New Englanders in Nova Albion James David Hart, 1976 **Power and the Pursuit of Peace: Theory and Practice in the History of Relations Between States** F. H. Hinsley, Francis Harry Hinsley, 1967-10 In the last years of the nineteenth century peace proposals were first stimulated by fear of the danger of war rather than in consequence of its outbreak In this study of the nature and history of international relations Mr Hinsley presents his conclusions about the causes of war and the development of men's efforts to avoid it In the first part he examines international theories from the end of the middle ages to the establishment of the League of Nations in their historical setting This enables him to show how far modern peace proposals are merely copies or elaborations of earlier schemes He believes there has been a marked reluctance to test these theories not only against the formidable criticisms of men like Rousseau Kant and Bentham but also against what we have learned about the nature of international relations and the history of the practice of states This leads him to the second part of his study an analysis of the origins of the modern states system and of its evolution between the eighteenth century and the First World War *The World Rushed In* J. S. Holliday, 2015-03-16 When *The World Rushed In* was first published in 1981 the Washington Post predicted It seems unlikely that anyone will write a more comprehensive book about the Gold Rush Twenty years later no one has emerged to contradict that judgment and the book has gained recognition as a classic As the San Francisco Examiner noted It is not often that a work of history can be said to supplant every book on the same subject that has gone before it Through the diary and letters of William Swain augmented by interpolations from more than five hundred other gold seekers and by letters sent to Swain from his wife and brother back home the complete cycle of the gold rush is recreated the overland migration of over thirty thousand men the struggle to strike it rich in the mining camps of the Sierra Nevadas and the return home through the jungles of the Isthmus of Panama In a new preface the author reappraises our continuing fascination with the gold rush experience as a defining epoch in western indeed American history

Strangers on Familiar Soil Edward Dallam Melillo, 2015-10-20 This groundbreaking history explores the many unrecognized enduring linkages between the state of California and the country of Chile The book begins in 1786 when a French expedition brought the potato from Chile to California and it concludes with Chilean president Michelle Bachelet's diplomatic visit to the Golden State in 2008 During the intervening centuries new crops foods fertilizers mining technologies laborers and ideas from Chile radically altered California's development In turn Californian systems of servitude exotic species educational programs and capitalist development strategies dramatically shaped Chilean history Edward Dallam Melillo develops a new set of historical perspectives tracing eastward moving trends in U S history uncovering South American influences on North America's development and reframing the Western Hemisphere from a Pacific vantage point His innovative approach yields transnational insights and recovers long forgotten connections between the peoples and ecosystems of Chile and California **New Englanders in Nova Albion : Some 19th Century Views of California** James
