Miracles That I Have Seen:

Miracles We Have Seen Harley Rotbart, 2016-09-13 This is a book of miracles medical events witnessed by leading physicians for which there is no reasonable medical explanation or if there is the explanation itself is extraordinary These dramatic first person essays detail spectacular serendipities impossible cures breathtaking resuscitations extraordinary awakenings and recovery from unimaginable disasters Still other essays give voice to cases in which the physical aspects were less dramatic than the emotional aspects yet miraculous and transformational for everyone involved Positive impacts left in the wake of even the gravest of tragedies profound triumphs of heart and spirit Preeminent physicians in many specialties including deans and department heads on the faculties of the top university medical schools in the country describe in everyday language and with moving testimony their very personal reactions to these remarkable clinical experiences Among the extraordinary cases poignantly recounted by the physicians witnessing them A priest visiting a hospitalized patient went into cardiac arrest on the elevator which opened up on the cardiac floor right at the foot of the cardiac specialist at just the right moment A tiny premature baby dying from irreversible lung disease despite the most intensive care who recovered almost immediately after being taken from his hospital bed and placed on his mother's chest President John F Kennedy's son Patrick who died shortly after birth and whose disease eventually led to research that saved generations of babies A nine year old boy who was decapitated in a horrific car accident but survived without neurological damage A woman who conceived and delivered a healthy baby despite having had both of her fallopian tubes surgically removed A young man whose only hope for survival was a heart transplant but just at the moment he developed a potentially fatal complication making a transplant impossible his own heart began healing itself A teenage girl near death after contracting full blown rabies who became the first patient ever to recover from that disease after an unexpected visit by Timothy Dolan the man who would go on to become the Archbishop of New York A Manhattan window washer who fell 47 stories and not only became the only person ever to survive a fall from that height but went on to make a full recovery *Miracles We Have Seen* is a book of inspiration and optimism and a compelling glimpse into the lives of physicians their humanity and determined devotion to their patients and their patients families It reminds us that what we don't know or don't understand isn't necessarily cause for fear and can even be reason for hope

Miracles That I Have Seen William Arthur Ward, 1998 The Ward family often told William Ward that he saw and experienced more miracles than any man alive In this volume of inspiring true stories Dr Ward recounts the most outstanding miracles he saw God do over a span of more than eighty years

Miracles Tim Stafford, 2012-07-01 You Believe God Can Still Do Miracles But How Do You Know Which Stories Are True A blind man suddenly sees A lame man gets up and walks A little boy is raised from the dead You believe the biblical accounts that these miracles happened but do you believe eye witness reports that miracles still happen today Between shady faith healers weeping madonnas and gimmicks like holy land water it's difficult even foolish to believe every

miracle account we hear So how do we discount the fakes without missing out on the real miracles in the process Award winning journalist Tim Stafford shares captivating stories of modern day miracles wrestling over what is credible and what isn't But more than that he offers wisdom and insight to help you figure out the role miracles should play in your faith Should you expect miracles Ignore them Pray for them How active is God in the world today And could he be more active in your own life Learn how to explore these questions with wisdom and honesty growing your faith and hope along the way Tim Stafford puts the right person at the center of miracle stories not the charismatic leader through whom miracles come nor the person who is healed but God himself This book will help you see genuine miracles as part of God's way of telling his own story and will teach you to listen for what God is saying through them David Neff Editor in Chief Christianity Today Veteran journalist reports on the world of miracles with neither skepticism nor naiveté but with clarity and reverent honesty A remarkable achievement Eugene H Peterson Professor Emeritus of Spiritual Theology Regent College Vancouver B C Do you want to believe in miracles but have been put off either by Christians who insist that every problem should be solved by a miracle or by the skepticism of God's miraculous intervention in human experience Then this is your book As a journalist Stafford squarely faces and differentiates between actual occurrences of miracles and disappointing non occurrences as a Christian he makes a conscious effort to be faithful to God's revelation in Scripture The result is a book that will instruct you on how to think biblically about issues relating to miracles The summary statements in the last two chapters alone are worth the price of the book Ajith Fernando Teaching Director Youth for Christ Sri Lanka Tim Stafford dives headfirst into this investigation of those special events we call miracles signs and wonders that demonstrate God's supernatural power Probing clarifying and speaking to skeptics and believers alike Stafford is thoroughly convincing as he digs deep to comment on biblical and contemporary examples Lucy Shaw author *Breath for the Bones What the Light Was Like* Tim has taken one of the most important and fascinating topics in the world and written about it with honesty faith and grace His look at miracles through history and across cultures is full of wisdom and longing This book if not actually miraculous itself is at least providential John Ortberg senior pastor of Menlo Park Presbyterian Church and author of *Who Is This Man* When I started reading this fine book I was what Tim Stafford labels a Semi Believing Doubter on the subject of present day miracles I no longer wear that label Miracles is a gripping and convincing account of how God continues to astonish us with signs of a power that will someday come into its fullness Richard J Mouw PhD President and Professor of Christian Philosophy Fuller Theological Seminary *Christianity and Secularism* Elgin L. Hushbeck Jr., 2007-01-31 The second volume in the Consider Christianity series focuses on the evidences for the Christian faith and the conflict between Christianity and secularism Christian **THE MIRACLE CHILD** Shimon Eliezer The S.E.G., 2024-01-31 IS THIS THE END OF THE WORLD A CHILD IS BORN AGAINST ALL ODDS THAT THE WORLD HAS NEVER SEEN THIS STORY HAS MANY KABBALISTIC INFORMATION **The Month and Catholic Review** ,1876 *God's Rational Warriors* Marion Ledwig, 2013-05-02 This book stands in the

