, 2006-04-24 A collection of essays that examine the intertwined racialization of Latinos and Asians in the United States

Colored Men and Hombres Aquí Michael A. Olivas, 2020-04-28 This collection of ten essays commemorates the 50th anniversary of an important but almost forgotten U S Supreme court case *Hernandez v Texas* 347 US 475 1954 the major case involving Mexican Americans and jury selection published just before *Brown v Board of Education* in the 1954 Supreme Court reporter This landmark case the first to be tried by Mexican American lawyers before the U S Supreme Court held that Mexican Americans were a

discrete group for purposes of applying Equal Protection Although the case was about discriminatory state jury selection and trial practices it has been cited for many other civil rights precedents in the intervening 50 years Even so it has not been given the prominence it deserves in part because it lives in the shadow of the more compelling Brown v Board case There had been earlier efforts to diversify juries reaching back at least to the trial of Gregorio Cortez in 1901 and continuing with efforts by the legendary Oscar Zeta Acosta in Los Angeles in the 1960s Even as recently as 2005 there has been clear evidence that Latino participation in the Texas jury system is still substantially unrepresentative of the growing population But in a brief and shining moment in 1954 Mexican American lawyers prevailed in a system that accorded their community no legal status and no respect Through sheer tenacity brilliance and some luck they showed that it is possible to tilt against windmills and slay the dragon Edited and with an introduction by University of Houston law scholar Michael A Olivas *Colored Men and Hombres Aqui* is the first full length book on this case This volume contains the papers presented at the Hernandez at 50 conference which took place in 2004 at the University of Houston Law Center and also contains source materials trial briefs and a chronology of the case

The Fight in the Fields Susan Ferriss, Ricardo Sandoval, 1997 Examines the fight of the United Farm Workers Union

Labor in America Melvyn Dubofsky, Joseph A. McCartin, 2017-03-08 This book designed to give a survey history of American labor from colonial times to the present is uniquely well suited to speak to the concerns of today's teachers and students As issues of growing inequality stagnating incomes declining unionization and exacerbated job insecurity have increasingly come to define working life over the last 20 years a new generation of students and teachers is beginning to seek to understand labor and its place and ponder seriously its future in American life Like its predecessors this ninth edition of our classic survey of American labor is designed to introduce readers to the subject in an engaging accessible way

Becoming Mexipino Rudy P. Guevarra, Jr., 2012-05-09 *Becoming Mexipino* is a social historical interpretation of two ethnic groups one Mexican the other Filipino whose paths led both groups to San Diego California Rudy Guevarra traces the earliest interactions of both groups with Spanish colonialism to illustrate how these historical ties and cultural bonds laid the foundation for what would become close interethnic relationships and communities in twentieth century San Diego as well as in other locales throughout California and the Pacific West Coast Through racially restrictive covenants and other forms of discrimination both groups regardless of their differences were confined to segregated living spaces along with African Americans other Asian groups and a few European immigrant clusters Within these urban multiracial spaces Mexicans and Filipinos coalesced to build a world of their own through family and kin networks shared cultural practices social organizations and music and other forms of entertainment They occupied the same living spaces attended the same Catholic churches and worked together creating labor cultures that reinforced their ties often fostering marriages Mexipino children living simultaneously in two cultures have forged a new identity for themselves Their lives are the lens through which these two communities are examined revealing the ways in which Mexicans and Filipinos interacted

over generations to produce this distinct and instructive multiethnic experience Using archival sources oral histories newspapers and personal collections and photographs Guevarra defines the niche that this particular group carved out for itself

Crossing Borders Dorothee Schneider,2011-05-02 Dorothee Schneider relates the story of immigrants passage from an old society to a new one and American policymakers debates over admission to the United States and citizenship Bringing together the histories of Europeans Asians and Mexicans the book opens up a fresh view of immigrant expectations and government responses

