Child of the Sun Lonn Taylor, 2020-09-24 Historian Lonn Taylor built a career as a curator in history museums including the Smithsonian Institution In retirement he wrote weekly columns on the people and places of Texas signed the Rambling Boy that were distributed widely in print and on the radio This book stands out from his numerous other books on historical and literary topics it s the only one he wrote about himself and the last book he wrote before he died in June 2019 It describes how his experience of growing up in the Philippines from 1947 to 1955 shaped his entire life by teaching him the destructive power of war In the Philippines his father was employed as a civil engineer building and rebuilding roads and bridges in the war devastated islands I lived most of my daily life in a well protected bubble of white colonialism he says in this memoir of his youth and thought nothing about it Despite that well protected bubble Taylor was aware of the ruins all around him the ravages of bombs and artillery shells and of his Filipino neighbors unbowed by their loss of wealth and privilege or their confinement and starvation in Japanese internment camps The manifest strengths and resilience of a society blended of Malay Chinese Spanish and American cultures made him a lifelong believer in the benefits of multiculturalism even as he bore witness to the islands postcolonial woes a feudal agricultural system maintained by landlords with private armies corruption so endemic that even post office clerks expected tips for selling stamps and deadly outbreaks of personal violence As an American child in the Philippines and then inevitably an outsider in the postwar America he returned to at fifteen Taylor honed a keen and varied sense of difference in class culture and language This nuanced understanding can be heard throughout Child of the Sun as Taylor reflects on his innocent years conveying with hard earned worldliness and wisdom all the beauty and lasting conflict of a lost world and time