tradition of philosophers who advance the rationality of faith Yet this book goes beyond their accounts for it not only defends the view that faith can be termed rational but it also considers the different senses in which faith can be termed rational While this book advances the idea that faith as a general category can be termed rational it does not investigate in a detailed way whether there are arguments for the rationality of particular faiths which would go beyond the arguments for the rationality of faith as a general category Besides discussing whether betting on God in Pascal's wager and believing in miracles are forms of the rationality of faith I will provide unique solutions to the problem of evil and the paradoxes of omnipotence and omniscience

Miracles Today Craig S. Keener, 2021-10-19 Do miracles still happen today This book demonstrates that miraculous works of God which have been part of the experience of the church around the world since Christianity began continue into the present Leading New Testament scholar Craig Keener addresses common questions about miracles and provides compelling reasons to believe in them today including many accounts that offer evidence of verifiable miracles This book gives an accessible and concise overview of one of Keener's most significant research topics His earlier two volume work on miracles stands as the definitive word on the topic but its size and scope are daunting to many readers This new book summarizes Keener's basic argument but contains substantial new material including new accounts of the miraculous It is suitable as a textbook but also accessible to church leaders and laypeople

I Don't Have Enough Faith to Be an Atheist Norman L. Geisler, Frank Turek, 2021-05-17 To some the concept of having faith in a higher power or a set of religious beliefs is nonsensical Indeed many view religion in general and Christianity in particular as unfounded and unreasonable Norman Geisler and Frank Turek argue however that Christianity is not only more reasonable than all other belief systems but is indeed more rational than unbelief itself With conviction and clear thinking Geisler and Turek guide readers through some of the traditional tested arguments for the existence of a creator God They move into an examination of the source of morality and the reliability of the New Testament accounts concerning Jesus The final section of the book deals with a detailed investigation of the claims of Christ This volume will be an interesting read for those skeptical about Christianity as well as a helpful resource for Christians seeking to articulate a more sophisticated defense of their faith

Blessings and Miracles Stephen Mugabo, 2020-02-25 Blessings and Miracles in the perspective of a relationship with God and His divine intervention in our lives we learn how different factors contribute consequently to the quality of life we live The actions choices and attitudes we have and express every day affect how the blessings and miracles accomplish their purpose in our lives Blessings and Miracles have been and are still a medium for God to work in our lives God performs miracles for us to believe that Jesus is the Christ the Son of God and through having faith in Him we experience eternal life by the power of His Name John 20 30 31 Blessings are in most cases conditional and received through a process A blessing can also be a

resource a resource is a source of supply or support and it is again an available means or productive factor required to accomplish a given activity Therefore blessings are supposed to help us achieve the purpose of our life in this world It is the Father s good pleasure to have a relationship with you to bless you to heal you and give you a complete restoration A miracle is applicable in a crisis or in a problem that we can avoid or that is unavoidable While with God s blessings we can avoid a position that would put us in a crisis in the first place when we apply godly principles take the right actions and have the right choices God wants us to live a life full of blessings Barak Having a relationship with Him living by His principles having the right character and living by His Word for our welfare *A Dictionary of the Bible: Kir-Pleiades* James Hastings,1902
