Mubarak AlSabah:

Mubarak Al-Sabah Souad M. Al-Sabah, 2014-05-15 Amidst political upheaval and the decline of the Ottoman Empire the State of Kuwait emerged as an independent country under British protection in 1899 with Sheikh Mubarak Al Sabah widely accredited as the instrument of its foundation But the path to power for Mubarak was not a simple or smooth one The author here presents an original perspective on the difficulties and controversies surrounding Mubarak's ascension With unparalleled insights and access to original sources she reveals the life personality and politics of a man who determined to secure a distinctive Kuwaiti state helped to shape the modern Middle East This biography provides a comprehensive overview of a time of significant political and social change in the Gulf when development diplomacy economics finance and trade were both routes to political independence and the perpetuation of British domination Remembered for his unyielding determination to boost the profile and wealth of Kuwait and establish his leadership at a turbulent time of regional war Mubarak engineered major change for Kuwait From the negotiations of the 1899 Anglo Kuwait Agreement during which Mubarak sought to outfox Lord Curzon and other British officials to his ambitions to tame tribal politics the author here presents a unique portrait of the man who transformed Kuwait from an Ottoman sub province to an independent state

Abdullah Mubarak Al-Sabah Souad M. Al-Sabah, 2015-02-02 Sheikh Mubarak was the founder of the modern state of Kuwait But the man who actually led Kuwait to modernity was his son Abdullah Mubarak Al Sabah one of the most significant figures of Kuwait from the 1940s to Kuwaiti independence in 1961 Largely responsible for the creation of the Kuwaiti defence forces Abdullah Mubarak Al Sabah made a point of prioritising what he saw to be Kuwait's national interests in the face of British American and Iranian pressures during a crucial period of change He developed carefully crafted cautious relations with foreign oil companies and secured Kuwait's economic standing through his driven and single minded policies The author here presents this part biography part history of modern Kuwait with fresh new research and insights From America's drive to build stronger connections in the region in the 1950s when both the Cold War and Arab nationalisms were in full play to sensitive diplomatic issues such as water border disputes and difficult interactions with Iraq especially following the 1958 revolution of Abd al Karim Qasim the author examines Kuwait's relations with its neighbours and the West and the role played by this pivotal figure in the country's history and development This book makes a significant contribution to understanding the complex politics of modern Kuwait and the recent history of the Gulf States [Kuwait and Al-Sabah](#) Rivka Azoulay, 2020-07-23 The Emirate of Kuwait hardly resembles the city State it was at the start of the 20th century The discovery of oil in 1938 rapidly transformed the tiny tribal sheikhdom of the Al Sabah into a modern oil producing state where by the early 1980s citizens were enjoying one of the highest standards of living in the world While much has been written on the reasons why and how the Al Sabah became a ruling dynasty little is known about the nature of their authority and its relationship to Kuwait's social structure Rivka Azoulay shows how despite the rapidity of change in the oil rich family

run emirate it is the pre oil dynamics of social and political life that dictate how society operates The author shows that Kuwait's ambitious diversification plans to reduce oil dependence by 2035 require a renegotiation of the regime's pact with society which threatens the pre oil alliances upon which the Al Sabah's regime has been built **Al-Sabah** Alan Rush, Alan de Lacy Rush, 1987

The Ottoman Gulf Frederick F. Anscombe, 1997 What caused the decline of the Ottoman empire in the Persian Gulf Why has history credited only London not Istanbul with bringing about the birth of the modern Gulf States Using the Ottoman imperial archives as well as European and Arab sources Anscombe explains how the combination of poor communication scarce resources and misplaced security concerns undermined Istanbul's control and ultimately drove the Gulf shaikhs to seek independence with ties to the British **Kuwait 1975/76 - 2019** Anthony Axon, Susan Hewitt, 2019-12-09

The third in a new series the Contemporary Archive of the Islamic World CAIW this title draws on the resources of Cambridge based World of Information which since 1975 has followed the politics and economics of the region Kuwait's documented history begins in the mid 19th Century Its location established it as an important entrepôt at the head of the Arabian Gulf Notionally under Ottoman rule it became a de facto protectorate of Great Britain The discovery of oil changed Kuwait beyond recognition It gained full independence in 1971 and was long considered the most developed state in the Gulf Coveted by Iraq it was invaded in 1990 It also played a part in the 2003 invasion of Iraq *The Making of Contemporary Kuwait* Mahjoob Zweiri, Sinem Cengiz, 2024-06-03

