Much Maligned Monsters:

Much Maligned Monsters Partha Mitter, 1992-08 In this fascinating study Partha Mitter traces the history of European reactions to Indian art from the earliest encounters of explorers with the exotic East to the more sophisticated but still incomplete appreciations of the early twentieth century Mitter's new Preface reflects upon the profound changes in Western interpretations of non Western societies over the past fifteen years Art Without Borders Ben-Ami Scharfstein, 2009-08-01 People all over the world make art and take pleasure in it and they have done so for millennia But acknowledging that art is a universal part of human experience leads us to some big questions Why does it exist Why do we enjoy it And how do the world's different art traditions relate to art and to each other Art Without Borders is an extraordinary exploration of those questions a profound and personal meditation on the human hunger for art and a dazzling synthesis of the whole range of inquiry into its significance Esteemed thinker Ben Ami Scharfstein's encyclopedic erudition is here brought to bear on the full breadth of the world of art He draws on neuroscience and psychology to understand the way we both perceive and conceive of art including its resistance to verbal exposition Through examples of work by Indian Chinese European African and Australian artists Art Without Borders probes the distinction between accepting a tradition and defying it through innovation which leads to a consideration of the notion of artistic genius Continuing in this comparative vein Scharfstein examines the mutual influence of European and non European artists Then through a comprehensive evaluation of the world's major art cultures he shows how all of these individual traditions are gradually but haltingly conjoining into a single current of universal art Finally he concludes by looking at the ways empathy and intuition can allow members of one culture to appreciate the art of another Lucid learned and incomparably rich in thought and detail Art Without Borders is a monumental accomplishment on par with the artistic achievements Scharfstein writes about so lovingly in its pages **Christiana Herringham and the Edwardian Art Scene** Mary Lago, 1996 Lady Herringham arrived on the Edwardian art scene with a translation of *Il Libro dell'Arte* o *Trattato della Pittura* Cennini's fifteenth century handbook on fresco and tempera It aroused new interest in those techniques and led to the founding of the Society of Painters in Tempera in 1901 To preserve Britain's art heritage from buyers abroad she provided the money that launched the National Art Collections Fund in 1903 creating what is still a vital and authoritative voice in Britain's cultural life Her work as the only woman on the NACF's first executive committee prepared her to assist in founding the India Society which urged respect for indigenous Indian traditions of the fine arts and encouraged appreciation for them in England **Idolatry and the Colonial Idea of India** Swagato Ganguly, 2017-08-15 This book explores literary and scholarly representations of India from the 18th to the early 20th centuries in South Asia and the West with idolatry as a point of entry It charts the intellectual horizon within which the colonial idea of India was framed tracing sources and genealogies which inform even contemporary descriptions of the subcontinent Using idolatry as a concept metaphor the book traverses an ambitious path through the works of William Jones

James Mill Friedrich Max Müller John Ruskin Alice Perrin E M Forster Rammohan Roy and Bankimchandra Chatterjee It reveals how religion and paganism history and literature Oriental thought and Western metaphysics and social reform and education were unfolded and debated by them The author underlines how idolatry irrationality and social disorder came to be linked by discourses informed by Enlightenment missionary rhetoric and colonial reason This book will appeal to scholars and researchers in history anthropology literature culture studies philosophy religion sociology and South Asian studies as well as anyone interested in colonial studies and histories of the Enlightenment

Art and Form Sam Rose, 2019-03-25 This important new study reevaluates British art writing and the rise of formalism in the visual arts from 1900 to 1939 Taking Roger Fry as his starting point Sam Rose rethinks how ideas about form influenced modernist culture and the movement's significance to art history today In the context of modernism formalist critics are often thought to be interested in art rather than life a stance exemplified in their support for abstract works that exclude the world outside But through careful attention to early twentieth century connoisseurship aesthetics art education design and art in colonial Nigeria and India Rose builds an expanded account of form based on its engagement with the social world Art and Form thus opens discussions on a range of urgent topics in art writing from its history and the constructions of high and low culture to the idea of global modernism Rose demonstrates the true breadth of formalism and shows how it lends a new richness to thought about art and visual culture in the early to mid twentieth century Accessibly written and analytically sophisticated Art and Form opens exciting new paths of inquiry into the meaning and lasting importance of formalism and its ties to modernism It will be invaluable for scholars and enthusiasts of art history and visual culture

Haunting the Buddha Robert DeCaroli, 2004-09-30 Early European histories of India frequently reflected colonialist agendas The idea that Indian society had declined from an earlier Golden Age helped justify the colonial presence It was said for example that modern Buddhism had fallen away from its original identity as a purely rational philosophy that arose in the mythical 5th century BCE Golden Age unsullied by the religious and cultural practices that surrounded it In this book Robert DeCaroli seeks to place the formation of Buddhism in its appropriate social and political contexts It is necessary he says to acknowledge that the monks and nuns who embodied early Buddhist ideals shared many beliefs held by the communities in which they were raised In becoming members of the monastic society these individuals did not abandon their beliefs in the efficacy and the dangers represented by minor deities and spirits of the dead Their new faith however gave them revolutionary new mechanisms with which to engage those supernatural beings Drawing on fieldwork textual and iconographic evidence DeCaroli offers a comprehensive view of early Indian spirit religions and their contributions to Buddhism the first attempt at such a study since Ananda Coomaraswamy's pioneering work was published in 1928 The result is an important contribution to our understanding of early Indian religion and society and will be of interest to those in the fields of Buddhist studies Asian history art history and anthropology