Traqueros Jeffrey Marcos Garcilazo,2012 Perhaps no other industrial technology changed the course of Mexican history in the United States and Mexico than did the coming of the railroads Tens of thousands of Mexicans worked for the railroads in the United States especially in the Southwest and Midwest Construction crews soon became railroad workers proper along with maintenance crews later Extensive Mexican American settlements appeared throughout the lower and upper Midwest as the result of the railroad The substantial Mexican American populations in these regions today are largely attributable to 19th and 20th century railroad work Only agricultural work surpassed railroad work in terms of employment of Mexicans The full history of Mexican American railroad labor and settlement in the United States had not been told however until Jeffrey Marcos Garcilazo's groundbreaking research in *Traqueros* Garcilazo mined numerous archives and other sources to provide the first and only comprehensive history of Mexican railroad workers across the United States with particular attention to the Midwest He first explores the origins and process of Mexican labor recruitment and immigration and then describes the areas of work performed He reconstructs the workers daily lives and explores not only what the workers did on the job but also what they did at home and how they accommodated and or resisted Americanization Boxcar communities strike organizations and traquero culture finally receive historical acknowledgment Integral to his study is the importance of family settlement in shaping working class communities and consciousness throughout the Midwest

The U.S.-Mexican Border Today Paul Ganster, Kimberly Collins,2021-03-10 This comprehensive survey systematically explores the dynamic historic and contemporary interface between Mexico and the United States along the shared 1 954 mile international land boundary Now fully updated and revised the book provides an overview of the history of the region and traces the economic cycles and social movements from the 1880s through the second decade of the twenty first century The border region shares characteristics of both nations while maintaining an internal social and economic coherence that transcends its divisive international boundary The authors conclude with an in depth analysis of key contemporary issues These include industrial development and manufacturing bilateral trade the United States Mexico Canada Agreement rapid urbanization border culture population and migration issues environmental crisis and climate change Native Americans cooperation and conflict at the border drug trafficking and violence the border wall and security populist national leaders and the border and the Covid 19 pandemic at the border They also place the border in its global context examining it as a region caught between the developed and developing world and highlighting the continued importance of borders in a

rapidly globalizing world Richly illustrated with photographs maps charts and up to date statistical tables this book is an invaluable resource for all those interested in borderlands and U S Mexican relations **Deportation Nation** Dan

Kanstroom,2010-03-15 The danger of deportation hangs over the head of virtually every noncitizen in the United States In the complexities and inconsistencies of immigration law one can find a reason to deport almost any noncitizen at almost any time In recent years the system has been used with unprecedented vigor against millions of deportees We are a nation of immigrants but which ones do we want and what do we do with those that we don t These questions have troubled American law and politics since colonial times Deportation Nation is a chilling history of communal self idealization and self protection The post Revolutionary Alien and Sedition Laws the Fugitive Slave laws the Indian removals the Chinese Exclusion Act the Palmer Raids the internment of the Japanese Americans all sought to remove those whose origins suggested they could never become true Americans And for more than a century millions of Mexicans have conveniently served as cheap labor crossing a border that was not official until the early twentieth century and being sent back across it when they became a burden By illuminating the shadowy corners of American history Daniel Kanstroom shows that deportation has long been a legal tool to control immigrants lives and is used with increasing crudeness in a globalized but xenophobic world Garden of the World

Cecilia M. Tsu,2013-06-01 Garden of the World examines how overlapping waves of Chinese Japanese and Filipino immigrants fundamentally altered the agricultural economy and landscape of the Santa Clara Valley as well as white residents ideas about race gender and what it meant to be an American family farmer **Transatlantic Radicalism** Frank Jacob,Mario Keßler,2021-04-01 The Atlantic Ocean not only connected North and South America with Europe through trade but also provided the means for an exchange of knowledge and ideas including political radicalism Socialists and anarchists would use this radical ocean to escape state prosecution in their home countries and establish radical milieus abroad However this was often a rather unorganized development and therefore the connections that existed were quite diverse The movement of individuals led to the establishment of organizational ties and the import and exchange of political publications between Europe and the Americas The main aim of this book is to show how the transatlantic networks of political radicalism evolved with regard to socialist and anarchist milieus and in particular to look at the actors within the relevant processes topics that have so far been neglected in the major histories of transnational political radicalism of the late nineteenth and early twentieth centuries Individual case studies are examined within a wider context to show how networks were actually created how they functioned and their impact on the broader history of the radical Atlantic The Oxford Handbook of

