Mozote Massacre Anthropology And Human Rights:

The El Mozote Massacre Leigh Binford, 1996 Through fieldwork among the surprisingly numerous survivors the author reconstructs the recent social structure culture and history of the northeastern Salvadoran village of Segundo Montes before during and after the infamous massacre She tries to place anthropology squarely into political issues but also focuses on the people's oral testimonies more than on her own ethnography especially resisting the easy total categorization of the survivors as victims *Handbook of Latin American Studies* v 57

The El Mozote Massacre Leigh Binford, 2016-03-03 This book brings a fresh perspective on what may be the largest massacre in modern Latin American history Many new additions are included such as data from half a dozen field trips discussions of reconstruction and the fight for justice and the relation of the massacre to the region Provided by publisher

Forensic Archaeology and Human Rights Violations Roxana Ferllini, 2007 Forensic archaeology has become a paramount tool with regard to the investigation of human rights abuses in recent times by utilizing field techniques that provide a scientific means of searching locating and recovering the victims of human rights abuses By applying such techniques human remains may be positively identified thereby assisting survivors who are then able to lay their dead to rest and begin a process of closure after such tragic events have occurred Additionally the circumstances of the victim's demise will be accurately recorded and in course this information will be duly presented in scientific terms to legal enforcing bodies such as international criminal tribunals and domestic criminal courts This book is unique in that it offers the reader a variety of topics and perspectives within one volume from contributors from across the globe coming from a variety of diverse disciplines and experiences covering a broad spectrum that encompasses human rights investigations It will also serve as a reference source for governmental agencies that are involved in conducting human rights investigations at various levels including the provision of effective military assistance to those working in the field Non governmental organizations involved in human rights investigations will also find it to be an excellent reference that may be utilized in order for them to more effectively provide assistance in the areas of psychological social health and humanitarian assistance in zones where civilians have been killed on a large scale The book will be of interest to professionals in the fields of forensic pathology international law sociology cultural anthropology political science and biological sciences

The Memorialization of Genocide Simone Gigliotti, 2017-10-02 Divided societies tormented pasts and unrepentant perpetrators Why are some countries more intent on vanquishing uncomfortable pasts than others How do public and often unsightly attempts at memorialisation both fail the victims and valorize their oppressors This book offers fresh and original perspectives on dictatorship fascism and victimization from the bloodiest decades in Europe's Australia's and Central America's colonial and modern history Chapters include analyses of Francoist memorials in Spain assessments of the El Mozote massacre in El Salvador the forgetting of frontier colonial violence in Tasmania Romania's treatment of its Roma populations in the midst of Holocaust memorialisation in Bucharest's urban development and whether or not the Holocaust

continues to serve as an instructional model or impossible aspiration for cross cultural genocide memorialisation strategies In an era of ongoing political ethnic and religious conflict and unrepentant insurgent activity around the world this collection reminds readers that genocidal actions wherever and whenever they occurred must be held to account by more than rhetoric and concrete memory This book was originally published as a special issue of the Journal of Genocide Research *The El Mozote Massacre* Leigh Binford,1996 The 1981 slaughter of more than a thousand civilians around El Mozote El Salvador by the country's U S trained army was the largest massacre of the Salvadoran civil war The story was covered and soon forgotten by the international news media It was revived in 1993 only when the U S government was accused of covering up the incident Such reportage argues anthropologist Leigh Binford sustains the perception that the lives of Third World people are only newsworthy when some great tragedy strikes He critiques the practices of journalists and human rights organizations for their dehumanizing studies of subjects and victims Binford suggests that such accounts objectify the people involved through statistical analyses and bureaucratic body counts while the news media sensationalize the motives and personalities of the perpetrators In relating the story of this tragic event Binford restores a sense of history and social identity to the fallen people of this Salvadoran village Drawing on interviews he conducted with El Mozote area residents he offers a rich ethnographic and personal account of their lives prior to the tragedy He provides an overview of the history and culture of the area and tells how such a massacre could have happened why it was covered up and why it could happen again

