

The background of the book cover is a high-magnification scanning electron micrograph (SEM) of a fungal hypha. The hypha is a long, tube-like structure with a highly textured, almost corrugated or ribbed surface. It is oriented diagonally from the top-left towards the bottom-right. The color is a monochromatic brown, with lighter tan highlights on the ridges and darker brown shadows in the grooves, emphasizing the three-dimensional structure. The overall image has a grainy, high-contrast quality typical of SEM photography.
