Pathology Of The Uterine Cervix Vagina And Vulva:

Pathology of the Uterine Cervix, Vagina, and Vulva Yao S. Fu, 2002 The 2nd Edition of this popular volume in the Major Problems in Pathology series represents a comprehensive monograph on the pathology of the lower female genital tract with a particular emphasis on uterine cervical cytology and the various other ancillary methods utilized to diagnose its diseases It explores the full range of clinical and pathologic findings encountered in practice defines their diagnostic features and criteria and presents effective strategies for solving diagnostic challenges It incorporates comprehensive updates throughout to reflect the very latest developments in the field including the new Bethesda System for classifying cervical cancer

Pathology of the Female Genital Tract A. Blaustein, 2013-11-11 The response to the First Edition of this text confirmed our belief that there was a need for a book of this kind The multi authored approach has been retained ensuring that authoritative current information is incorporated into each chapter and that references are up to date The section on diseases of the vagina has been enhanced by a greater emphasis on the clinical aspects The chapter on DES induced lesions has been updated with the data of the DeSAD study and the section on adenocarcinoma of the cervix has been enlarged by the description of the undifferentiated lesions including glassy cell and signet cell carcinoma A departure from the traditional chapter approach has been made in the discussion of endometrial hyperplasia and carcinoma in order to present a conceptual view of these diseases A similar presentation of diseases of the myometrium has been made The subjects of lymphomas and mesenchymal tumors of the ovary have been enlarged upon and presented in a separate chapter Fine needle aspiration in the diagnosis of ovarian tumors and of non malignant disorders of the ovary has become an increasingly useful technique Two new chapters have been added to cover this subject Many of the changes made in the second edition were in response to reviewers of the First Edition It is hoped that their constructive suggestions have been addressed Ancel Blaustein M D

Cancer of the Female Lower Genital Tract Patricia J. Eifel, Patricia Eifel, Charles Levenback, 2001 This volume of the American Cancer Society Atlas of Clinical Oncology is intended to provide clinicians students and scientists with an integrated analysis and review of the biology diagnostic evaluation and treatment of cancers of the lower female genital tract Recent changes in the accepted treatment for invasive cervical cancer and in many aspects of the epidemiology diagnosis and evaluation of these cancers make this discussion particularly timely
