PATTERNS OF PIETY

Women, Gender and Religion in Late Medieval and Reformation England

Christine Peters

Patterns Of Piety Women Gender And Religion In Late Medieval And Reformation England

Thomas Betteridge, Greg Walker

Patterns Of Piety Women Gender And Religion In Late Medieval And Reformation England:

Patterns of Piety Christine Peters, 2003-05-15 This book offers a new interpretation of the transition from Catholicism to Protestantism in the English Reformation and explores its implications for an understanding of women and gender It argues that late medieval Christocentric piety shaped the nature of the Reformation and reassesses assumptions that the loss of the Virgin Mary and the saints was detrimental to women In defining the representative frail Christian as a woman devoted to Christ the Reformation could not be an alien environment for women while the Christocentric tradition encouraged the questioning of gender stereotypes

Gender and Authority in the Late Medieval Church Ian Forrest, 2025-06-15 Gender and Authority in the Late Medieval Church asks a deceptively simple question How did the governance of the medieval institutional church remain exclusively male despite plentiful evidence of women being as capable and devout as men The remarkable endurance of an all male clergy is an important element of medieval church government one that is frequently taken for granted in the historiography and is connected to another overlooked feature of episcopal authority the strategies that bishops used to secure the compliance of a relatively autonomous clergy As Ian Forrest shows bishops kept their clergy in check through normative standards of masculinity that necessarily disqualified women from leadership roles Everywhere in the medieval church were women who had the capacity the resources and often the ambition to take part in governance from abbesses to priests servants mothers sisters and unofficial wives Bringing together evidence of female activity at the margins of the institutional church Forrest argues that the male monopoly on formal power was haunted by female capability and aspiration at every turn Drawing on case studies from the English diocesan clergy between the mid thirteenth and early sixteenth centuries he explores how women s involvement in governance was rendered unthinkable through the very discursive strategies that bishops used to control their male clergy In doing so Gender and Authority in the Late Medieval Church tells an integrated history that explains how both the exclusion of women and the inclusion of men underpin a rigidly gendered system of religious governance

Women, Reform and Community in Early Modern England Melissa Franklin-Harkrider, 2008 Katherine Willoughby duchess of Suffolk was one of the highest ranking noblewomen in sixteenth century England She wielded considerable political power in her local community and at court and her social status and her commitment to religious reform placed her at the centre of the political and religious developments that shaped the English Reformation By focusing on her kinship and patronage network this book offers an examination of the development of Protestantism in the governing classes during the period The importance of gender in the process of spiritual transformation emerges clearly from this study showing how the changing religious climate provided new opportunities for women to exert greater influence in their society

BOOK JACKET **The Oxford Handbook of Tudor Drama** Thomas Betteridge, Greg Walker, 2012-07-19 The Oxford Handbook to Tudor Drama is the authoritative secondary text on Tudor drama It both integrates recent important research across different disciplines and periods and sets a new agenda for the

future study of Tudor drama questioning a number of the central assumptions of previous studies Balancing the interests and concerns of scholars in theatre history drama and literary studies its scope reflects the broad reach of Tudor drama as a subject inviting readers to see the Tudor century as a whole rather than made up of artificial and misleading divisions between medieval and renaissance religious and secular pre and post Shakespeare The contributors both the established leaders in their fields and the brightest young scholars attend to the contexts intellectual theatrical and historical within which drama was written produced and staged in this period and ask us to consider afresh this most vital and complex of periods in theatre history The book is divided into four sections Religious Drama Interludes and Comedies Entertainments Masques and Royal Entries and Histories and political dramas **John Capgrave's Fifteenth Century** Karen A.

Winstead,2013-04-23 Britain of the fifteenth century was rife with social change religious dissent and political upheaval Amid this ferment lived John Capgrave Austin friar doctor of theology leading figure in East Anglian society and noted author Nowhere are the tensions and anxieties of this critical period spanning the close of the medieval and the dawn of early modern eras more eloquently conveyed than in Capgrave s works John Capgrave s Fifteenth Century is the first book to explore the major themes of Capgrave s writings and to relate those themes to fifteenth century political and cultural debates Focusing on Capgrave s later works especially those in English and addressed to lay audiences it teases out thematic threads that are closely interwoven in Capgrave s Middle English oeuvre piety intellectualism gender and social responsibility It refutes the still prevalent view of Capgrave as a religious and political reactionary and shows rather that he used traditional genres to promote his own independent viewpoint on some of the most pressing controversies of his day including debates over vernacular theology orthodoxy and dissent lay and particularly female spirituality and the state of the kingdom under Henry VI The book situates Capgrave as a figure both in the vibrant literary culture of East Anglia and in European intellectual history John Capgrave s Fifteenth Century offers a fresh view of orthodoxy and dissent in late medieval England and will interest students of hagiography religious and cultural history and Lancastrian politics and society *The End of Satisfaction* Heather Hirschfeld,2014-04-17 In *The End of Satisfaction* Heather Hirschfeld recovers the historical specificity and the conceptual vigor of the term satisfaction during the sixteenth and early seventeenth centuries Focusing on the term s significance as an organizing principle of Christian repentance she examines the ways in which Shakespeare and his contemporaries dramatized the consequences of its re or de valuation in the process of Reformation doctrinal change The Protestant theology of repentance Hirschfeld suggests underwrote a variety of theatrical plots to set things right in a world shorn of the prospect of making enough satisfacere Hirschfeld s semantic history traces today s use of satisfaction as an unexamined measure of inward gratification rather than a finely nuanced standard of relational exchange to the pressures on legal economic and marital discourses wrought by the Protestant rejection of the Catholic sacrament of penance contrition confession satisfaction and represented imaginatively on the stage In so doing it offers fresh readings of the penitential

