*Contemporary American Literature* John Matthews Manly,Edith Rickert,1922      *Russomania* Rebecca  
Beasley,2020-03-31 *Russomania* Russian Culture and the Creation of British Modernism provides a new account of modernist  
literature s emergence in Britain British writers played a central role in the dissemination of Russian literature and culture  
during the early twentieth century and their writing was transformed by the encounter This study restores the thick history  
of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical  
figures and institutions as well as individuals The dominant account of British modernism privileges a Francophile genealogy  
but the turn of the century debate about the future of British writing was a triangular debate a debate not only between  
French and English models but between French English and Russian models Francophile modernists associated Russian  
literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while  
individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing  
This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture  
was deployed in the close relationships between writers editors and politicians who made up the early twentieth century  
intellectual class the British intelligentsia *Russomania* argues that the most significant impact of Russian culture is not to be  
found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period  
the relation between language and action writer and audience and the work of art and lived experience The resulting account  
brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists different critical  
values and stronger lines of connection to the realist experiments of the Victorian past and the anti formalism and revived  
romanticism of the 1930s and 1940s future      **Monthly Bulletin of the Carnegie Library of Pittsburgh** Carnegie Library
