Prasher, Philip W. Davidson, Flavia H. Santos, 2020-12-22 This book brings together findings from research and clinical practice with comprehensive coverage of the important aspects of mental health in ageing persons with intellectual and developmental disabilities It is crucial for professionals involved in the care of persons with all intellectual and developmental disabilities to have a broad understanding of the essential range of issues and therefore this book provides a truly multi disciplinary perspective complete with many figures and illustrations to underline the key points Undoubtedly research and clinical practice are much more advanced in the general ageing population than in persons with intellectual and developmental disabilities and so professionals and academics must be made fully aware of commonalities and idiosyncrasies of older people with intellectual and developmental disabilities This book presents the ongoing developments concerning mental health and aging which will become relevant to the intellectually disabled population Through experience this book also acknowledges that the impact on the persons themselves and on their carers always needs to be taken into account with treatment programs established with a multi faceted team approach in mind Avoiding the jargon of many titles in this area while maintaining the hands on approach of clinical practice this book meshes the practical and scientific worlds with all chapters written by leading experts in the field Beyond the US the IASSIDD support expands the book message worldwide *Adult Lives* Katz, Jeanne, Peace, Sheila, Sheila M. Peace, Sue Spurr, 2012 *Adult Lives* is a diverse collection of readings from all stages of life which aim to understand how those living and working together in an ageing society relate to each other It uses a holistic approach to understanding ageing in adulthood that is applicable to all including those developing policy and in practice *Handbook on Ageing with Disability* Michelle Putnam, Christine Bigby, 2021-03-10 Mainstream gerontological scholarship has taken little heed of people ageing with disability and they have also been largely overlooked by both disability and ageing policies and service systems The *Handbook on Ageing with Disability* is the first to pull together knowledge about the experience of ageing with disability It provides a broad look at scholarship in this developing field and across different groups of people with disability in order to form a better understanding of commonalities across groups and identify unique facets of ageing within specific groups

Drawing from academic personal and clinical perspectives the chapters address topics stemming from how the ageing with disability experience is framed the heterogeneity of the population ageing with disability and the disability experience issues of social exclusion health and wellness frailty later life and policy contexts for ageing with disability in various countries Responding to the need to increase access to knowledge in this field the Handbook provides guideposts for researchers practitioners and policy makers about what matters in providing services developing programmes and implementing policies that support persons ageing with long term disabilities and their families

Ageing with a Lifelong Disability Christine Bigby, 2004 This guide provides specialist knowledge about ageing with a disability in the context of the more mainstream knowledge about ageing processes Dr Bigby uses the concept of successful ageing as a framework in which to consider the issues and practicalities for older people with a pre existing disability