Discrimination and Toleration Kirsten Hastrup,George Ulrich,2021-10-25 Discrimination on the basis of race gender or other ascribed group affiliations or individual identities is an all too well known phenomenon International instruments are invoked and refined to alter this situation but often to little avail In the present volume authors from across the globe explore the nature and forms of discrimination and seek to establish a new conceptual ground for addressing the issue Toleration is often advocated as a remedy for discriminatory practices In contrast to tolerance which is seen as an attitude toleration implies an active engaging of difference In this volume several authors address the inherent complexities of the notion itself not least the implication of asymmetry between the tolerant and the tolerated A central theme throughout the volume is the relative force of law and other areas of public concern in addressing the issues of both discrimination and toleration From a wide range of legal literary anthropological and philosophical perspectives the authors also show how the role of the intellectual is vital in reshaping the discourse and in redirecting practices that may affirm the equal worth of all humans

The Salvadoran Crucible Brian D'Haeseleer,2017-12-15 In 1979 with El Salvador growing ever more unstable and ripe for revolution the United States undertook a counterinsurgency intervention that over the following decade would become Washington's largest nation building effort since Vietnam In 2003 policymakers looked to this successful undertaking as a model for US intervention in Iraq In fact Brian D Haeseleer argues in *The Salvadoran Crucible* the US counterinsurgency in El Salvador produced no more than a stalemate and in the process inflicted tremendous suffering on Salvadorans for a

limited amount of foreign policy gains D Haeseleer's book is a deeply informed dispassionate account of how the Salvadoran venture took shape what it actually accomplished and what lessons it holds A historical analysis of the origins of US counterinsurgency policy provides context for understanding how precedents informed US intervention in El Salvador What follows is a detailed in depth view of how the counterinsurgency unfolded the nature logic and effectiveness of the policies initiatives and operations promoted by American strategists D Haeseleer's account disputes the success narrative by showing that El Salvador's achievements mainly the spread of democracy occurred as a result not of the American intervention but of the insurgents war against the state Most significantly The Salvadoran Crucible contends that the reforms enacted during the war failed to address the underlying causes of the conflict which today continue to reverberate in El Salvador The book thus suggests a reassessment of the history of American counterinsurgency and a course correction for the future **Fear**

as a Way of Life Linda Green, 1999-07-05 Between the late 1970s and the mid 1980s the people of Guatemala were subjected to a state sponsored campaign of political violence and repression designed to not only defeat a left wing revolutionary insurgency but also destroy Mayan communities and culture The Mayan Indians in the western highlands were labeled by the government as revolutionary sympathizers and many Mayan women lost husbands sons and other family members who were brutally murdered or who simply disappeared Based on years of field research conducted in the rural highlands Fear as a Way of Life traces the intricate links between the recent political violence and repression and the long term systemic violence connected with class inequalities and gender and ethnic oppression the violence of everyday life

Bullets Not Ballots Jacqueline L. Hazelton, 2021-05-15 In *Bullets Not Ballots* Jacqueline L Hazelton challenges the claim that winning hearts and minds is critical to successful counterinsurgency campaigns Good governance this conventional wisdom holds gains the besieged government popular support denies support to the insurgency and makes military victory possible Hazelton argues that major counterinsurgent successes since World War II have resulted not through democratic reforms but rather through the use of military force against civilians and the co optation of rival elites Hazelton offers new analyses of five historical cases frequently held up as examples of the effectiveness of good governance in ending rebellions the Malayan Emergency the Greek Civil War the Huk Rebellion in the Philippines the Dhofar rebellion in Oman and the Salvadoran Civil War to show that although unpalatable it was really brutal repression and bribery that brought each conflict to an end By showing how compellence works in intrastate conflicts *Bullets Not Ballots* makes clear that whether or not the international community decides these human moral and material costs are acceptable responsible policymaking requires recognizing the actual components of counterinsurgent success and the limited influence that external powers have over the tactics of counterinsurgent elites **Reconciliation, Nations and Churches in Latin America** Iain S.

Maclean, 2016-04-22 This book examines the recent phenomenon in Latin America of national Truth and Reconciliation commissions Few studies have examined the role of Churches or religion in political processes that proclaim valued

theological terms as their agenda truth forgiveness and reconciliation This book questions the role of religion specifically of established Churches The impact of such reconciliation commissions on Indigenous Native Americans is also examined as is the role of women and how both commissions and Churches or religions were challenged by their experiences The contributors offer differing perspectives on one or more national truth and reconciliation processes and thus offer a collection that serves as valuable source for the disciplines of Religious Studies Ethics Theology Political Science Social Sciences and Women s Studies