economies of canonical plays including Dr Faustus The Revenger's Tragedy The Merchant of Venice and Othello considers the doctrinal and generic importance of lesser known plays including Enough Is as Good as a Feast and Love's Pilgrimage and opens new avenues into the study of literature and repentance in early modern England

The Oxford Handbook of Mary Chris Maunder, 2019-08-07 The Oxford Handbook of Mary offers an interdisciplinary guide to Marian Studies including chapters on textual literary and media analysis theology Church history art history studies on devotion in a variety of forms cultural history folk tradition gender analysis apparitions and apocalypticism Featuring contributions from a distinguished group of international scholars the Handbook looks at both Eastern and Western perspectives and attempts to correct imbalance in previous books on Mary towards the West The volume also considers Mary in Islam and pilgrimages shared by Christian Muslim and Jewish adherents While Mary can be a source of theological disagreement this authoritative collection shows Mary's rich potential for inter faith and inter denominational dialogue and shared experience It covers a diverse number of topics that show how Mary and Mariology are articulated within ecclesiastical contexts but also on their margins in popular devotion Newly commissioned essays describe some of the central ideas of Christian Marian thought while also challenging popularly held notions This invaluable reference for students and scholars illustrates the current state of play in Marian Studies as it is done across the world

Conversions Simon Ditchfield, Helen Smith, 2017-01-06 Conversions is the first collection to explicitly address the intersections between sexed identity and religious change in the two centuries following the Reformation Chapters deal with topics as diverse as convent architecture and missionary enterprise the replicability of print and the representation of race Bringing together leading scholars of literature history and art history Conversions offers new insights into the varied experiences of and responses to conversion across and beyond Europe A lively Afterword by Professor Matthew Dimmock University of Sussex drives home the contemporary urgency of these themes and the lasting legacies of the Reformations

Madam Britannia Emma Major, 2012 Using Britannia as a central figure this book explores the neglected relationship between women church and nation It argues that Britannia became established as an emblem of nation from 1688 and gained in importance over the following century It draws on an exciting range of material to explore the extent and significance of women's involvement in debates about the new British nation and the Church of England Discussing a wide range of printed sources including letters poetry novels plays journals sermons devotional literature political tracts and travel writing it also uses manuscript sources and frontspieces paintings drawings and graphics satire to bring to life debates about identity faith and nation Writers discussed include Elizabeth Burnet Elizabeth Carter Catherine Talbot Samuel Richardson Thomas Amory Samuel Foote Elizabeth Montagu Hester Lynch Thrale Piozzi Anna Laetitia Barbauld Hannah More along with images by William Hogarth John Flaxman Francis Hayman James Gillray and the Cruikshanks

Pieties in Transition Elisabeth Salter, 2017-05-15 This significant and innovative collection explores the changing piety of townspeople and villagers before during and after the Reformation It brings together leading and new

scholars from England and the Netherlands to present new research on a subject of importance to historians of society and religion in late medieval and early modern Europe Contributors examine the diverse evidence for transitions in piety and the processes of these changes The volume incorporates a range of approaches including social cultural and religious history literary and manuscript studies social anthropology and archaeology This is therefore an interdisciplinary volume that constitutes a cultural history of changing pieties in the period c 1400 1640 Contributors focus on a number of specific themes using a range of types of evidence and theoretical approaches Some chapters make detailed reconstructions of specific communities groups and individuals some offer perceptive and useful analyses of theoretical and comparative approaches to transition and to piety and others closely examine cultural practices ideas and tastes Through this range of detailed work which brings to light previously unknown sources as well as new approaches to more familiar sources contributors address a number of questions arising from recent published work on late medieval and early modern piety and reformation Individually and collectively the chapters in this volume offer an important contribution to the field of late medieval and early modern piety They highlight for the first time the centrality of processes of transition in the experience and practice of religion Offering a refreshingly new approach to the subject this volume raises timely theoretical and methodological questions that will be of interest to a broad audience
