Paths To The City Regional Migration In France:

Paths to the City Leslie Page Moch, 1983-05 Paths to the City presents a study of migration from rural areas to the industrializing city of Nîmes in the 19th century. With unusual technical skill Moch is able to reconstruct the lives of migrants in their villages and in the cities. She is able to separate them into separate streams of migrations, trace the work, marriage and child bearing patterns of migrants back to their rural roots and compare migrants with people who did not move. She is also able to augment the demographic patterns she outlines with portraits of what happened to real individual people.

Paths to the City Leslie Page Moch, 1992 Paths to the City presents a study of migration from rural areas to the industrializing city of Nîmes in the 19th century. With unusual technical skill Moch is able to reconstruct the lives of migrants in their villages and in the cities. She is able to separate them into separate streams of migrations, trace the work, marriage and child bearing patterns of migrants back to their rural roots and compare migrants with people who did not move. France and Women, 1789-1914 James McMillan, Professor James F. McMillan, 2002-01-08 France and Women 1789-1914 is the first book to offer an authoritative account of women's history throughout the nineteenth century. James McMillan, author of the seminal work *Housewife or Harlot*, offers a major reinterpretation of the French past in relation to gender. Throughout these tumultuous decades of revolution and war, this book provides a challenging discussion of the factors which made French political culture so profoundly sexist and, in particular, it shows that many of the myths about progress and emancipation associated with modernisation and the coming of mass politics do not stand up to close scrutiny. It also reveals the conservative nature of the republican left and of the ingrained belief throughout French society that women should remain within the domestic sphere. James McMillan considers the role played by French men and women in the politics, culture and society of their country throughout the 1800s.

Migration And Mobility In Britain Since The Eighteenth Century Colin Pooley, Jean Turnbull, 2005-10-05 Population migration is one of the demographic and social processes which have structured the British economy and society over the last 250 years. It affects individuals, families, communities, places, economic and social structures and governments. This book examines the pattern and process of migration in Britain over the last three centuries. Using late 1990s research and data, the authors have shed light on migration patterns, including internal migration and movement overseas, its impact on social and economic change, and highlights differences by gender, age, family position, socio-economic status and other variables.

Moving Europeans, Second Edition Leslie Page Moch, 2009-09-18 Praise for the first edition: By far the best general book on its subject, *Moving Europeans* will remain a standard reference for some time to come. Charles Tilly. Moch has reconceived the social history of Europe. David Levine. *Moving Europeans* tells the story of the vast movements of people throughout Europe and examines the links between human mobility and the fundamental changes that transformed European life. This update of a classic text describes the Western European migration

from the pre industrial era to the year 2000 For this new edition Leslie Page Moch reconsiders the 20th century in light of fundamental changes in labor years of conflict and the new migrations following the end of colonial empires the fall of communism and globalization This new edition also features a greatly expanded and up to date bibliography

Regeneration Through Empire Margaret Cook Andersen, 2015 Following France's defeat in the Franco Prussian War in 1870-71 French patriots feared that their country was in danger of becoming a second rate power in Europe Decreasing birth rates had largely slowed French population growth and the country's population was not keeping pace with that of its European neighbors To regain its standing in the European world France set its sights on building a vast colonial empire while simultaneously developing a policy of pronatalism to reverse these demographic trends Though representing distinct political movements colonial supporters and pronatalist organizations were born of the same crisis and reflected similar anxieties concerning France's trajectory and position in the world *Regeneration through Empire* explores the intersection between colonial lobbyists and pronatalists in France's Third Republic Margaret Cook Andersen argues that as the pronatalist movement became more organized at the end of the nineteenth century pronatalists increasingly understood their demographic crisis in terms that transcended the boundaries of the metropole and began to position the French empire specifically its colonial holdings in North Africa and Madagascar as a key component in the nation's regeneration Drawing on an array of primary sources from French archives *Regeneration through Empire* is the first book to analyze the relationship between depopulation and imperialism

Structure and Mobility William Hamilton Sewell, 1985-04-26 This book is a sociological portrait of Marseille during the epochal changes of the nineteenth century Sewell establishes a systematic quantitative description of some of the most important social structures of nineteenth century Marseille Although deeply influenced by sociological methods and theories the volume is written on the basis of readability and simplicity and therefore has much to offer to the historian as well as the sociologist

European Migrants Dirk Hoerder, Leslie Page Moch, 1996 Includes statistics

France, 1800-1914 Roger Magraw, 2014-07-22 Nineteenth century France was a society of apparent paradoxes It is famous for periodic and bloody revolutionary upheavals for class conflict and for religious disputes yet it was marked by relative demographic stability gradual urbanisation and modest economic change class conflict and ongoing religious and cultural tensions Incorporating much recent research Roger Magraw draws both upon still valuable insights derived from the new social history of the 1960s and upon more recent approaches suggested by gender history cultural anthropology and the linguistic turn

Practiced Citizenship Nimisha Barton, Richard S. Hopkins, 2019-01-01 Over fifty years ago sociologist T H Marshall first opened the modern debate about the evolution of full citizenship in modern nation states arguing that it proceeded in three stages from civil rights to political rights and finally to social rights The shortcomings of this model were clear to feminist scholars As political theorist Carol Pateman argued the modern social contract undergirding nation states was from the start premised on an implicit sexual contract According to Pateman the

birth of modern democracy necessarily resulted in the political erasure of women. Since the 1990s feminist historians have realized that Marshall's typology failed to describe adequately developments that affected women in France. An examination of the role of women and gender in welfare state development suggested that social rights rooted in republican notions of womanhood came early and fast for women in France even while political and economic rights would continue to lag behind. While their considerable access to social citizenship privileges shaped their prospects, the absence of women's formal rights still dominates the conversation. *Practiced Citizenship* offers a significant rereading of that narrative. Through an analysis of how citizenship was lived, practiced and deployed by women in France in the modern period, *Practiced Citizenship* demonstrates how gender normativity and the resulting constraints placed on women nevertheless created opportunities for a renegotiation of the social and sexual contract.