Art and Nationalism in Colonial India, 1850-1922 Partha Mitter, 1994 Partha Mitter's book is a pioneering study of the history of

modern art on the Indian subcontinent from 1850 to 1922 The author tells the story of Indian art during the Raj set against the interplay of colonialism and nationalism The work addresses the tensions and contradictions that attended the advent of European naturalism in India as part of the imperial design for the westernisation of the elite and traces the artistic evolution from unquestioning westernisation to the construction of Hindu national identity Through a wide range of literary and pictorial sources *Art and Nationalism in Colonial India* balances the study of colonial cultural institutions and networks with the ideologies of the nationalist and intellectual movements which followed The result is a book of immense significance both in the context of South Asian history and in the wider context of art history *The Book of Revelation* Timothy

Beal, 2018-10-23 The life and times of the New Testament's most mystifying and incendiary book Few biblical books have been as revered and reviled as Revelation Many hail it as the pinnacle of prophetic vision the cornerstone of the biblical canon and for those with eyes to see the key to understanding the past present and future Others denounce it as the work of a disturbed individual whose horrific dreams of inhumane violence should never have been allowed into the Bible Timothy Beal provides a concise cultural history of Revelation and the apocalyptic imaginations it has fueled Taking readers from the book's composition amid the Christian persecutions of first century Rome to its enduring influence today in popular culture media and visual art Beal explores the often wildly contradictory lives of this sometimes horrifying sometimes inspiring biblical vision He shows how such figures as Augustine and Hildegard of Bingen made Revelation central to their own mystical worldviews and how thanks to the vivid works of art it inspired the book remained popular even as it was denounced by later church leaders such as Martin Luther Attributed to a mysterious prophet identified only as John Revelation speaks with a voice unlike any other in the Bible Beal demonstrates how the book is a multimedia constellation of stories and images that mutate and evolve as they take hold in new contexts and how Revelation is reinvented in the hearts and minds of each new generation This succinct book traces how Revelation continues to inspire new diagrams of history new fantasies of rapture and new nightmares of being left behind **Out of Bounds** Alan G. Johnson, 2011-03-31

Out of Bounds focuses on the crucial role that conceptions of iconic colonial Indian spaces jungles cantonments cities hill stations bazaars clubs played in the literary and social production of British India Author Alan Johnson illuminates the geographical rhetorical and ideological underpinnings of such depictions and from this argues that these spaces operated as powerful motifs in the acculturation of Anglo India He shows that the bicultural intrinsically ambivalent outlook of Anglo Indian writers is acutely sensitive to spatial motifs that insofar as these condition the idea of home and homelessness alternately support and subvert conventional colonial perspectives Colonial spatial motifs not only informed European representations of India but also shaped important aesthetic notions of the period such as the sublime This book also explains how and why Europeans rhetorical and visual depictions of the Indian subcontinent whether ostensibly administrative scientific or aesthetic constituted a primary means of memorializing Empire creating an idiom that postcolonial India continues to use in certain

ways Consequently Johnson examines specific motifs of Anglo Indian cultural remembrance such as the hunting memoir hill station life and the Mutiny all of which facilitated the mythic iconography of the Raj He bases his work on the premise that spatiality the physical as well as social conceptualization of space is a vital component of the mythos of colonial life and that the study of spatiality is too often a subset of a focus on temporality Johnson reads canonical and lesser known fiction memoirs and travelogues alongside colonial archival documents to identify shared spatial motifs and idioms that were common to the period Although he discusses colonial works he focuses primarily on the writings of Anglo Indians such as Rudyard Kipling John Masters Jim Corbett and Flora Annie Steel to demonstrate how conventions of spatial identity were rhetorically maintained and continually compromised All of these considerations amplify this book's focus on the porosity of boundaries in literatures of the colony and of the nation Out of Bounds will be of interest to not only postcolonial literary scholars but also scholars and students in interdisciplinary nineteenth century studies South Asian cultural history cultural anthropology women's studies and sociology

The Iconic Imagination Douglas Hedley, 2016-02-25 Is it merely an accident of English etymology that imagination is cognate with image Despite the iconoclasm shared to a greater or lesser extent by all Abrahamic faiths theism tends to assert a link between beauty goodness and truth all of which are viewed as Divine attributes Douglas Hedley argues that religious ideas can be presented in a sensory form especially in aesthetic works Drawing explicitly on a Platonic metaphysics of the image as a bearer of transcendence The Iconic Imagination shows the singular capacity and power of images to represent the transcendent in the traditions of Christianity Judaism Hinduism and Islam In opposition to cold abstraction and narrow asceticism Hedley shows that the image furnishes a vision of the eternal through the visible and temporal