This book explores the contemporary history governance foreign policy political economy culture and society of Kuwait It highlights the dynamics of the country putting forward both an overview of each subject covered and new research findings It begins by providing a historical understanding of state formation and goes on to examine state structure including the ruling monarchy state legitimacy and the creation of the Constitution and the National Assembly It considers foreign policy including the tools of diplomacy the state's regional and international approach and the factors that have formed and reformed Kuwait's strategic policy in the global arena It assesses the economy including rentierism the labour market both for locals and for migrants the class system and the process of Kuwaitization and it discusses Kuwaiti society and national identity as well as investigates issues of women civil society youth and the Bidoon minority Overall the book provides a full and detailed analysis of contemporary Kuwait and of the factors which are bringing about new developments

Stories of Democracy Mary Ann Tétreault, 2000 A sophisticated investigation of the shifting tides of democratic governance in modern Kuwait from 1921 to the present based on interviews both with political activists and members of the political elite Stories of Democracy sheds light on a wide array of issues concerning Middle Eastern politics and democratic institutions in general Mary Ann Tétreault explores how various political factions have sought to advance their own notions of Kuwaiti history and politics through distinctive popular appeals 1 pro democracy forces focusing on Kuwait's relationship to the universal values of the democratic world around them and 2 anti democrats proffering Arab and Muslim religious and cultural traditions She explores how such dramatic events as the

suspension of the Kuwaiti constitution in 1986 and the invasion by Iraq in 1990 occasioned major shifts in the course of the democracy movement. The current running through virtually all of the nation's political drama is the monolithic Kuwait Petroleum Corporation (KPC) used by the government as an instrument of economic strength to safeguard sovereignty in the absence of military might.

Saudi Arabia and the Gulf Arab States Today Sebastian Maisel, John A. Shoup, 2009-02-17. This extremely timely and helpful ready reference will familiarize all students and readers with the Gulf region and Saudi Arabia, Bahrain, Dubai, the UAE, Kuwait, Oman, Yemen, and Qatar. These states are bound by the desert culture, the Gulf's new oil economy, and Islam, to name some commonalities. Most Americans know something about the region, such as oases, dates, camels, oil, Bedouin tribes, and the legends of Lawrence of Arabia. To Osama bin Laden, Islamic concepts and practices are still unfamiliar. On one extreme, Saudi Arabia, the cradle of Islam, has been largely closed off to Western tourists. On the other extreme, Dubai courts tourist dollars as it constructs modern architectural showcases. This is the first A-Z encyclopedia to focus on the Gulf, illuminating the land, people, religion, culture, and traditions, institutions, economy, and much more for general readers. The more than 200 essay entries have a current focus with historical context as necessary. The breadth of coverage means that this resource will be of use for a wide range of researchers and browsers. Besides individual entries on each state, major cities, and regions are also profiled. The natural environment and human adaptation to it receives significant space. Islamic customs and rules and various interpretations are clearly explained. Essays on topics such as key public figures, institutions, major events, politics, and state structures, some based on sources often not available in English, make this two-volume set the first choice resource for accurate information. Suggestions for further reading accompany most entries, a chronology, selected bibliography, and photos also complement the text.

The Arabian Seas: Biodiversity, Environmental Challenges and Conservation Measures Laith A. Jawad, 2021-03-30. The Arabian Seas Marine Region encompasses marine areas from Djibouti to Pakistan, including the northern part of Somalia, the Red Sea, the Arabian Persian Gulf, and parts of the Arabian Sea. Human pressures on the coastal and marine environments are evident throughout the region and have resulted in harmful environmental effects. Oil and domestic urban and industrial pollutants in several areas of this part of the world have caused local habitat degradation, eutrophication, and algal blooms. Further coastal landfill, dredging, and sedimentation, as well as nutrient and sediment runoff from phosphate mining, agriculture, and grazing, and reduction in freshwater seepage due to groundwater extraction, are all contributing to the degradation of coastal environments. This book discusses aspects not covered in other books on the region, which largely focus on marine biodiversity, and examines several environmental challenges that are often ignored but which have a significant impact on the environment. Evaluating the status quo, it also recommends conservation measures and examines the abiotic factors that play a major main role in the environmental changes. Lastly, the book addresses the biodiversity of the area, providing a general context for the conservation and management measures discussed.
