Muchacho de San Telmo Emilio Lascano Tegui,1944 **The Pan American Book Shelf** ,1944 **Geo-epistemology** Claudio Canaparo,2009 This book is about the formation and development of Latin America as name idea and concept as well as the wider concepts of location knowledge and the relationship between them Latin America is not only a subject or an academic construct it is also a perspective from which subjectivities are established knowledge is developed and narratives are produced This study argues that epistemology cannot exist in abstract terms despite traditional academic arguments to the contrary Therefore the author uses Latin America to anchor his more general arguments in a particular location and calls this approach geo epistemology The author discusses how the specificity of a particular location can contribute to the establishment of both a method of formulating human knowledge and the boundaries of what can be known The text explores the relationship between philosophy geography and geometry and analyses the notions of science empire and colonialism In response to the contemporary debate on space of thinking the author proposes a new concept of reversal thinking which leads to an examination of the roles of language and writing from an epistemic point of view **Spanish-American**

Literature Enrique Anderson Imbert,1969 With a focus both historical and literary Enrique Anderson Imbert surveys the literature of Hispanic America His study is not merely an historical synthesis of names titles and dates it is rather a critical analytical appraisal of the verse prose and drama written in Spanish in the Americas in the contemporary period
