Patterns of Power and Authority in English Education Frank Musgrove, 2019-07-31 First published in 1971 this book argues that schools at the time were underpowered due partly to circumstances within contemporary educational institutions but chiefly to their relationships with the wider social environment It suggests that schools lacked bargaining power and that their position deteriorated because they had marketed an ev

English Popular Education 1780-1975 David Wardle, 1976-08-12 An account of the development of education in England from the closing years of the eighteenth century when an attempt was first made to provide an education for all children The author looks in turn at the children being taught the teachers who taught them the methods they used the curriculum and the social and intellectual influences which affected them

The English School (Volumes I and II) Malcolm Seaborne, Roy Lowe, 2022-07-30 Britain has a rich heritage of school buildings dating from the later Middle Ages to the present day While some of these schools have attracted the attention of architectural historians they have not previously been considered from the educational viewpoint Even schools of little or no architectural interest are important sociologically since the changing architecture of schools reflects changing ideas about how children should be educated and organized for teaching purposes Documentary material relating to education is often fragmentary and buildings may thus constitute the only real source of knowledge about the development of particular schools and can also throw light on general educational history Originally published in 1971 and 1977 these books are therefore not only a major contribution to architectural history but also a study in the development of educational ideas and practices from the fourteenth to the twentieth century

Political Relationship and Narrative Knowledge Peter B. Armitage, 2000-06-30 Armitage taught for one year in a British grammar school from 1971 to 1972 when the school amalgamated with a secondary modern school to form a comprehensive

school He followed the political practices and episodes of the amalgamation in relation to their political and educational significance The amalgamation seemed to result in an ineffective and underperforming school and he tried to introduce practical and constructive changes His narrative describes his political struggle to reform the school in the face of an anti democratic and authoritarian culture The causes of failure are analyzed and the real complex and messy functioning of a school system uncovered The need to understand the politics and culture of schooling is advocated A model of micropolitical action and responsibility is demonstrated that could help result in improvement of educational institutions