Midwestern History Jon Lauck,2025 The Midwest region holds a pivotal place in the tapestry of American history The Oxford Handbook of Midwestern History delves into this rich heritage with chapters on topics ranging from the early Native American and French Midwest to the impact of the Northwest Ordinance and the Great Lakes the emergence of Midwest regional consciousness after the Civil War and the role of the Midwest s natural resources in the region s economic success

and later decline It presents the newest research on race ethnicity culture politics and economic development It also considers the role of religion organized labor the presence of a diverse population of Germans Irish Dutch and Latinos and the influence of sports nostalgia populism and isolationism This handbook moves beyond the examination of traditional topics in Midwestern history to provide significant attention to matters such as architecture literary realism visual culture and constitutionalism This treatment of Midwestern history marks a major turn towards the history of the American interior In many ways The Oxford Handbook of Midwestern History marks the coming of age of what scholars and commentators are calling the New Midwestern History

The Border Reader Gilberto Rosas, Mireya Loza, 2023-09-18 The Border Reader brings together canonical and cutting edge humanities and social science scholarship on the US Mexico border region Spotlighting the vibrancy of border studies from the field's emergence to its enduring significance the essays mobilize feminist queer and critical ethnic studies perspectives to theorize the border as a site of epistemic rupture and knowledge production The chapters speak to how borders exist as regions where people and nation states negotiate power citizenship and questions of empire Among other topics these essays examine the lived experiences of the diverse undocumented people who move through and live in the border region trace the gendered and sexualized experiences of the border show how the US Mexico border has become a site of illegality where immigrant bodies become racialized and excluded and imagine anti and post border futures Foregrounding the interplay of scholarly inquiry and political urgency stemming from the borderlands The Border Reader presents a unique cross section of critical interventions on the region Contributors Leisy J Abrego Gloria E Anzaldúa Martha Balaguera Lionel Cant Leo R Chavez Raúl Fernández Rosa Linda Fregoso Roberto G Gonzales Gilbert G González Ramón Gutiérrez Kelly Lytle Hernández José E Limón Mireya Loza Alejandro Lugo Eithne Luibhídh Martha Menchaca Cecilia Menjivar Natalia Molina Fiamma Montezemolo Américo Paredes Nestor Rodríguez Renato Rosaldo Gilberto Rosas María Josefina Saldaña Portillo Sonia Saldaña Hull Alicia Schmidt Camacho Sayak Valencia Triana Carlos G Velez Ibáñez Patricia Zavella

New Directions in Transnational Mexican History Matthew D. Esposito, James Garza, 2023-10-16 New Directions in Transnational Mexican History Mexico On the World Stage is the first collection by historians to examine foreign immigration to Mexico as a way to interpret the significance of Mexican transnationalism and pluriculturalism The contributors analyze Mexico as a recipient nation broadening the application of transnationalism to encompass not only foreign migrants but Mexican figures like Francisco Madero who were deeply influenced by transnational experiences This book explores the roles of Spanish entrepreneurs US consuls American and Mexican medical professionals transnational railroad workers borderland cowboys international divas cosmopolitan puppeteers American missionaries and Mexican women soccer players This area of interdisciplinary inquiry has attracted the latest generation of scholars destined to publish their works during the age of globalization These pioneering scholars use transnational approaches to determine if Mexico has emerged as a transmigration and emigration state and if the Mexican people's extraterritorial influence embodied in the

terms Greater Mexico and Mexico de Afuera applies to larger swaths of the Americas and the world *Geographies of Race and Food* Rachel Slocum, Arun Saldanha, 2016-04-15 While interest in the relations of power and identity in food explodes a hesitancy remains about calling these racial What difference does race make in the fields where food is grown the places it is sold and the manner in which it is eaten How do we understand farming and provisioning tasting and picking eating and being eaten hunger and gardening better by paying attention to race This collection argues there is an unacknowledged racial dimension to the production and consumption of food under globalization Building on case studies from across the world it advances the conceptualization of race by emphasizing embodiment circulation and materiality while adding to food advocacy an antiracist perspective it often lacks Within the three socio physical spatialities of food fields bodies and markets the collection reveals how race and food are intricately linked An international and multidisciplinary team of scholars complements each other to shed light on how human groups become entrenched in myriad hierarchies through food at scales from the dining room and market stall to the slave trade and empire Following foodways as they constitute racial formations in often surprising ways the chapters achieve a novel approach to the process of race as one that cannot be reduced to biology culture or capitalism
