

The background of the cover is composed of three distinct microscopic images of bone marrow. The top section shows a variety of cells, including large, multi-lobed white blood cells and numerous small, round red blood cells. The middle section features a large, pale, amorphous mass, likely a fat cell or a cluster of cells, surrounded by smaller, darker-stained cells. The bottom section is a high-magnification view of a dense population of cells, possibly a hematopoietic site, with many small, round cells and some larger, more irregular cells.
