Patterns Of Power Politics In The Philippines Implications For Development:

The Politics of NGOs in Southeast Asia Gerard Clarke, 2006-05-17 The Politics of NGOs in Southeast Asia traces the history of the emergence of NGOs in the Philippines and southeast Asia and the political factors which encouraged this. The main focus is on the period from the mid 1990s when NGOs first became a notable force in the region. It documents the complex relations between NGOs and other political actors including the state, organised religion, foreign donors, the business sector and underground insurgent groups and their impact on NGO strategy. **The Social Dynamics of Deforestation in the Philippines** Gerhard van den Top, 2003 This work offers a detailed case study on the dynamics of forest use degradation and loss in Northeast Luzon, Philippines. Following an interdisciplinary approach, the study charts the degradation and loss of forest in this area between 1950 and 1990 as it relates to the social and political context of logging, forest migration and changes in upland agriculture. Based on ten years of research, the author introduces us to the actions, livelihood options and motives of all the principal groups of actors. ***Philippine Politics*** Lynn White III, 2014-12-17 Philippine political history, especially in the twentieth century, challenges the image of democratic evolution as serving the people and does so in ways that reveal inadequately explored aspects of many democracies. In the first decades of the twenty-first century, the Philippines has nonetheless shown gradual socioeconomic progress. This book provides an interpretive overview of Philippine politics and takes full account of the importance of patriotic Philippine factors in making decisions about future political policies. It analyses whether regional and local politics have more importance than national politics in the Philippines. Discussing cultural traditions of patronism, it also examines how clan feuds localize the state and create strong local policies. These conflicts in turn make regional and family-run polities collectively stronger than the central state institution. The book goes on to explore elections in the Philippines and, in particular, the ways in which politicians win democratic elections, the institutionalized role of public money in this process and the role that media plays. Offering a new interpretive overview of Philippine progress over many decades, the author notes recent economic and political changes during the current century while also trying to advance ideas that might prove useful to Filipinos. Presenting an in-depth analysis of the problems and possibilities of politics and society in the Philippines, the book will be of interest to those researching Southeast Asian Politics, Political History and Asian Society and Culture. **Government & Politics in Southeast Asia** John Funston, 2001 In this substantial and referenced study, nine leading scholars present from inside the history, society, geography, economy and governmental institutions of each of the 10 ASEAN countries: Brunei, Cambodia, Indonesia, Laos, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam. **Organizing for Democracy** G. Sidney Silliman, Lela Garner Noble, 1998-05-01 The number, variety and political prominence of non-governmental organizations in the Philippines present a unique opportunity to study citizen activism. Nearly 60,000 in number, by some estimates, grassroots and support organizations promote the interests of farmers, the urban poor, women and indigenous peoples. They provide an avenue for political participation and a

mechanism unequaled elsewhere in Southeast Asia for redressing the inequities of society Organizing for Democracy brings together the most recent research on these organizations and their programs in the first book addressing the political significance of NGOs in the Philippines *A Generation Later* James F. Eder,1999-09-01 *A Generation Later* moves beyond analytical models of rural change that focus on the peasant agricultural aspect of rural communities and makes a convincing case for an approach that integrates farm and nonfarm occupations and does justice to the conditions of occupational multiplicity that characterize to an increasing extent many of the rural communities in Asia In this context it challenges conventional and simplistic peasant to proletarian views of change Rather than finding a dreary and dispirited landscape of sameness and hardship it offers some empirical support for amore optimistic view of the region s future one of growing household prosperity and widespread individual opportunity *Modern Philippines* Patricio N. Abinales,2022-07-08 This comprehensive thematic encyclopedia focuses on the Philippines and explores the geography history and society of this important island nation The Philippines is a nation that has experience being ruled by two separate colonial powers home to a people who have had strong attachments to democratic politics with a culture that is a rich mix of Chinese Spanish and American influences What are some important characteristics of contemporary daily life and culture in the Philippines today Thematic chapters examine topics such as government and politics history food etiquette education gender marriage and sexuality media and popular culture music art and more Each chapter opens with a general overview of the topic and is followed by alphabetically arranged entries that hone in even closer on the topic Sidebars and illustrations appear throughout the text and appendixes cover a glossary facts and figures holidays chart and vignettes that paint a picture of a typical Day in the Life *The Economy of the Philippines* Peter Krinks,2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier This book critically analyses the Filipino economy and attempts to explain the problems that it has faced as well as the solutions that need to be put into practice This accessible and comprehensive book will be of great use to students academics and business professionals with an interest in the economies of Asia *Communities and Conservation* J Peter Brosius,Anna Lowenhaupt Tsing,Charles Zerner,2005-07-14 A group of distinguished environmentalists analyze and advocate for community based natural resource management CBNRM They offer an overview of this transnational movement and its links between environmental management and social justice agendas This book will be valuable to instructors practitioners and activists in environmental anthropology justice and policy in cultural geography political ecology indigenous rights conservation biology and community based cultural resource management **Booty Capitalism** Paul D. Hutchcroft,2019-04-15 In the early postwar years the Philippines seemed poised for long term economic success within the region only Japan had a higher standard of living By the early 1990s however the

country was dismissed as a perennial aspirant to the ranks of newly industrializing economies unable to convert its substantial developmental assets into developmental success. Major reforms of the mid 1990s bring new hope, explains Paul D. Hutchcroft, but accompanying economic gains remain relatively modest and short lived. What has gone wrong? The Philippines should have all the ingredients for developmental success: tremendous entrepreneurial talents, a well educated and anglophone workforce, a rich endowment of natural resources, a vibrant community of economists and development specialists, and abundant overseas assistance. Hutchcroft attributes the laggard economic performance to long standing deficiencies in the Philippine political sphere. The country's experience, he asserts, illuminates the relationship between political and economic development in the modern Third World. Through careful examination of interactions between the state and the major families of the oligarchy in the banking sector since 1960, Hutchcroft shows the political obstacles to Philippine development. Booty capitalism, he explains, emerged from relations between a patrimonial state and a predatory oligarchy. Hutchcroft concludes by examining the capacity of recent reform efforts to encourage transformation toward a political economic order more responsive to the developmental needs of the Philippine nation as a whole.
