War Story Longarm,2004 WAR STORY is the story of a war It is a personal observation from 1964 of how the American War in Vietnam came to be It is also my first covert mission We flew through six unfriendly countries and came back alive by a combination of accident and design Nobody noticed The real events of my time have today become things that never were Media fiction has become history This is not a surprise It is the normal course of covert war I am reversing that normal course This is a message from the real world It is probably not the world in which you think you live Maybe something very important to you is not there at all I know that feeling How you deal with it is up to you This is not useless ancient history The rules of this conflict are a part of human nature They are always the same If you understand Vietnam in 1964 you will also understand the world around you You will be hard to control And that is my intention **Harrison Ford** Brad

Duke,2008-07-15 Harrison Ford has been labeled one of the top 100 stars of all time the sexiest man alive and the highest grossing actor in the history of film yet he still has the appeal of an average guy to whom the common man can relate He has worked in more than 40 films as well as in narration roles documentaries award shows and television appearances He has won more than two dozen awards including the Lifetime Achievement Award in 2000 This biographical and filmographic work covers Ford s personal life and career concentrating on his efforts in the film industry It examines in great detail more than 30 films including American Graffiti the several Star Wars outings Blade Runner The Fugitive and Air Force One It discusses the films inceptions writing casting sets schedules stunts filming obstacles openings earnings controversies and reviews Quotes and intimate anecdotes from the casts and crews are an added bonus Numerous photographs a complete film and television listing a bibliography and index complete the work New York Magazine ,1982-11-22 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted

resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine s consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Northern Ireland** Rona M. Fields,1980-01-01 The troubles in Ireland are not new They have taken a heavy toll in lives and perhaps more importantly in psychological health From testing and interviews with the children women and men of Northern Ireland beginning in 1969 Fields has developed a case study of the long term effects of stress on a population She identifies certain social control mechanisms which produce a mixture of chaos and docility in the troubled North and argues that England has established these in order to destroy the identity of the people a process of psychological genocide This volume applies social psychological theory to a concrete and ongoing situation in a way that is illuminating for the general reader and for the specialist Fields has done what might appear obvious to find out the effects of stress on a population by going to that population and observing what their lives are like The remarkable fact is that until now no one has done so
