New Worlds 6:

New Worlds Reflected Chloë Houston, 2010 Recent years have seen an explosion of interest in early modern globalization travel and travel literature whilst utopian literature has proved to be a continuing source of fascination for students of the intellectual and literary history of the early modern period Drawing on this growth of interest this volume brings together new work from an international range of scholars working on these fields of research and the interactions between them New Worlds Reflected provides a significant contribution both to the history of utopianism and travel and to the wider cultural and intellectual history of the time assembling original essays from those interested in the representations of the globe and new and ideal worlds in the period from 1500 to 1800 and in the imaginative reciprocal responsiveness of utopian and travel writing

Infidels and Empires in a New World Order David M. Lantigua, 2020-06-18 Before international relations in the West there were Christian infidel relations Infidels and Empires in a New World Order decenters the dominant story of international relations beginning with Westphalia in 1648 by looking a century earlier to the Spanish imperial debate at Valladolid addressing the conversion of native peoples of the Americas In addition to telling this crucial yet overlooked story from the colonial margins of Western Europe this book examines the Anglo Iberian Atlantic to consider how the ambivalent status of the infidel other under natural law and the law of nations culminating at Valladolid shaped subsequent international relations in explicit but mostly obscure ways From Hern n Cort s to Samuel Purchas and Bartolom de las Casas to New England Puritans a host of unconventional colonial figures enter into conversation with Francisco de Vitoria Hugo Grotius and John Locke to reveal astonishing religious continuities and dissonances in early modern international legal thought with important implications for contemporary global society

Federal Communications Commission,1976 *Late Hellenistic Greek Literature in Dialogue* Jason König,Nicolas Wiaters,2022-04-27 Late Hellenistic Greek literature both prose and poetry stands out for its richness and diversity Recent work has tended to take an author by author approach that underestimates the interconnectedness of the literary culture of the period The chapters assembled here set out to change that by offering new readings of a wide range of late Hellenistic texts and genres including historiography geography

rhetoric and philosophy together with many verse texts and inscriptions In the process they offer new insights into the various ways in which late Hellenistic literature engaged with its social cultural and political contexts while interrogating and revising some of the standard narratives of the relationship between late Hellenistic and imperial Greek literary culture which are too often studied in isolation from each other As a whole the book prompts us to rethink the place of late Hellenistic literature within the wider landscape of Greek and Roman literary history *Mammoths of the Great Plains* Eleanor Arnason,2010-05-01 When President Thomas Jefferson sent Lewis and Clark to explore the West he told them to look especially for mammoths Jefferson had seen bones and tusks of the great beasts in Virginia and he suspected he hoped that they might still roam the Great Plains In Eleanor Arnason's imaginative alternate history they do shaggy herds thunder over the grasslands living symbols of the oncoming struggle between the Native peoples and the European invaders And in an unforgettable saga that soars from the badlands of the Dakotas to the icy wastes of Siberia from the Russian Revolution to the AIM protests of the 1960s Arnason tells of a modern woman's struggle to use the weapons of DNA science to fulfill the ancient promises of her Lakota heritage PLUS Writing SF During World War III and an Outspoken Interview that takes you straight into the heart and mind of one of today's edgiest and most uncompromising speculative authors *Motor World Wholesale* ,1921 *The Book of Revelation* G. K. Beale,2013-09-07 This commentary series is established on the presupposition that the theological character of the New Testament documents calls for exegesis that is sensitive to theological themes as well as to the details of the historical linguistic and textual context Such thorough exegetical work lies at the heart of these volumes which contain detailed verse by verse commentary preceded by general comments on each section and subsection of the text An important aim of the NIGTC authors is to interact with the wealth of significant New Testament research published in recent articles and monographs In this connection the authors make their own scholarly contributions to the ongoing study of the biblical text The text on which these commentaries are based is the UBS Greek New Testament edited by Kurt Aland and others While engaging the major questions of text and interpretation at a scholarly level the authors keep in mind the needs of the beginning student of Greek as well as the pastor or layperson who may have studied the language at some time but does not now use it on a regular basis
