Salzman, 2002-09-06 This book offers an unparalleled depth of historical research by surveying the extraordinary richness of literary culture in a single year Paul Salzman examines what is written published performed and in some cases even spoken during 1621 in Britain Well known works by writers such as Donne Burton Middleton and Raleigh are examined alongside hitherto unknown works in a huge variety of genres plays poems romances advice books sermons histories parliamentary speeches royal proclamations This is a work of literary history that greatly enhances knowledge of what it was like to read write and listen in early modern Britain [The Ashgate Research Companion to The Sidneys, 1500-1700](#) Michael G. Brennan, Mary Ellen Lamb, 2020-07-26 Few families have contributed as much to English history and literature indeed to the arts generally as the Sidney family This two volume Ashgate Research Companion assesses the current state of scholarship on family members and their impact as historical and literary figures in the period 1500 1700 Volume 1 Lives begins with an overview of the Sidneys and politics providing some links to court events entertainments literature and patronage The volume gives biographies to prominent high profile Sidney women and men as well as sections assessing the influence of the family in the areas of the English court international politics patronage religion public entertainment the visual arts and music The focus of the second volume is the literary contributions of Sir Philip Sidney Mary Sidney Herbert Countess of Pembroke Lady Mary Wroth Robert Sidney Earl of Leicester and William Herbert Earl of Pembroke [The Cambridge History of Early Modern English Literature](#) David Loewenstein, Janel Mueller, 2003-01-16 This 2003 book is a full scale history of early modern English literature offering perspectives on English literature produced in Britain between the Reformation and the Restoration While providing the general coverage and specific information expected of a major history its twenty six chapters address recent methodological and interpretive developments in English literary studies The book has five sections Modes and Means of Literary Production Circulation and Reception The Tudor Era from the Reformation to Elizabeth I The Era of Elizabeth and James VI The Earlier Stuart Era and The Civil War and Commonwealth Era While England is the principal focus literary production in Scotland Ireland and Wales is treated as are other subjects less frequently examined in previous histories including women s writings and the literature of the English Reformation and Revolution This history is an essential resource for specialists and students **Idioms of Self Interest** Jill Phillips Ingram, 2013-10-18 Idioms of Self Interest uncovers an emerging social integration of economic self interest in early modern England by examining literary representations of credit relationships in which individuals are both held to standards of communal trust and rewarded for risk taking enterprise Drawing on women s wills merchants tracts property law mock testaments mercantilist pamphlets and theatrical account books and utilizing the latest work in economic theory and history the book examines the history of economic thought as the history of discourse In chapters that focus on The Merchant of

Venice Eastward Ho and Whitney's Wyl and Testament it finds linguistic and generic stress placed on an ethics of credit that allows for self interest Authors also register this stress as the failure of economic systems that deny self interest as in the overwrought paternalistic systems depicted in Shakespeare's Timon of Athens and Francis Bacon's New Atlantis The book demonstrates that Renaissance interpretive formations concerning economic behaviour were more flexible and innovative than appears at first glance and it argues that the notion of self interest is a coherent locus of interpretation in the early seventeenth century
