Payne, Michael Witzel, 2016 Throughout human history and across many religious cultures offerings are made into fire The essays collected in Homa Variations provide detailed studies of this practice known in the tantric world as the homa from its inception up to the present Approaching the Land of Bliss Richard Karl Payne, Kenneth Kazuo Tanaka, 2004-01-01 The discourse of Buddhist studies has traditionally been structured around texts and nations the transmission of Buddhism from India to China to Japan And yet it is doubtful that these categories reflect in any significant way the organizing themes familiar to most Buddhists It could be argued that cultic practices associated with particular buddhas and bodhisattvas are more representative of the way Buddhists conceive of their relation to tradition This volume aims to explore this aspect of Buddhism by focusing on one of its most important cults that of the Buddha Amitabha Approaching the Land of Bliss is a rich collection of studies of texts and ritual practices devoted to Amitabha ranging from Tibet to Japan and from early medieval times to the present **Art International**, 1981 **Himalayan Architecture** Ronald M. Bernier, 1997 This broad treatment of architecture throughout the region of the Himalaya mountains is the first book of its kind The author has based this study on many years of research in Nepal Sikkim Bhutan Assam and the Darjeeling area of northeast India northern Pakistan and Himachal Pradesh in India's northwest These areas make up an artistic and to some degree a cultural unit It is unique and definable for its design qualities as well as its use of materials Dramatic and lofty structures rise as towering palaces and as temples dedicated to Hindu and Buddhist ideals The impact of neighboring Tibet and India is often evident in the art but other influences are found as well The area has not been isolated as some studies suggest but was in fact always linked to the rest of Asia and to the West by means of the Silk Road at least since the second century B C This study progresses from east to west beginning in the foothills of India's Assam It is richly illustrated with photographs most of which are the author's or his wife's and many of the photographs are published here for the first time The archives of the Archaeological Survey of India and the Department of Archaeology of His Majesty's Government of Nepal are also used here **Library of Congress Subject Headings** Library of Congress.
